# WINTER MOTOR BONNETS.

Mighty Natty Models For Cold Weather Spins.

BONNETS OF VELVET AND SILE.

Motoring is now such a usual mode of transit that automobile fashions are In a class apart, and both dressmakers and milliners make special designs to meet the needs of the fair autoists.

In the sketch are two fascinating bonnets for winter spins. Brown vel wet is the material of the attractive model with wide strings of ivory satin This same satin is used for the face quilling and for the choux.

The other bonnet is of shot taffeta to match and rosette of iridescent tissue.

### Fads For Woman.

Now that bamboe furniture is used so universally a suggestion about cleaning it may not go unnoticed. This cleansing should be done with soap and warm water to which salt has been added. And the mixture must be put on with a brush and then wiped off with clean rags until the article is

dry and glistens. ary laundry soap will remove the natural gloss of the wood and leave it dull if salt is not added. An authority on shoes says that pat ent leather should never be kept in a cold closet or one unduly warm. for the reason that both degrees of heat and cold cause the leather to crack.

### Lunch Room Repartee.

The young man with the iron cheek entered the quick lunch room and seated himself at the third table. "Belinda," he called familiarly, "you

look fresh this morning." "Not half as fresh as some others," retorted the pretty waitress, with an

elevation of her nose. "Well, well! Have you calf brains?" "If I did you wouldn't order them, for you have an oversupply now."

"My, but you are getting good for the matinee! With the high price of meats eggs come in handy these days, don't they?"

"No; they come in crates." "Wow! Did you ever hear the story

of the incubator chick? It's not out yet." "That will do. sonny. Did you ever

hear the story of the cold porridge? Well, it's on you!" There was an unexpected tilting of

a dish, and the young man with the iron cheek was showered with oatmeal.-Boston Post.

### Consolation.

A little girl of thirteen or so found herself one day possessed of a new emotion-a desire to be pretty. She struggled with it, but finally went to the long mirror in the hall and for the few raised out of a batch seldom mafirst time in her life looked at herself ture to amount to much. critically from head to foot. ### A Clever Explanation.

"While traveling in a remote part of western Texas last summer I heard a preacher explain the proposition of "infant baptism" in a way that struck me as decidedly unique, and at the same time very satisfactory," remark-ed Frank B. Lupton, a St. Louis traveling man, at the Reinert. "The country round about was sparsely peopled, and 90 per cent, of all who made up the little congregation were engaged in raising cattle or sheep. "The preacher said (adapting his illustration to his audience): Do any of you, my friends hered a set to of you, my friends, brand a calf to make it yours? If any of you brand a calf to make it yours it is always sure to be a stolen calf; but you do not brand the young animal to make it your property. You brand a calf because it is already your. Just so, my friends. with infant baptism; we do not baptise an infant to make it Christ's, but we baptise it because it already belongs to Christ, and the baptism is the brand we place on the child because it is His."

### Skaters Race With Deer.

For ten miles on the Kennebec riv-er there was a race between a buck deer and 100 Showhegan men and boys on skates last week, and the deer lost. Up the river and back again and around an island the hunters went, until near the falls of Showhegan village, where the animal was killed with a polo club by Myron Smith, a cham-pion skater. The animal was almost exhausted, and Smith struck him over

Cold is worse than heat for patent leather. When the shoes are to be put on the feet it will preserve them if the hand is passed over the shoes, smoothing them until they feel supple.

They are then less apt to crack. This gradual warming should never be omitted when patent leather shoes are first put on.
