Barry accompanied her to Hartleton where she will remain until a change for the better takes place. Rev. Barry returned to Bellefonte on Wednesday.

—Miss Helen Crissman, of Bellefonte, returned a short time ago from making an extended trip. She had a delightful time while away, but shortly after she returned she was compelled to take to her bed. —On Sunday evening, Rev. C. W. Winey, of the United Brethren church, and Rev. Fred Barry, of the Lutheran church, exchanged pulpits. This farm contains about 250 acres, and the price paid for it was \$11,000. Mr. Humes recently made improvements to the place amounting to \$1,900. Among these improvements was the digging of a deep well which gives plenty of water.

—Mr. and Mrs. Edwin Garman are now occupying the west end portion of the Garman residence on corner of Spring and High streets. —George Bush having returned from his trip around the world, (accompanied by his sister), can give one an entertaining and interesting account of some of the incidents and sights. George might deliver a lecture upon his trip which would draw a large house, no doubt, and thrice worth an admittance, which might go to the benefit of the hospital or some other meritorious purpose.

—Harvey Griffith and wife, who have been trying city life for the last year, have come to the conclusion that the best life is in the country, where they can breathe the fresh air, milk the cows, feed the chickens, and have a horse when they can come or go just as they please. To this end they will return to the old homestead, near Bellefonte, on or about the 1st of September.

—They say that it is just as broad as it is long if you go to the scenic route in a white car that isn't true. A constant attendant at the scenic route knows more than the person who goes just once in a while. There is something happening there each evening that cannot help but broaden a man's vision of things in general. That is, if he comes out more about the world when he comes out than when he went in. Every evening the pictures are getting better, and are the kind that take with the public. Then that twenty-four inch exhaust fan is the thing that is helping to make the place attractive these warm evenings. There is no draft, but an even temperature is kept up all the evening, making it a delightful place to be when you don't know what to do in order to get away from the hot atmosphere. Those who go are treated on the square.

Removing Loose Stone.

Bradford isn't the only county in which rural mail carriers are having supervisors picked up for not obeying the road law. Brookfield (Columbia county) supervisors have just paid a fine of \$16.60 for not removing the loose stone from the road, and there are said to be more to follow.

When a man loses his head unfortunately he retains possession of his tongue.
