A WONDERFUL EXPERIENCE. Attorney Walter Shipman, of Sunbury, looked death in the face Wednesday of last week and smiled.

The doctor's verdict was that he could not live more than a few days. With this in view he arranged his affairs, went to the cemetery and pointed out the part of the family lot in which he wished to be buried. Then he went to court to say good-bye to his judge and lawyer friends.

Attorney Shipman is now sitting in his home, surrounded by relatives. He is cheerful, while they are grieved. Knowing that death may come at any time, he speaks words of cheer.

Attorney Shipman, who has been urged by the Pennsylvania State Bar to run for the judgeship of Northumberland county next year, was Tuesday at this week unconscious in the Miners' hospital, from abscess of the liver.

Upon regaining consciousness he was told the doctor's verdict. Stimulants enabled him to regain strength enough to be taken to his home Wednesday night.

Early Wednesday he began to arrange his business affairs. Family matters were adjusted and then with relatives the trip to the cemetery was made. At the family lot Attorney Shipman pointed out the spot where he wished to be buried and made other cemetery arrangements.

Back over the roads which his funeral procession will cover went Attorney Shipman and the party. An other business session at the home followed.

After this Attorney Shipman went to the court house and entering court room No. 2 told Judge Auten of the doctor's decree and said good-bye. After bidding all the court officials in that room farewell, Attorney Shipman went to court room No. 1, where Judge Savidge was presiding. Here court was suspended while he followed out the same program as before, and then amid the silence of the entire assemblage he slowly walked out.

Not only in Sunbury but everywhere that Mr. Shipman is known, his friends have been solicitous concerning his welfare during his long illness and when the sad news was learned concerning his condition many hearts were filled with sincere grief and expressions of sorrow and sympathy were heard on all sides.

Judge Gillan's Edict. The Valley Spirit, issued at Chambersburg says that the refusal of President Judge W. Rush Gillan, of Franklin county, to grant a charter to Chambersburg Lodge No. 252, Loyal Chamberburg Lodge, which proposed to dispense liquors to its members will attract very general attention.

Judge Gillan's statement that there are already too many clubs in the county that are merely drinking places, is sure to meet the approval of many citizens, as will his further declaration that while he is on the bench of Franklin county no more clubs will be chartered where intoxicating liquors are to be dispensed as a means of raising revenue.

It is a matter of common knowledge that many so-called clubs are maintained with the prime purpose of evading the liquor laws of the State. In every case where this is shown to be the fact, not only should charters be refused when applied for, but those already granted should be revoked.

Courts in different parts of the State have not infrequently punished officers of such so-called clubs under the law providing penalties for the sale of liquor without a license and on Sunday and we do not believe any injustice has ever been done in a case of the kind.

Yards Nearly Completed. Thomas A. Shoemaker, of Bellefonte, is so far on with his work at Northumberland that the Pennsylvania company expects to open its new yards at that place by the middle of next summer, when the office buildings and other structures necessary for carrying on the work of transferring the many cars from the main line to sidings, will all be completed. The work of making the yards greater, however, will require some time, as improvements and extensions will be made from time to time until they rival any railroad yards in the country in size.

The new yards are said to be some of the largest in the country. However the Lehigh Valley company is planning a yard of the state which it is proposed will eclipse even the Northumberland yards.

Grafter Completes Term. Frank A. Griffin, former vice president of the Columbia National Bank at Pittsburg, who was convicted during the councilmanic bribery cases of last Spring, for complicity in the passage of an ordinance selecting city depositories, was released from jail Friday. Griffin pleaded no defense and was sentenced to four months imprisonment and to pay a fine of \$500. Griffin is the third man convicted in the graft trials who has completed sentence.

BOLD HOLD UP. G. S. Russell, a representative of the Prudential Insurance company in Lock Haven city, and who resides at Mill Hall, had a thrilling experience with two highwaymen on Wednesday evening of last week and had to give battle before he escaped. During that day Mr. Russell drove about Castanea and other sections on a business mission and in the evening when it was quite dark, he started on the home-ward trip. When some distance east of the park near Mill Hall, a bicyclist appeared ahead of him with a particularly bright light, which rather blinded him, and just as this passed his horse stopped. At the animal's head stood a man of rather small stature and at the buggy a man probably six feet tall, who at once demanded that Mr. Russell hand over his money. Believing at first that several friends were attempting to frighten him he was about to whip up the horse when the tall man threatened him with bodily harm unless he produced the coin. Just as Mr. Russell was about to reach for the whip one of the men made a grab for him and Mr. Russell retaliated by giving him a vicious kick in the face, which evidently stunned the tall man, as he staggered away. The other man then released the horse's head and attempted to drag Russell from the buggy but he held to the sides until he got an opportunity to hit the man with his fist, which he did, and sent him sprawling into the road.

