Cook in Comfort You no longer need wear yourself out with the weakening heat of an intensely hot kitchen. You can cook in comfort.

Here is a stove that gives no outside heat. All its heat is concentrated at the burners. An intense blue flame (hotter than either white or red) is thrown upwards but not around. All the heat is utilized in cooking - none in outside heating.

New Perfection Oil Cook-stove. Wick Blue Flame. Entirely removes the discomfort of cooking. Apply a match and immediately the stove is ready. Instantly an intense heat is projected upwards against the pot, pan, kettle or boiler, and yet there is no surrounding heat - no smell - no smoke.

Why? Because The New Perfection Oil Cook-Stove is scientifically and practically perfect. You cannot use too much wick - it is automatically controlled. You get the maximum heat - no smoke. The burner is simple. One wick with a cloth cleans it - consequently there is no smell.
