STORMSTOWN.

On Thursday evening, March 2nd, the little town of Stormstown was thrown into a state of excitement as the sun passed down over the mountain tops and the shades of evening began to fall, and people came from the east and west, and north and south, as it had been known for some time that the I. O. O. F. lodge at that place was going to take in a class of 21 new members, and reveal to them all the mysteries of the order. Then came old men and young men, lean men and fat men, and men of all vocations of life.

At about nine o'clock p. m. the degree team, Allegheny Gateway lodge, of Tyrone, arrived on the scene to confer the degrees, which they certainly did in splendid style. It has been our privilege to see the work done by several other teams, but have never seen anything to equal their work. This work continued until the wee hours of the morning came.

At about 2:30 o'clock, a. m., the degrees were all conferred, and all had enjoyed themselves. The odor from the large ten-gallon coffee pot began to come up through the register from the dining room below. The crowd began to get restless, and I. G. Burket, seeing something would have to be done, announced that a lunch was awaiting us in the lower room. We soon marched down that narrow defile of stairs to find the tables groaning with the good things that go to satisfy the inner man, and in about 30 minutes we looked again, but alas, they had disappeared—we mean the good things.

We are not able to say how many were there, but twelve different lodges were represented, and we feel sure all enjoyed their visit to Stormstown. Perhaps many of our readers have never had the privilege of visiting our town. It is situated on the main road leading from Bellefonte to Tyrone, and is four miles from the railroad. It has about 100 inhabitants, among whom are one minister, two merchants, two blacksmiths, one marble dealer, one auctioneer, three mail carriers, one coach maker, one constable, one contractor, one shoemaker, one inn-keeper, three gentlemen, two undertakers, two tinners, one doctor, one traveling salesman, three clerks, three laborers, and one man, who is a little under size and is not very well seen except in the latter part of the year, when you will see his large threshing outfit steaming up and down the valley, and then the farmers all know to strike the chicken house or the orchard for something to make a popple. Three Justices of the Peace, some of which would grace the bar of the supreme courts of our state, and a number of unmarried ladies. Come and see us.

The readers of this paper will be pleased to learn that there is at least one disease that science has been able to cure in all its stages, and that is Catarrh. Hall's Catarrh Cure is the only positive cure now known to the medical profession. It is a constitutional disease, requires a constitutional treatment. Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucous surfaces of the system, thereby destroying the foundation of the disease, and giving the patient strength by fitting up the constitution and assisting nature in doing its work. The Fountain Head of Life Is The Stomach

A man who has a weak and impaired stomach and who does not properly digest his food will soon find that his blood has become weak and impoverished, and that his whole body is improperly and insufficiently nourished.

Dr. PIERCE'S GOLDEN MEDICAL DISCOVERY makes the stomach strong, promotes the flow of digestive juices, restores the lost appetite, makes assimilation perfect, invigorates the liver and purifies and enriches the blood. It is the great blood-maker, flesh-builder and restorative nerve tonic. It makes men strong in body, active in mind and cool in judgement.

This "Discovery" is a pure, glyceric extract of American medical roots, absolutely free from alcohol and all injurious, habit-forming drugs. All its ingredients are printed on its wrappers. It has no relationship with secret nostrums. Its every ingredient is endorsed by the leaders in all the schools of medicine. Don't accept a secret nostrum as a substitute for this time-proven remedy of known composition. Ask your neighbors. They must know of many cures made by it during past 40 years, right in your own neighborhood. World's Dispensary Medical Association, Dr. R. V. Pierce, Pres., Buffalo, N. Y.

Are Children Worth Bringing Up?

Can It Be Done Without Rubbers?

This is what appeared in a recent number of the AMERICAN JOURNAL OF HEALTH.

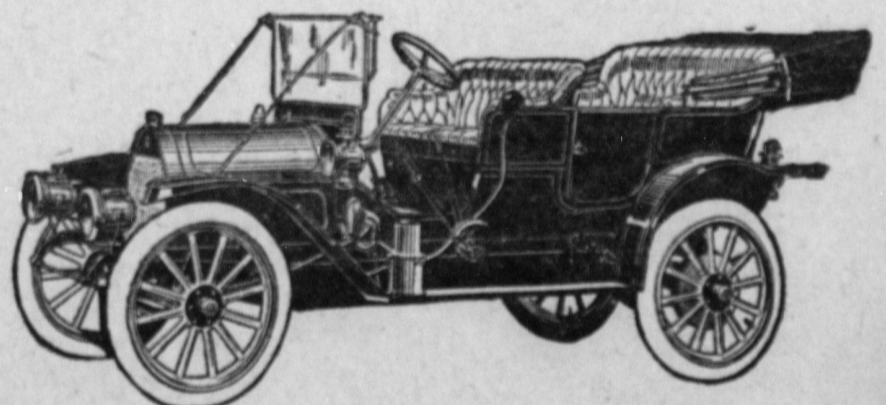

The family doctor should din it into the mothers head all the time, that the health of their children's lies in their feet.

Keep the feet dry. Never let them get wet. No child should be allowed to go out in the snow or rain or when walking is wet, without rubbers.

REMEMBER—Yeager's RUBBERS are best and the prices just a little CHEAPER than the other fellows.

REO THIRTY

In 10 Different Styles—From \$500 Up

Absolute proof of the qualities you want in a motor car—the 10, 1-2 day and night record of the Reo from New York to San Francisco.

Reliability—the first and most important. Half of the 4000 miles between New York and San Francisco is desert and mountain trails—the worst roads in the country; deep wash-outs, rocks in the road, often no road at all. A car that can keep on going at such a rate over those roads will do anything you can ask of it.

Power. The Rocky and Sierra Mountains, and the desert in between gave the Reo lots of stiff and rough climbs. You'll never find a harder or stiffer climb in all your motoring.

Speed. The car that held the previous record was a \$4000 six cylinder car; but the Reo beat it by nearly five days.

See one; have a ride in one, before you buy another. If you dont you will be sorry for it.

We have plenty more proof of the solid motoring qualities of the Reo, if you want it; but this is absolute.

Send for catalogue and "Reo and the Farmer". Plain facts.
