PREPARATIONS FOR THE BUSINESSMEN'S PICNIC

CENTRE AND CLINTON COUNTIES TO HAVE ANNUAL OUTING.

AT HECLA PARK, AUGUST 23RD

Association Met at the Brockerhoff House—A Program Outlined and Committees Appointed—Appropriations for Entertainment.

One of the annual events that is looked forward to by residents of Centre and Clinton counties with much interest is the union outing held at Hecla Park, known as the Business Men's Picnic. As the time is almost here for this gathering the executive committee of the Business Men's Association of Centre and Clinton counties met at the Brockerhoff House on Tuesday afternoon and evening. The attendance was unusually large, and the spirit of enthusiasm manifested is an indication that the picnic this year will probably surpass any former gathering.

The meeting was called to order by the president, T. J. Smull, of Mackeyville. This was followed by the roll call and reading of the minutes by Secretary J. C. Meyer. The officers were then elected for the ensuing year. President, Philip Foster, of State College; vice president, Philip Kift, of Lock Haven; secretary, J. C. Meyer, of Bellefonte; treasurer, George W. Fredericks, of Lock Haven. It was then suggested and adopted that the picnic this year should be held on Tuesday, August 23rd. At this juncture D. I. McNaul, of the Lock Haven Democrat, offered the following resolution which was carried unanimously:

Whereas, since the last meeting of this association death has removed S. H. Bennison, a valuable member of the executive committee, now therefore be it resolved that we hereby give expression of our sympathy and universal love, and in evidence of our deep appreciation of his personality and helpful companionship the secretary be directed to spread on the minutes of the association this record of his death; and that a copy of this minute be forwarded to the family of the deceased with the assurance of our tenderest sympathy and condolence.

A similar resolution was offered by H. P. Harris on the death of Herdick Wood, director of the Repas band, of Williamsport, who was well and favorably known to the citizens of both Centre and Clinton counties.

Upon the motion of J. C. Meyer, David Chambers of Clarence, was made a member of the executive committee to take the place of Mr. Bennison. The next in order was the appointment of the several committees by Philip Foster, the newly-elected president, which are as follows:

Finance—John R. Thompson, of Salona; A. C. Mingle, of Bellefonte; A. D. Merrill, of Lock Haven; E. C. Tuten, of Bellefonte.

Amusement—H. P. Harris, Bellefonte; Frank E. Harder, Lock Haven; J. D. Soursbeck, Bellefonte; David Chambers, Clarence; Sidney Krumrine, Bellefonte; Philip Kift, Lock Haven.

Printing—D. G. Stuart, Bellefonte; Gross Mingle, Centre Hall; C. F. Brown, Lock Haven.

Music—George R. Meek, Bellefonte; Torrence Shearer, Lock Haven; John Bullock, Bellefonte.

The finance committee met and set aside \$500 as the newly-elected president, which are as follows: The several committees to be spent for the amusement of the day.

About 7:30 o'clock the guests were invited to the dining room where an excellent chicken and waffle supper was served. Mr. and Mrs. Fisher, of Zion, had rented the rooms and he purchased much of the furniture and linoleum on the floors. In about two hours everything had been disposed of to a number of other bidders present. The Attorney Miller, who had been suffering from rheumatism and other complications, was taken from his office to the hospital with the hope of straightening him out and, if possible, give him a new start.

Since Thursday the office has been thoroughly renovated, papered and painted so that they now present a very different appearance. Although Dr. Fisher has rented these offices it is his intention, at least for the present, to continue residing at Zion, and will, as usual, serve his large country practice. Dr. Fisher has been so long in practice in Centre county that it is not necessary for us to compliment him on his fitness as a practitioner. The only thing he wishes to see his new venture a success.

Donovan to Empire. The Tyrone Herald says: Thomas Donovan, of Lock Haven, has been appointed official umpire in Tyrone to take the place of Mr. Ward, of Altoona, who has resigned. It is quite certain that Mr. Donovan will prove an efficient official as he comes to Tyrone with the very best of recommendations. What the devotees of this city want is a man that thoroughly knows the game and is impartial in his decisions, and it is said Mr. Donovan is that sort of a fellow. He has officiated at many games played at State College between the different college teams and his rulings always gave satisfaction.

Mr. Donovan has also done good work in Bellefonte.

Anthony Gates's Will Probated. The will of the late Anthony Gates has been probated and he left \$200 to the St. John's Catholic church, for masses. To Mrs. Hannah Cummings, with whom he lived, he left \$150. All his other personal property and real estate, including a farm of twenty-three acres, he left absolutely to Rev. Father Patrick McArdle. The latter is located up along Muncy mountain, about three miles from Bellefonte. It is not very large but it would make a good chicken farm, and from those 23 acres Father McArdle might beat Wall Street making money.

