Well, since we see Buffalo Run located their town, and told of what it consists we will not be behind with our large town. I think we can be one ahead, sir. First, our town is located half way between Muncy and Nittany mountains, just the nicest spot we could find for it, and we have about 80 inhabitants in it. We have a miller—of course we must have a miller to live—one painter, one carpenter, and a couple more learning the trade; one butcher, one shoe maker, 10 blacksmiths, one school teacher, one cowboy, one peddler, one advertiser, one bachelor, one old maid, one gentleman, 2 horse jockeys, a lot of farmers, one fruit inspector, 5 doctors, and one mailman. I am so glad I live at Rock Forge, or I might have been taken to death on Thursday, if I would have lived at Buffalo Run, as Bill Bodle reports the thermometer was so high on Thursday, that it froze the bottom out and had gone two feet below his thermometer when he left for our own for fire. Catarrh is taken internally, acting directly upon the blood and mucous surfaces of the system. Catarrh destroys the foundation of the tissue, and drives the patient's strength by binding up the constitution and sending it on in a downward course. The proprietors have so much faith in its curative powers that they offer One Hundred Dollars for any case that it fails to cure. Send for list of testimonials. Address F. J. CHENEY & CO., Toledo, O.