Then lashing up his horse he succeeded in getting away from the bold highwaymen, who it is thought are the same men who held up a young man in Agar's park one night recently after the park lights were extinguished.

Russell is confident that he injured the tallest man of the two considerably as there was blood on his shoe when he got home.

TESTED AND PROVEN. There is a Heap of Solace in Being Able to Depend Upon a Well-Earned Reputation.

For months Bellefonte readers have seen the constant expression of praise for Doan's Kidney Pills, and read about the good work they have done in this locality. Not another remedy ever produced such convincing proof of merit.

Mrs. John Eckel, 116 W. Lamb street, Bellefonte, Pa., says: "I used two boxes of Doan's Kidney Pills, procured from Green's Pharmacy Co. and can say that they have been of greater benefit to me than all the other kidney medicines I have ever taken. I suffered from dull, nagging backaches and I always felt tired and languid. Dizzy spells and headaches also annoyed me and stooping or lifting caused sharp twinges throughout my body. I was restless at night and had no strength or energy to attend to my household work. Soon after I began using Doan's Kidney Pills, procured at Green's Pharmacy Co., I improved and it was not long before I was in good health. I cheerfully recommend Doan's Kidney Pills in return for the benefit they brought me." (Statement given October 21, 1907.)

PERMANENT RELIEF. On November 23, 1909, when Mrs. Eckel was interviewed, she said: "I willingly confirm my former endorsement of Doan's Kidney Pills. Since using them, I have had no return of kidney complaint."

SEVERE WINTER. The old woodsmen, bee hunters and other "weather sharks" are all prophesying a long and severe winter. As proof of their prophecy they are pointing to the fact that the wild honey bees have stored lots of honey this year. This is said to be an infallible sign of a severe winter. There have been an exceptionally large number of bee trees cut in the woods around Clearfield so far this fall, and in every case the yield of honey has far exceeded the expectations of the hunters. Last week Bert Ogden and Henry Mable, who were staying at the Carns' camp on Stone run, found and cut seven bee trees. They secured more than 400 pounds of the finest kind of honey. The trees were on the big bridge that adjoins the Kennerly Park state game preserve, and as an evidence of the increase in the number of bear on the mountain since the preserve was established, every tree had been "worked" by bears. The animals had clawed and chewed the bark from the trees in great chunks in their efforts to get at the honey therein. After cutting one of the trees the men went to their camp, two miles away, to secure buckets to carry their honey in, and during their absence an old bear and two cubs raided the tree. When the return trip was made the honey had been entirely clawed up, not a single comb being left.

BIPLANE BEATS TRAIN. Walter R. Brookins, driving a Wright biplane, started in his long flight from Chicago to Springfield, Ill., at 9:15 on Thursday. The start was made from Washington park. A crowd of from 50,000 to 75,000, principally women and children, gathered to watch the start and at the last moment, became unmanageable.

Brookins circled the park three times in getting his desired altitude. He then turned toward the lake and the Illinois Central tracks and was on his way at a height of 800 feet. He will follow the Illinois Central to Springfield. Prior to the start a balloon was sent up to test the air current.

It showed a strong southwest wind which will retard Brookins' flight somewhat and he said he did not believe he would be able to make better than twenty-five or thirty miles an hour, unless the wind shifted and the haze lifted. He was traveling at twenty miles an hour when he struck his course.

When Brookins passed Manteo, Ill., he was traveling about six hundred feet in the air and was one and a half miles ahead of an Illinois Central special train. The estimated time of the flight is four hours. This estimate was made by Wilbur Wright, and was based on the belief that a northeasterly wind would prevail. The flight is for a purse of \$10,000 offered by the Chicago Record Herald, if Springfield, a distance of 187 miles, is reached. The continuous trip record up to this time is 141 miles, made in a flight from Albany to New York, and the present record for sustained flight is 109 miles. Brookins passed over Kankakee at 10:30, having made fifty-seven miles in an hour and a quarter. He was flying about 1,500 feet in the air.
