William Gehret Dies From His Injuries-Occurred at a Railroad Crossing-In Henry Low'y's Automobile -A Sad Affair.

One of the most sad and distressing accidents that has occurred within the confines of Centre county for a long ceived statements last week and a time was the one that took place near Hecla Park on Wednesday afternoon of last week, in which William Gehret, a well known citizen of Bellefonte. met almost an instant death. Henry Lowry, of Bellefonte, has the contract of building the Country Club house at If so, do you not think that between Hecla, and on Wednesday morning he went to Hecla in his automobile, taking with him Mr. Gehret for company and a ride. About 4:15 o'clock in the afternoon they started home, taking what is called the near-cut to the pub lic road. Instead of this road passing the park it crosses the railroad about one-half mile west of Hecla Park Lawrence McMullen, of Hecla, was also in the car, and when they reached within one hundred feet of the railroad crossing McMullen heard a train coming from the direction of Bellefonte It proved to be an extra freight train, and as quick as possible Mr. Lowry turned his car down the track, running over the cattle guards. The next minute the engine struck the fender of the automobile and knocked it off. He had the presence of mind to keep on turning the steering wheel of the machine until he had it clear of the cars. McMullen jumped out of the car on the opposite side from the train and was horrifled to see Mr. Gehret lying along the railroad with his head on the track. He quickly pulled him off, and by this time Mr. Lowry was by his side. In getting out of the car Mr. Gehret was squeezed between the fender of the automobile and the moving cars, thus he was dragged a short distance. His skull was also fractur-ed and half of his face was smashed Naturally he was unconscious, and when the regular passenger train came along he was put on and brought to the Bellefonte hospital where he died at 6:12 o'clock the same evening.

Mr. Lowry says that on either side of the road where the accident took place there are small trees and bushes which prevents anybody from see-ing either way on the railroad track, and if it hadn't been for McMullen, all Mr. Lowry made the quick turn.

The deceased was 75 years of age last September and was enjoying the best of health. By trade he was a Nittany Furnace Co. He ranked as one of the best citizens of Bellefonte, being an upright, christian gentleman. He served as a soldier and belonged to Co. E. Penna. Cavalry, and was out over three years and was one of best soldiers who shouldered a

musket. Surviving are his wife, formerly Miss Sarah Miller, and the following children: Edward J., borough treasurer and contractor; Harry, Miss Liz-zie and Mrs. Orrian A. Kline. The funeral was held on Saturday morning, being in charge of Gregg Post, of which he was a member.

# Hoover Reunion.

The first Hoover reunion was held on the 4th of July, on the grounds of E. S. Hoover, in Cooper township, Clearfield county. Plans were made for the second annual meeting on the same date next year, when all those who live outside of the immediate community will receive special invitation. About 100 persons were present this year. The address of the day was delivered by Rev. Meredith, of Snow Shoe. A Hoover reunion has been held in the eastern part of the State for a number of years, and it is a pleasure to make this one an annual The new officers are: Hoover, president; Jackson Hoover, vice-president; Gilbert Hoover, treasurer; Will Hughes, secretary.

A Large Sale.

The public sale of the personal property of Irvin Gray, bankrupt, at Julian, July 7th, was largely attended, and many bidders were present from a dis-The sale amounted to over three thousand dollars; that was really more than anticipated. The Centre Democrat persuaded the trustee to do some very liberal advertising in this case, and we are certain in consequence good results followed.

Much of Mr. Gray's most valuable stock was not advertised at this sale, owing to legal questions arising over the ownership of same. After that is determined, it is possible that more valuable stock will be sold.

Woodmen's Pionic. The Lodge of Woodmen, of State College, will hold their annual picnic at Hunter's Park on Thursday, July 28th. It will be a basket picnic to which the public is cordially invited. Those who desire to spend the day in this beautiful grove can get there without any trouble as the Bellefonte Central Railroad Co. will run special trains between Bellefonte and State College. There will be plenty amusements for everybody.

Some newspapers report few snakes seen, and others report that the serpents are plenty. Then, too, some persons allege that rattlers can climb trees whilst others say a rattler cannot climb a tree, and refer the matter to Zoologist Surface for solving. These disputants can't be drinking the same kind of whisky, hence see snakes from different standpoints.

## The Young Men Not Guilty.

On Thursday evening an important ase was tried before Squire W. H. consent of the parents, left for Williamsport with a woman on a little visit. Mr. Cogan, not knowing where his child had gone, listened to some blacksmith and for forty years work-ed for the Valentine Iron Co, and the evidence showed clearly that neither of the young men was with the girl when she left Bellefonte, and at no time during her absence were they in her company. The case was dismissed and the costs placed on the county.

A Fire Cracker Did It. J. Burd, from below town, came along in a wagon with wife and children, and Mr. Burd had reached the point of the street a short distance below the Mensch home, where the lower side of the pike has quite a steep bank, a boy threw a lighted fire cracer under the horses, and caused them to back down over the bank, upsetting the wagon and throwing out the Burd family. Mr. Burd and a son each sustained two broken ribs, and Mrs. Burd also received some injuries, and one of the

One of the men in Centre county who could put Jeffries to sleep is Thomas Walker, 81 years of age. He is stalwart and quite hearty and can do as much work as many a man at 50 years. Recently he put up a bank barn on a farm on Buffalo Run, in seven and a half days; doing all the -work himself, with the exception of hauling the stone and lime. The barn is 14x21 feet, with a six-foot founda-tion wall, 24 inches at the bottom and 18 inches at the top. For a man of that age this seems to be more of a feat than an ordinary week's work. If there is another man in the county who can beat this record let us hear from him.
