#### A PROTEST.

The Tyrone Rod and Gun Club and

Another Law Suit. I read in The Centre Democrat, of a recent issue that the Tyrone Rod and Gun Club has had another law sult to prevent men from fishing in the Amy Run. What the final outcome

of this crusade may be, I am not writ-ing to argue. My purpose is to this end: that the well-meaning voters of this great commonwealth shall require pledge from our candidates who

seek election at our hands to use their utmost endeavors to have such legisation enacted that will abolish the hatching and free distribution of fish -or will open the way for the poorer

class of people to go where the fish have been placed, and catch them. This pre-empting, by a few sporting. Newton Bierly, who had been in the hospital, came home last week, and seemed to have improved greatly and a spirit of approach, which is to make the second second

thing all well-meaning citizens should, at all times, strive to prevent. The stocking of our fine mountain streams with trout would be a very commendable thing if for the benefit of all. But, when it is to come to be John Messmer, while engaged in pulling stumps with his machine for only for the benefit of a very few ex-

such may not be the outcome. William Bair is on the sick list with legislation, to either open the way for all men to fish in our mountain streams unmolested, or cease stock-