Loose Stone Remedy. A Towanda mail carrier had nine supervisors arrested for not removing loose stone from the road as required by law. Six paid fines and costs and three held out, and the Court has decreed that they must pay up.

HEAT DON'TS FOR ALL.

The following is clipped from a medical journal and is published for the benefit of the editor of the Bellefonte Republican:

Don't stay in the sun any longer than is necessary. Don't wear dark, close-fitting or heavy clothing.

Don't wear a heavy, badly ventilated hat.

Don't fall to wet your hair frequently with cold water.

Don't fall to have as much air as possible in your sleeping room.

Don't fall to bathe at least once a day.

Don't fall to drink plenty of cool water to induce perspiration.

Don't drink iced water.

Don't drink alcoholic mixtures.

Don't eat heavy foods, much meat, or too much of anything.

Don't fall to eat fruits and fresh vegetables and salads.

Don't get excited.

ACADEMY INSTRUCTORS. The following is the corps of instructors for the Bellefonte Academy for the year commencing September 13th, 1910:

Rev. James P. Hughes, A. M., Principal Emeritus, (Princeton University), Mathematics.

James R. Hughes, A. M., Head Master, (Princeton University), Latin and Oratory.

Arthur H. Sloop, A. M., Assistant Head Master, (Dickinson College), (University of Michigan), Physics, Chemistry and Higher Mathematics.

Helen E. Canfield Overton, Preceptress, (Formerly of Minneapolis City Schools), Elementary English and Mathematics.

Isabella B. Hill, Ph. B., (Wesleyan University), (Columbia University), English, Rhetoric and Literature.

Rev. J. Allison Platts, Ph. D., (Alfred University), Bible History.

Gilbert L. Whiteford, B. S., Business Manager, (Maryland Agricultural College), (Columbia University), Book-keeping, Physical Geography, Mathematics.

Harold F. Sabine, Ph. B., (Hamilton College), French and German.

D. M. Evans, A. B., (Wesleyan University), Mathematics.

Fred E. Mallick, A. B., (Dickinson College), History, Ancient Languages and Classics.

David L. Hartstine, Ph. D., (Lafayette College), Higher Mathematics.

Miss Jennie Harper, (Bellefonte Academy), Elementary, English and Mathematics.

Directors—D. M. Evans, Athletics; R. L. Weston, Gymnasium; Mrs. Minnie A. Hughes, Matron.

In the above list two changes are noted. Prof. Mallick is the successor to Prof. Sherwood E. Hall; and Prof. Hartstine succeeds Prof. Frank Straight.

The prospects for a large student body this year are very bright.

OFFICE FURNITURE SOLD. With considerable regret Sheriff W. E. Hurley and a host of other citizens in Bellefonte witnessed with surprise on Thursday afternoon when they went to the office of James A. B. Miller, Esq., and saw the ruins and the wreck of what was once a prosperous law business.

Sheriff Hurley went there for the purpose of selling the office furniture to satisfy claims that had been presented to him for collection. At the same time a writ of habeas corpus was served upon Mr. Miller to get possession of the office. C. T. Gerberich, who has the running of the rooms, had been trying to get possession since last March. Everything in the office was sold by the piece, and some of the furniture went cheap, as the Sheriff was compelled to clear the offices of everything he left. Dr. P. S. Fisher, of Zion, has rented the rooms and he purchased much of the furniture and linoleum on the floors. In about two hours everything had been disposed of to a number of other bidders present.

The Attorney Miller, who had been suffering from rheumatism and other complications, was taken from his office to the hospital with the hope of straightening him out and, if possible, give him a new start.

Since Thursday the office has been thoroughly renovated, papered and painted so that they now present a very different appearance. Although Dr. Fisher has rented these offices it is his intention, at least for the present, to continue residing at Zion, and will, as usual, serve his large country practice. Dr. Fisher has been so long in practice in Centre county that it is not necessary for us to compliment him on his fitness as a practitioner. The only thing he wishes to see his new venture a success.

Donovan to Empire. The Tyrone Herald says: Thomas Donovan, of Lock Haven, has been appointed official umpire in Tyrone to take the place of Mr. Ward, of Altoona, who has resigned. Mr. Donovan has also done good work in Bellefonte.

