HOWARD.

On account of being connected with the "Good Roads Trail," this is making a tour of the state of Pennsylvania, our regular correspondent at Howard, Hon. John A. Woodward, was unable to send us a news letter from that place this week, which we know will be missed by our many readers in that section. Mr. Woodward will be with this train until the end of March, when it completes the itinerary that was originally mapped out. He informs us that it is remarkable how the movement is being welcomed everywhere. In most of their appointments they find it out of the question to deliver the lectures in the cars, as they would fail to accommodate the crowds. Invariably large halls are provided and often their arrival is announced by brass bands and a general demonstration, all of which comes voluntarily from the communities where they are scheduled to appear. This evinces the interest and the enthusiasm of the people in the movement for the permanent improvement of our highways throughout the state.

At the conclusion of the trip Mr. Woodward assures the readers of the Centre Democrat that he will take up the weekly letters as usual. We will ask of him to give us some of his experiences and impressions, on the road question, in a later issue of the paper. Being with this train he will be in shape to give our people something interesting on the question of good roads, which will be appreciated, and we know that it will be a pleasure for him to talk to the many readers of the Centre Democrat on this important issue.—Editor.
