#### DEMOCRATIC STATE TICKET.

For Governor, WEBSTER GRIM, of Bucks County. For Lieutenant Governor, SAMUEL B. PRICE, of Scranton For Secretary of Internal Affairs, JAS. L. BLAKESLEE, of Carbon Co. SAM'L B. PHILSON, of Somerset Co.

Democratic Congressional Ticket. WILLIAM C. HEINLE, of Bellefonte.

Democratic Senatorial Ticket. For State Senator, GEORGE M. DIMELING, of Clearfield.

#### Democratic County Ticket. J. CALVIN MEYER, of Bellefonte.

At the democratic state convention in Allentown, last week, the three delegates from this county voted for Berry for governor. This was in accordance with the sentiment of the democracy of this county. Delegates should always represent the choice of their constituents in the matter of making nominations.

You will find the platform adopted by the Democratic convention at Allentown, last week, on page 2 of this issue. It is good reading, broad enough for every good citizen to stand on and strong enough to carry the Keystone State through any emergency. On the same page will be found a brief sketch of the different men plac- street. ed on the State ticket.

Dalzell spent \$9,000 and "Slippery' Joe Sibly \$40,0000 to secure Republican nominations for congress from this State. Most of Sibley's money came from the Standard Oil company, while the large steel corporations about Pittsburg put up the cash for Dalzell. This is what you call practical politics and the kind of men who make our evils of the trusts has little concern.

Since the Democratic convention met at Allentown the Deinocracy of this State has been in a fezerish condition. The withdrawal of Menson from the contest for Governor, at the last moment, has mystifled his friends and he has been severely censured for \$2,200, \$800, \$2,000, \$2,000, and the acbeing in what is considered a deal with Hall, Guffy and even Penrese. All sorts of insinuations are made that he betrayed his friends at the make the loan. critical moment. Berry and Creasy declare it was a move to defeat Berry for the nomination.

Up to this time Mr. Munson's course, beyond the brief letter withdrawing from the contest, is little understood, and we feel that the man had some good and sufficient reason for taking the course he did; and a more definite statement from him possibly would light up many places on our thorough-make things more satisfactory, with fares that cannot be reached by the his party and the public.

Many regard Munson's withdrawal as a trick to secure Grim's nomination. For this reason, there is no denying that there is considerable dissatisfaction in the State over Senator dim. Grim's nomination and even the Philadelphia "Record" and the Pittsburg withdraw from the ticket. This open criticism from a source like this is significant that the convention was manipulated by certain elements who do not enjoy the confidence of the rank and file of the Democratic party.

This situation is a misfortune at this time, when there was hope of bringing about a change in Pennsylvania. From it some good may come termilk and in the last six innings he as it may arouse a healthier sentiment did not let one Valentine man score. for the future of the organization, which of late years appears to have Rowe was going to gobble the penbeen the political plaything of a few nant.

#### wealthy men. PATTON SPENT \$5,631.

According to the return made by Charles E. Patton, the Republican nominee for congress in this district, lively the enormous sum of \$5,631 was spent crow like a hen that had just layed an by him at the primaries. When you John Love. Scoot couldn't throw the take into consideration the fact that he will have a general election to meet Friday after Keller's team played Val-with its still larger expenses, does it the steam and in the fifth inning not appal the average citizen how enormous sums are spent to secure an office of small salary. Of this sum by the time the nine innings were Chairman Keller got \$500 for his or-ganization, which may account for their enthusiasm for Patton. We doubt follows: if this money came out of Patton's pocket, as he is reported not exactly Rowe ..... a wealthy man. If the truth were told Keller ..... we believe that the influence that furnished the boodle for Sibley and Dalzell, is the same back of Patton-the

Patton starts as a boodler, and if elected we question if his services would be for the common people.

#### COUNCIL MEETING.

On Monday evening the Bellefonte ouncil convened with all the councilmen present with the exception of Yerger. Beezer and Sheffer. Under he was paid only \$1.20 a day while the other men working on the streets received \$1.50 a day. After the mat-ter had been talked over and referred to street commissioner Samuel Show-"Joe" got up to enter strong protestations, when President Harper felled the gavel until everything re-sounded. This made "Joe" mad as a bull, and he took his hat and disappeared into the darkness. It was hought they would have to appoint a body guard to take "Cal" home, but of 86 per cent. wasn't to be seen afterwards. The solution of the trouble was, Mr. Showers stated, that he paid the men

James Murray, who resides in the vicinity, laid in the complaint that it was a nuisance. Mr. Noll promised to keep it free of stench by fre-quently cleaning it. He claimed that was simply contrariness on the part of Mr. Murray, who wanted to make him trouble. Council will very likeconcede to Mr. Noll the privilege