Anthony Gates's Will Probated. The will of the late Anthony Gates has been probated and he left \$200 to the St. John's Catholic church, for masses. To Mrs. Hannah Cummings, with whom he lived, he left \$150. All his other personal property and real estate, including a farm of twenty-three acres, he left absolutely to Rev. Father Patrick McArdle. The latter is located up along Muncy mountain, about three miles from Bellefonte. It is not very large but it would make a good chicken farm, and from those 23 acres Father McArdle might beat Wall Street making money.

Loose Stone Remedy. A Towanda mail carrier had nine supervisors arrested for not removing loose stone from the road as required by law. Six paid fines and costs and three held out, and the Court has decreed that they must pay up.

LIVELY SESSION OF COUNCIL MEETING

A STATEMENT WILL BE MADE BY THE SOLICITOR.

REFORMS DEMANDED BY WOMEN

Ask for Cleaner Streets, Sunday Closing and Other Reforms—Councilmen Have a Tilt—A Question of Authority.

It is said that often a calm night is followed by a storm, and this can be contrasted with the meeting on Monday evening of the Bellefonte council. When the time to call the meeting to order arrived there was barely a quorum present, and indeed, a short session. As the evening progressed, the following councilmen were found seated around the long table: Harper, Kirk, Yergler, Musser, Judge, Shiever and Grimm. Through the report of Amnisk Judge, chairman of the street committee, it was ordered that a crossing be laid over Curtin street at the junction of Spring street. He reported a pavement being laid along the Gentzel property on north Spring street. It was also stated that the street committee, it was ordered that a crossing be laid over Curtin street at the junction of Spring street. He reported a pavement being laid along the Gentzel property on north Spring street. It was also stated that the street committee, it was ordered that a crossing be laid over Curtin street at the junction of Spring street.

A note for \$3,000 was drawn in favor of Treasurer J. C. Meyer for four months at 5 per cent, to take the place of one coming due to-day. H. C. Quigley, Esq., representing the local board of health, appeared before council in shape of an ordinance. Dr. Kirk contended that the State laws covered almost everything relating to the duties of the people with respect to the health and sanitary condition of the community, and any money spent in advertising an ordinance would be simply thrown away. On the other hand Mr. Quigley claimed that unless the rules of the State board were adopted the local health board was simply a figurehead, with no power to enforce the laws. The discussion was quite a brisk one, which ended in no definite action being taken on the part of council.

The matter being to occupy the attention of council was a communication from R. B. Taylor, who has the contract for making the State road through Bellefonte. As it is well known the State road is only sixteen feet wide, and a little wider on the north side. It is eight feet wider on the south side, adding four feet of macadamized road on each side of the street. Of course this would be extra, and thus the communication was in the form of a bid for the extra work at 50 cents a foot. As some of the councilmen wanted to look into the matter a little further the communication was tabled until next meeting night.

Sometimes ago a motion was passed making it necessary that before anything could be purchased for any department of the borough it would have to be sanctioned by two members of the committee. Yergler blamed Yergler for violating this resolution when he ordered a water pipe for the hospital, and Dr. Kirk objected to the same thing when \$12 was paid for gum boots to clean out the creek. Mr. Musser's defense was that council had ordered the work done and he understood that he was to order on the pipe. Things got pretty hot for awhile, and it looked as though there might be a clash. However, things finally cooled down and both Musser and Yergler went home feeling as proud as peacocks with their nobby beards and pretty plumage.

General Manager W. H. Meyers, of the Pennsylvania railroad, and the committee representing the 15,000 employees on the lines of the road east of Harrisburg, were in town during the week-end for the settlement of the wage controversy.

Each side claims to have gained all that it had been contending for in the negotiations which have been in progress for the past six months and both are claiming to be satisfied with the settlement.

The proposition offered by the railroad officials and accepted by the men, includes a minimum day of ten hours as detailed in the New York Central award. On certain runs where the company's present rate is higher, the rate will not be disturbed.

The classifications of these exceptional runs and the question of overtime were left to be decided at conference of the various members of the committees and the division superintendents of the lines which they represent.

It was further agreed that the men would be guaranteed twenty-six days work a month. On certain runs where the company's present rate is higher, the rate will not be disturbed.

Men now holding high runs are to be protected. A minimum of ten hours as a day's work is to be established and the short trip minimum of six hours is to be abolished.

Men are guaranteed twenty-six days work a month. The men assert the settlement was due to the clearing up of misunderstandings. The company asserts it has made no concessions other than those offered six weeks ago.

Saves Home from Destruction. William H. Froorman, of Coleville, woke up one morning and soon discovered his cozy little home was on fire. In some mysterious way it took fire in the attic and by the heroic efforts of the members of the family and his good neighbors, the flames didn't go further damage than to burn the roof off. Despite the scorching flames the bucket brigade fought their way to the attic where they extinguished the fire. The damage to the house was about \$200 and the furniture will probably reach \$100. The loss was covered by insurance. As stated the origin of the fire is a mystery, as there was no fire in the house and the chimneys all safe.

