A chase after a bridal couple who had given the guests the slip almost resulted in a tragedy Wednesday night in Lancaster. The young men were on the hunt for J. Stanley Rose and Miss Elizabeth Briner, who had eluded their vigilance, and the first acco the merry makers met they bejeved contained the couple.

The party commanded the driver to stop and then blocked the roadway with their automobiles. The occupants refused to lift the curtains, show their identity, and the young men pulled them up. To their consternation the car contained a party of Menonites returning home.

The men in the car threatened bodily harm to the bridal chasers, who had thrown the women into hysterics and profuse apologies hardly appeased their anger. The young men beat a hasty retreat.

Endows Church With \$2000.

A short time ago a philanthropic gentleman (not a resident of Tyrone) expressed a desire to make a gift of \$2000 to the First Lutheran church of Tyrone, the only proviso being that the members of the church raise \$2000, the total amount to go against the church debt. This offer was promptly accepted. Those interested are now working diligently to raise their portion of the fund.

"WALL STREET GOT ME."

Was Guilty of Forgeries of Over \$20,000.

"Wall street got me." Sobbing this statement in his cell, Charles Belling, the third vice president and a director of the Bronx National bank, New York, confessed that he was guilty of forgeries of over \$20,000. "I speculated in Wall street because I saw others getting rich all around me. The temptation was too much. I know I am bad and want to make a clean breast of it and restitution if I can."

Three banks suffered through his forgeries. Belling was held in \$20,000 bail for an examination. His white-haired mother, a dignified woman, was present at court, as were also his sisters and wife, all weeping. Despite his confession, Belling pleaded not guilty.

According to the authorities Belling forged the name of the cashier of the bank to stock certificates and then obtained loans on them. When the loans became due he borrowed from some other bank to pay the maturing loan.

Thanksgiving.

Of course you have plenty to be thankful for.

No! Think again, my friend. You are alive, are you not? And you have reasonably good health, or some prospect of gaining it? And there are those you love near you, and who love you in return? Why, just to be alive in this glorious day when it is given to every man and woman to have some part in the splendid work of making the country what it should be, is sufficient cause for thanksgiving. Maybe you feel that you have no present cause for thanksgiving, but what of the thanks you owe for all the benefits bestowed upon you in the past? Have you been thankful enough for them?

One of the sweetest characters I ever knew was a hopeless cripple who for years, had been confined to an invalid's chair unable to move a muscle save those of the arms and neck. Partially blind, too. Yet this little woman was a constant inspiration to cheerfulness to those who had the pleasure of entry to her society. Her life was a constant tribute to the stalwart men and healthy women who were forever crumpling and growling and complaining about their "crosses." She could sing!—O, how sweetly she could sing!—and her songs were benedictions. If such as she could find cause for thankfulness, what's the matter with you?

The Same Old Story.

Why don't the men propose? Why should they unless they want to? Is there any law that will compel a man to propose unless he wants to marry?

Marriage without love, you know, is far worse than not being married at all. The man who does not want to marry would, if strictly honest, feel that he was committing a great wrong by proposing to woman simply because she needed a protector, or thought herself in love with him.

Unmarried persons can no more live happily than seditious powder can lie peacefully in the same glass of water. Neither the unmarried man, nor woman, can give any other, or better reason why they are as they are, than that the right one has not come along. To have married any other would only have made matters worse.

The cold fact of the matter is that a large majority of the unmarried are unfit to marry for some reason or other.

To Tinker the Calendar.

The Swiss federal council, according to the Berne correspondent of the Vossische Zeitung, will invite all the nations to a conference at Berne with a view to adopting an arrangement by which every year in the calendar will be divided into exactly fifty-two weeks or 364 days. New Year's Day is to be an "extra day." Sunday will bear no date. The four quarters of the year are to be exactly of the same length—the months, 30, 30 and 31 days successively. Thus the thirty-first day of March, June, September and December would always fall on a Sunday.

Every leap year would have an off day that would neither be counted nor dated. It would be inserted between June 31 and July 1.

Prophecy Severe Winter.

Old woodmen are prophesying a long and severe winter. As proof to their predictions they point to the fact that the wild bees have stored much honey and this is an infallible sign of a severe winter. Another sign is the abundance of rabbits. When a long and severe winter is approaching it is said nature provides many of these little animals as food for the larger flesh eating denizens of the forests.