He also asked for the enewal of the following notes; \$2,000, cumulated interest of the same which amounted to \$100. There will be a note coming due before the next meet-

After the meeting of council Supt. McAvoy, of the Electric Light company, invited the councilmen to west inn street to witness a little demonstration as to the better lighting of the town. The purpose is to try and eliminate the arc lights on the cor-ners and place Tuncsten lights along the street. That is, for every arc light they would distribute four Tuncsten lights along every square. This, Supt. McAvoy claims, giare from the large lights on the cor-ners. There are now fifty-six arc lights and under the new plan there would be 224 lights. The demonstration was a success and, no doubt, would give satisfaction if the lamps were not left to go until they become dim. The proposition should, how-ever, be well considered before any change is made, although the suggestadelphia "Record" and the Pittsburg ed plan might be the best. The lamps made a strong light on Monday eventire transaction, and demand that he ing and the people out in that vicinity seemed well pleased with it.

### Auditors, Take Notice.

Many of the auditors in the bor-ughs and townships in Centre coundo not seem to know the law regulating the setlement of audits, and for that reason we voluntarily give the following information: The Act of Assembly of 1909 says

that auditors are required to publish by posting printed handbills in at least five pulic places in the respective dis-tricts, and shall file a copy of said re-port in the office of the clerk of the Court of Quarter Sessions of ounty within ten lays after the audit

Up to this time very few accounts have been filed with the Prothonotary, which is rather risky, and the neglect or nonperformance of this duty carwith it a fine of \$100. It is there fore high time for auditors all over the county to get busy or someone may be after them

### Clyde Fitch's Joke.

"Clyde Fitch was an indefatigable worker." said an actor who has played in many of the Fitch comedies. "When he had a play on the stocks be would labor over it day and night, often scarcely pausing for his meals and getting very little sleep; consequently his health suffered. He would work until on the verge of a nervous breakdown, and then his physician would step in and force him to knock off.

"During one of these periods of enforced idleness he was lounging in the Players club one day when Harry B. Smith, the prolific comic opera libretrist, strolled in.

"'What are you doing now?' asked Smith

"'I am in my doctor's bands, replied Fitch. 'He tells me I'm in a bad way and has absolutely forbidden me to do any brain work. "That's tough, said Smith. 'How

do you manage to put in the time? "Oh. I'm writing the libretto of a musical comedy! replied Fitch, with one of his cynical smiles."-New York

Hair Monstrosities. French theater managers in the eighteenth century had worse evils than picture hats to contend against. Marie Antoinette, who was short even according to French standards, set the fashion of high coiffures, and ultrafashionable women prided themselves on measuring four feet from their chins to the tops of their beads, These structures took about six hours to erect, the bairdresser mounting a ladder in the process. Some coiffures were almost as broad as they were long, with wings sticking out about eight inches on each side of the bead. For the "frigate" coiffure the bair was rippled in a buge pile to represent the waves of an angry sea and surmounted by a fully rigged ship. As a consequence of these monstrosities disturbances in theaters occurred aimost daily until an ordinance was issued against the admission of women with high coiffures to the floor of the house. -Chicago News.

### Yet He Meant Well.

Just as the train was leaving the Fifty-eighth street elevated station a man who had got off there burried along the platform and spoke to a passenger sitting by an open window in the smoking car.

"Quick!" be cried. "Please band me that package. I left it on the seat when I got out just now."

# Perfumes In Ancient Days.

Old as the history of the world itself is that of the queen of flowers. The ancient Greeks and Romans reveled in roses. They were used lavishly at their feasts. In the time of the republic the people had their cups of Falernian wine swimming with blooms, and the Spartan soldiers after the battle of Cirrha refused to drink any wine that was not perfumed with roses, while at the regatta of Baiae the whole surface of the Lucrine lake was strewn with flowers.

Regularly in the spring they flew away and joined their wild companions, made their nests and reared a family. But when this was over they came back to the garden again and were as tame as ever. But the curious thing was that after one or two seasons they brought another jackdaw with them, presumably the young of one of them, which was just as tame as themselves, although nothing had ever been done to tame it, so that it was impossible to tell which were the original favorites and which was the new one. Moreover, when after a few years one of these jackdaws was accidentally killed another was brought by the other two.

#### Hunt the Whistle.

One of the party must be ignorant of this game or the fun of it is lost. The players sit around as in hunt the slipper. The one who does not know the game is put in the center to hunt the whistle.

Meantime the others have managed to fasten it to her dress and blow it. The players keep their hands in motion all the time as if they were passing the whistle, and sometimes one of the group will whistle to make the seeker think he has it. But it is always blown, of course, behind herself, and the fun is to see her whirling round in search of it.

This trick should not be long continued or it would be unfair. It is, of course, only a jest, and jests require great consideration, kindness and cour tesy in the acting or they are very ob-