Men now holding high runs are to be protected. A minimum of ten hours as a day's work is to be established and the short trip minimum of six hours is to be abolished.

GOOD WORK DONE FOR POOR CHILDREN

A DESTITUTE FAMILY SECURES TIMELY SUPPORT.

A SAD TRIAL FOR A MOTHER

Family is Separated and Children Provided with Good Homes—Father was Dead—A Noble Work by Christian People.

Last January Ellis Horner, of Pleasant Gap, died very suddenly while sitting on a chair talking to his wife. Unfortunately it was discovered that the family was not only poor in the ordinary sense of the word, but they were really destitute. Kind neighbors made up a purse which saved the deceased a decent burial, and afterwards bought some of the necessities of life for the family. The widow was left with a family of small children which involved a great deal of care and responsibility in bringing them up. Not only this, Mrs. Horner would be compelled to make the living for the family, and the question was who would take care of the children while the mother was away?

Fortunately we have in Pennsylvania a Children's Home Society, with headquarters at Pittsburgh. Dr. Thomas S. Wilcox, pastor of the Bellefonte Methodist church, is one of the directors of the institute, and through his influence the attention of the Society was directed to this family of boys and girls. Some time ago George H. Thompson, the district superintendent, arrived at the Horner home and secured three of the children. He took them to Pittsburgh where in a short time he placed them in comfortable homes where they are being brought up under the very best of training. On Monday Supt. Thompson again appeared in Bellefonte and had papers made out in the prothonotary's office for releasing two more of the children—Jesse, a boy of five years, and Freda, a little less than a year of age. They are pretty and bright children, and it was a sad sight to see the mother part with them, as Supt. Thompson started to the depot to take the 4:45 train, and the poor woman's heart was almost broken. In all probability the children will be adopted into some good family.

While such a proceeding is sad, yet it is humane and right. Here was a mother with a family left destitute, with no means of support in sight. It was a constant trial for Mrs. Horner to provide for the children, but under the care and attention of the Society they will all have excellent homes, with the chances of their growing up to be good and useful men and women. An effort will be made to place the two last children in one home, so they will grow up together as sister and brother.

The State Children's Home Society has been doing a most commendable work. Since its organization it has placed 1299 children in homes where they have grown up and are filling positions of trust and honor, or otherwise might have filled out jails and penitentiaries for the want of proper training.

As a result of the Lucas Brothers, of Howard, in their new Ford auto attempting to pass a buggy drawn by two horses and occupied by George A. VonGunden, of Island, and a lady friend, on a narrow part of the State road, about half a mile from the Mill Hall axle factory, Sunday afternoon at 4 o'clock, one of the wheels of the auto caught on the concrete culvert guard on the upper side of the road, which threw the machine against the buggy, when the picnic, with the occupants and the horses, as well as the auto, containing four occupants, left the road, being thrown down a five-foot embankment into a swamp near the axle factory dam. The auto remained on the wheels, and hence the occupants escaped injury, but the machine was put out of business, several of the tires being ripped off, the rear axle was bent and one wheel and the mud gears were damaged.

Mr. VonGunden and his friend were thrown from the buggy against the auto and were painfully bruised, while the horses were cut and bruised to some extent. After striking and going through a fence, they continued into the swamp, and Mr. VonGunden waded out and unhitched them.

COURT HOUSE IMPROVEMENTS.

Everybody seems to be still on their job at the Court House. The marble is being placed on the front stairs and when completed it will be handsome.

The tiles are at work in the closets and vaults when completed will be the nicest kind of work to be found anywhere. Prothonotary Kimpfort is occupying a portion of Register Tuten's office until the repairs are made in his apartments.

This week a representative of the Howard Clock Co., of Boston, Mass., arrived and is now placing the new town clock in position. He expects to have everything in position in a week or more, and it will be a wonderful improvement over the old clock, although it is not worn out by any means. It has been ticking there for fifty years or more, and has served its purpose well. However, a new clock of a more modern make was needed in order to give better time and show to the outside world that Centre county was keeping abreast of the times. The dials will be illuminated at night, a convenience that will be appreciated by not only the citizens of the town but people coming in from the country. Everybody wants the time and it will not be long until it can be gotten in Bellefonte by night as well as by day.

R. E. Taylor is making considerable progress with his concrete work at the rear of the Court House. It takes lots of sand and cement but it will be a big improvement when finished.
