That there are several young business men in Bellefonte who occupy high and honorable positions but the trouble is they, as the old saying goes, "feel their oats." The common business man or laborer cannot go into presence without these gentlemen putting on airs and trying to make the impression as to their superiority over the ordinary run of mankind. On the other hand if a man of means comes into their presence they stand ready to tody to any suggestion they make because they imagine that that's the proper caper in order to keep in with the 400. "I am through with it." So spoke Senator Dolliver of Iowa. He meant that he would never raise his voice, either in the Senate of the United States or from the stump, in defense of excessive protection. President Taft is leading a movement -through from behind the scenes-to defeat Senator Robert M. LaFollete of Wisconsin. PATRONAGE STILL WITHHELD.

An inspired news item in which was denied that President Taft was withholding patronage from progressive senators was recently sent from Washing-ton to all parts of the United States. This information was entirely unfounded. None of the genuine progressives are receiving a morsel of the federal patronage within their districts.

The dog finally came out howling and with the York and Chicago; 3,000 of the biggest druggists throughout the United States operate National Cigar Stands in their stores and purchase their cigars together. This immense single uying power has made possible some evidence that he had been bitten by a snake. Mr. Haupt at once threw a fire ball into the brush and out came a large copperhead snake. Edward pulled from his pocket a revolver and produced. in a few minutes the vicious reptile was put to rest. But what of the dog? He soon looked as if he had been blown up with a bellows. His head was about twice its original size.

They finally advised me to try a cortain medical a certain medical college; but it a treatment did no good. At the time I was induced to try Cuticura, he was so bad that I had to cut his hair off and put the colling on him on handages.

Cutieura Ofntment on him on bandages. Cuticura Ofntment on him on bandages, as it was impossible to touch him with the bare hand. There was not one square inch of skin on his whole body that was not affected. He was one mass of sores. The bandages used to stick to his skin and in removing them it used to take the skin off with them, and the screams from the poor child were heartbreaking. I began to think that he would never get well, but after the second application of Cuticura Ointment I began to see signs of improvement, and with the third and fourth applications the sores commenced to dry up. His skin peeled off twenty times, but it with the third and fourth applications the sores commenced to dry up. His skin peeled off twenty times, but it finally yielded to the treatment. Now I can say that he is entirely cured, and a stronger and healthier boy you never saw than he is to-day, twelve years or more since the cure was effected. Millions of women prefer Cuticura Soap to all other skin soaps for preserving, purifying and beautifying the skin, scalp, hair and nands. For rashes, itchings and chafings, red, rough hands, dry, thin and falling hair, for infantile eruptions and skin blemishes and every purpose of the toilet, bath and nursery, Cuticura Soap and Cuticura Ointment are invaluable.
