WM. BULLOCK STILL ALIVE.

Last week there was a rumor that William Bullock, of Port Matilda, had harm. Dave Gingery, of Martha, at once removed William to the office of Dr. J. A. Thompson, who gave his patient to understand that if he drank the contents of the bottle he had better be saying his prayers. Fortunately he did not swallow enough and thus he is still on the land of the living.

IMPORTANT DECISION.

Judge Smith has just rendered a decision in the Clearfield county courts in which he sustains a conviction and fine of \$10 and costs under the trespass act of April 14, 1905. The case was one against C. E. Swartz, who had been arrested for trespassing on the grounds and fishing in the dam of the DuBois Outing Club, at Sabula. The action was brought as a test case and is the first conviction in Clearfield county under the act. The decision defines the difference between an open stream in which any one who desires may fish and one from which the public can be excluded by means of a throne is believed to be tottering and trespass notice. It also settles many points on this subject long in dispute between sportsmen and landowners. His honor's chief reasons for sustaining the conviction was because the stream had been improved by the owners and had not been stocked with fish form. fish from the State hatcheries.

Farmers Buying Autos.

There are said to be more than 5,000 motor cars in storage in Kansas City and nearby towns waiting for the comboth the farmer and his team. ing of the harvest money to farmers in the southwest. These cars are val-ued at \$8,000,000, and according to the dealers, every one of them will be disposed of before the winter comes. One train of thirty-six cars from one factory, 216 cars in all, is being placed

in storage now. The cars are beginning to move into swarm. the southwest now, but dealers say the big movement will be in August. The average price of the cars will be about \$1,500; few of the cars run above \$2,500 in price, and usually the

higher priced cars go to the towns.

Bankers have found that their attempt to curb the investment in motor cars was a failure and they are lending money on them as before. One farmer in Stafford county, Kansas, has just bought six cars, one for himself and one for each of his five sons. He paid cash.

Same Old Story.

Making a fortune on the Stock Exchange looks easy as rolling off a log if a man only had money enough to get into the game. A bank cashier has far better means of information regarding the securities than the average man has, and he has plenty of money at his command, if he has no conscience. But how many men have speculated with other people's money that the lights turned low. It is harder to any meadache."
