There will be some good results which will be clearly discernable as the work goes forward. The future will prove it all and make the next generation wonder why the wisdom did not set in earlier.

#### IS GUILT PERSONAL?

The United States supreme court is now asked to pass upon the consti-tutionality of that provision of the ago. A mother, brother and two sis-Sherman anti-trust law which scribes prison as well as money fines.

It is a very important question. Hitherto violators of this law that have been convicted are bodiless corporations, which have paid up the fines imposed and gone right along rejoicing. In the case of the turpen-tine trust, however, the circuit court of Georgia has held that the "conspiracy in restraint of trade" was a guilty act of the officers and managers of that concern, and that they must be held personally accountable under the law. So they have been given jail sentences. It is to determine the legality of this application of the law that the matter has been brought before the supreme court.

To the lay mind the point is clear enough. Has the Sherman law "teeth?" Can it operate to restrain the men who are in control of corporations from lawless acts, or may they defy the law and laugh at its threat of punishment individually for the wrong which they do in the name of their corpora-

The decision of the supreme court is of a paramoun bearings upon the regulation of trusts. Let it be determined that criminal those who are responsible for com-binations of capital in restraint of trade, and that penitentiary sentences will be enforced and offending corporations will be brought sharply into subordination to law.

Send a few trust magnates to jail as the court in Georgia has ordered and the atmosphere will be cleared and light will be let in to disclose the fact that guilt is directly personal and not expansively corporate.

### RESIDENT HUNTERS' LICENSE.

It is reported from Harrisburg that through one agency of that city signatures of protest against the contemplated resident hunters' tax from fifty thousand citizens throughout the state have been presented to the legislature. Before the bill comes up for consideration it is expected that this protest will be largely augmented. There is decided and well-founded opposition to this bill, particularly on the part of people residing in country districts, farmers and others, and it is expected that the members from these districts will oppose the measure in compliance with the sentiment of their con-stituents. While the Sun is against the passage of the bill, because of its evident confiscatory principle. yet this paper cannot agree that the game ssion or any member of it has in mind the promotion of the interests of other classes of citizens. The Sun believes that the position assumed by the commission is one of absolute integrity, hence it in nowise approves of the insinuations made by some of those who have discussed the gun tax question in its columns that the commission is attempting to create a conas in favor of the more favored few.— Williamsport Sun.

Against 3rd Term. The coming Judicial contest in Northumberland and the Union-Snyder districts promises to be a lively one. At present there are five candi-Northumberland county; three in Snyder and two in Union county. The lines cannot be drawn uptil after it is determined whether Snyder and Union will be attached to Northumberland county. There is a strong feeling in both districts against third term candidates.

The Burden of Militairism. The standing armies of Europe ex-clude from productive employment almost four million men, not including nearly two hundred thousand officers. During the past twenty-five years the military establishment has cost almost forty thousand millions and yet there are those who would have our country enter into a mad rivalry with Europe in military matters.

The Uunted States senate defeated the resolution calling for the election of senators by direct vote of the people. A twothirds vote was nec-essary to adopt the resolution. The vote stood 54 for the resolution and 32 against it. Thus the senators can continue to "get there" by bribery and the millionaires get the plum.

Two Boys to Hang.

At Georgetown, Del., Earl Hugo Brown, and James Sharp, two colored boys, each seventeen years old, con-victed of murder faced Chief Justice Pennewill when he sentenced them to hous! on May 19. The crime for which the boys will

give their lives is the murder of John Rogers, son of a farmer for whom the two lads worked. The murder was one of the most atrocious ever conmitted in Sussex county and occurred last June. In company with the colored lads. young Rogers, sixteen years old, went into a field to "suckor" corn. He took his gun with him to shoot birds, and after a short hunt returned and gave his gun to one of the colored boys and

the woods while he slept. The two colored boys walked up behind the sleeping lad and blew his head off. After killing him one went to the farm house after a shovel 400 yards through a woods into another field. Digging a shallow hole, they buried
