PORT MATILDA.

We are having a little snow, but not very cold weather at present. Spring is coming for the bluebirds have been seen in our orchards. We are glad to state that Mrs. A.

Price, who was in the Philadelphia hospital, where she had a serious operation performed, is at home again, and is improving better than at first could be expected. We hope that she may speedily recover her health and strength

Mr. and Mrs. Geo. R. Williams have both been sick for several days. Many thanks to their friends and neighbors, who have been aiding them with their work during this time.

Our schools will close the first week April. We can hardly believe, it that near the end. Where are all those resolutions, parents, what you were going to do, to aid the school work? You had better get up and dust or the term will be closed and you will never have been inside the school-house doors. Same to you, di_ rectors.

walks of crushed limestone across the welcome. muddy streets at the diamond. I and they would pay him. I hope this will straighten the matter out. Rev. Eugene Harshberger, who is

attending college in the western part of the state, and also filling the position of pastor of a charge in that disvisiting his parents and old trict, is friends here. Glad to see him with last week with her mother in Philipsus again. Best wishes for his success in life.

We came near having another kero-sene fire in our town. On Monday I went to P. W. Young's barber shop at Reese's store to see Mr. Young on an excellent speaker. some business. He was not in, as it was yet only 1 o'clock and he had not returned from his dinner. I noticed what appeared to be smoke, and smelled gas off of oil near his door. tried the door, but found it locked. I then took a look in at the window. The room was so full of smoke that I could not see anything at first. last I noticed in the corner near his cabinet, that a blaze of fire was stead. ily at work burning up along the front end of the drawers. I called Mr. Reese. We had no key, so he broke the door in. He picked up the oil stove, which was causing the fire and attempted to throw it out the door. Fire and oil, which immediately became a very hot blaze, was scattered from the sink across the floor and out the door. We tried to put it out but could not. We then had to jump out ourselves. We closed the door shutting off the draft. This suffocated some of the fire and seizing a piece of burlap sack, which happened to be lying near, we entered again and sucdamage was done, but serious damage might have come from it had it not been noticed, when it was. It had everything in the room covered with black soot, which Mr. Yours had soor

Don't forget that the auditors meet Monday, March 13th again, to finish settling up the accounts of the officers of the township. Be present, and have your account ready to settle.

We must have a fairy in our town. I have noticed that every time that it snowed this winter, that some kind it snowed this winter, that some kind of a machine had been dragged through our streets to the school house. This was a great benefit to the children, and, whoever does this work, deserves the thanks of the town and especially the schools. They are making use of their opportunities to better mankind. Many cannot find an encortunity to aid those around an opportunity to aid those around them. I am glad we have some one who is thinking of others, as well as himself.

BLANCHARD.

I have held the office of Township Auditor for near twenty years, was elected without any solicitation on my part, have fulfilled my duty to the best of my ability. At times I may have been indiscreet through ignorance, but have been to court through my official position on two occasions only. "Individuals versus auditors;" please note auditors were defendants. The Court sustained the auditor's actions but the Township had to pay a share of costs in one case. Now we have been ridiculed from time to time, blown to the four points of the compass by men, who would not fill the office even if elected. Every financial report of the various officer of the district is wrong on account of certain bills allowed. Not long ago. certain bills allowed. Not long ago. Mr. Lingleton, of Braddock, Pa., is Mr. Lingleton, of Braddock, Pa., is trict supervisors;" case decided in favor of plaintiff; township to pay costs of prosecution. Now that the supervisors should not have allowed this to go to court, and pray the auditors to fix the costs on the Road master. How inconsistant some people are! Howling on street corners to keep out of court, and in the same breath ask the auditors to lay the foundation for more costs on the same case. Moreover, we would be ignoring the court's decree, as I understand, and costs placed on township-not on roadmaster. GEO. BERRYHILL.
