UEEN Quality" shoes are famous. Not the fame that perishes, but the sort that endures and grows stronger from year to year. Founded upon the rock of integrity, each season their makers builded stronger and stronger. Past successes were forgotten; what was considered good last year was bettered this, and hardly was it pronounced "best" before still further improvements were planned.

Quality, Style and Comfort have been the watchwords paramount, and how well they have been met is testified by the enormous demand. They are worn in every clime--under Alaska's midnight sun and on Africa's burning sands. Their wearers are numbered by millions --- where there's civilization you will find them. "The sun never sets on 'Queen Quality' Shoes."

> Today it is the best known and by unibersal proclaim the most popular woman's shoe in the world.

Our initial Spring showing of these World Famous Shoes is now in progress. Will you not favor them with your inspection? You will be very welcome.
