FROM WISCONSIN.

Lake Mills, Wis., Jan. 22.

Dear Editor—I am enjoying good health; the weather has not been very cold so far—not as cold as last winter; last winter it had been 22 degrees below zero at different times, with much cold and snow all the time; not much snow so far this winter. The people around here are mostly Germans. Good land here, but not much of it can be bought for less than \$150 an acre. This is mostly a dairy country, using Holstein cattle to a great extent. I am working on a 440-acre dairy farm and raising horses. Some of our full-blooded cows here are worth \$500 a head; we have many Clydesdale mares, about 40 milk cows and 40 horses; they built a large barn last summer costing about \$4000. There are many silos around here; there is a large one on this farm; next summer they want to build another large silo and cow barn. Seven men with the boss on this farm—two married men and two tenant houses on the farm; the other single men, boarding with the tenants. I hired for \$20 for four months through the winter and \$50 for eight months through the summer, making \$120 a year, with board and washing; last year, with board and washing; last \$10. The wages average for good men from \$20 to \$25 and horse kept in the winter; in summer \$25 to \$30 and horse kept. If some Penna. people desire to work they will not have to be idle long here, as they cannot get out of the milking business here very well.

Housework Drudgery

Housework is drudgery for the weak woman. She brushes, dusts and scrubs, or is on her feet all day attending to the many details of the household, her back aching, her temples throbbing, nerves quivering under the stress of pain, possibly dizzy feelings. Sometimes rest in bed is not refreshing, because the poor tired nerves do not permit of refreshing sleep. The real need of weak, nervous women is satisfied by Dr. Pierce's Favorite Prescription.

It Makes Weak Women Strong and Sick Women Well.

This "Prescription" removes the cause of women's weaknesses, heals inflammation and ulceration, and cures those weaknesses peculiar to women. It tranquilizes the nerves, encourages the appetite and induces restful sleep.

Dr. Pierce is perfectly willing to let every one know what his "Favorite Prescription" contains, a complete list of ingredients on the bottle-wrapper. Do not let any unscrupulous druggist persuade you that his substitute of unknown composition is "just as good" in order that he may make a bigger profit. Just smile and shake your head! Dr. Pierce's Pleasant Pellets cure liver ills.

Fame is a revenue payable only to our ghosts, and to deny ourselves all present satisfaction for this reward were as great madness as to starve ourselves and fight desperately for food to be laid on our tombs after death—McKenzie.

Just For Fun. Those two Baltimore young people who ran away and were married "just for fun" may yet find that the joke is on them.

Are Children Worth Bringing Up? Can It Be Done Without Rubbers? This is what appeared in a recent number of the AMERICAN JOURNAL OF HEALTH. The family doctor should dip into the mothers head all the time, that the health of their children's lies in their feet. Keep the feet dry. Never let them get wet.
