

Correspondents' Department

Continued.

JULIAN.

William Horner of Johnstown, spent a few days last week visiting his cousin John Tallhelm.

Mrs. Aaron Myers spent Easter with her son John at Tyrone.

The Easter service given in the M. E. church on Sunday evening, was of high class, largely attended, the church being full. Music was especially fine and the recitations by the scholars were all well delivered. On account of the pastor, Rev. Gilbert not being able to be present, it was decided to repeat the program next Sunday night. Let there be another good turnout at this meeting. A special collection will be taken up for the Sunday school.

Mrs. William Fink, who has been seriously ill for some time is now able to be about and on Sunday had all four of her sisters with her to spend Easter.

Preaching service in the U. B. church on Sunday morning, at 10:30 a. m., by the pastor, G. Elmer Smith. Everybody welcome.

Business in and about our town is very dull. Quite a number of men have been laid off from their different jobs on account of the recent slump in business.

Fred Sallsbery, of Beech Creek, has been appointed third track operator at the tower at this place and Mr. Fleming sent to Hannah.

Miss Minnie Gill, who has been employed at Philipsburg during the winter, is home for a while with her father, G. W. Gill.

Henry Rice, who has been employed by J. C. Nason remodeling a dwelling house, is suffering with a very sore arm and unable to work.

Calvin Hale, who was arrested by tax collector Daniel Straw, for refusing to pay his taxes, is still in the county jail.

Prayer meeting in the U. B. church to-night at 7:30 p. m.; all are welcome to these meetings.

Now that the time of the year is here for cleaning up, let us not forget the cemetery and each one that is interested help and get it in shape. There was a committee appointed last summer to see to this, but that is all that was ever done—stopped right there and grounds not finished.

CURTIN.

Joe Griffith is the champion carpenter of the town; if you don't believe it just take a glimpse of the fine henry he has built.

Mrs. Henry Shultz and Mrs. Orlanda Bryan were visitors at the rolling mill on Sunday.

Mrs. Anna Derstine and son, Roy, visited the former's sister, Mrs. Harry Lutz, of Bald Eagle.

House cleaning is all the go now, next on the program will be garden making.

Capt Henry Shultz is the champion fisherman of the season; he caught two of the speckled beauties and then got some kind of fish fever and could not fish. For further information, ask H. Neff.

Calvin Bathurst has been very sick the past week and we are sorry to say he is not improved at this writing; his many friends wish for him a speedy recovery.

Mrs. Nancy McMeen, an aged lady of Curtin, who visited friends in Bellefonte the past week and had a very severe attack of influenza, while there, has returned to her home much improved.

Mr. and Mrs. Jodon, of Milesburg, visited at the home of Jesse Bathurst on Monday.

Mrs. Miles Doughman was a Bellefonte shopper on Monday.

Mr. and Mrs. Jacob Shay and children visited the former's parents, Mr. and Mrs. Samuel Shay, of Howard, ever Sunday.

Mrs. Emier Bryan, and two children are visiting her daughter, Mrs. Lloyd Reeder and Mrs. Fred Heaton, of Hayes Run this week.

LOVEVILLE.

On the sick list are, Mrs. Mary Ann Rider and Mrs. Joe Adeltin.

H. G. Ebbs, of Juniata, was an overnight visitor at the home of David Cupp.

G. W. Blair spent a few days in Altoona, at the home of his sister, Mrs. Shippe.

There was a carriage load of Warriors Mark people passed through our town on their way to the home of Mr. and Mrs. Geo. Rider, on Easter morning.

Mrs. Etta Blair and two children, Beatrice and Alvin, spent a few days at the home of Mrs. A. W. Treasurer at Penna. Furnace.

On Easter morning Mr. and Mrs. D. R. Thomas and daughter, Bessie, and Mrs. Etta Blair and children drove to the home of Mrs. Catherine Sellers, at Dunganin, with a most delicious dinner already prepared with them; when everything was on the table it fairly groaned under its load. Now if you don't think it was a surprise, ask Mrs. Sellers.

There will be preaching at Ross on Sunday, April 23, 2:30 o'clock.

YARNELL.

Mr. and Mrs. Harry Johnson were callers at the home of her sister, Mrs. William Poorman's over Easter.

Harry Shawley and wife visited at the home of her parents, Mr. and Mrs. Benjamin Kline, over Easter Sunday.

A number of Mrs. William Petzer's friends called at her home last Friday evening and had a very pleasant chat, it being her birthday and also at the home of Mr. Michael Petzer's, last Thursday night, for supper, it being his birthday also.

Ellis Young and Claude Lucas, of Romola, were callers here last Sunday. The kind and obliging Mrs. Berry, of Cato, visited friends in this vicinity last week.

Charlie Switzer, who is employed at Cato, spent Sunday at home.

Elmer Williams, the great musician, spent Sunday in Fetzertown.

Toner Fetzter spent Sunday evening with his friend, Miss Kline.

Walking Through the Valley. Washington dispatches state that friends of Senator Tillman of South Carolina fear he may never again be seen in his seat. He has had two strokes of paralysis and for two years and more his health has been precarious. The fires of a passionate nature and a seemingly unquenchable spirit are slowly burning out, and the shadows are gathering thick about the restless and tempestuous soul of this farmer statesman whose name, a few years back, was much upon the public tongue. Tillman in the Senate was true to his thoughts and expressed his opinions without fear or reserve.

FOR THE MOTORIST.

How Tires Should Be Washed to Preserve Them.

Washing tires and washing a car are two different propositions. Water alone should be used to wash tires and as little of it as necessary. After every run the envelope should be wiped clean with a damp sponge or well-wrung cloth.

A common mistake made by motorists is to mix kerosene with the water. This may be advisable when washing the body of a car to remove mud and dust from the varnish, but it should never be done when washing tires because kerosene eats rubber. This fact can be readily proved by immersing a small piece of rubber in kerosene and allowing it to soak. The rubber will soon swell and lose its elasticity. The reason for this is apparent. Kerosene is rich in fatty properties which remain after the evaporation of the gases. Every time a tire is washed with a kerosene mixture the rubber is deprived of more of its strength.

When washing tires it is best to simply dampen a sponge with clean water, care being taken that the sponge is not soaked and dripping. Then wipe the tires dry with a cloth or handful of waste.

This, and many other phases of the tire question are intimately covered in the "Book of Bibendum" sent free to motorists upon request by the Michelin Tire Company of Milltown, New Jersey.

Siamese Twins in Jail.

The hardest problem German legal authorities have had to solve in years has resulted from the brief imprisonment of the "Sisters Blazek," who are joined like the famous Siamese twins. A warrant for alleged breach of contract was issued for one of the sisters who were appearing at a Berlin music hall. The court officer wasted no time in the embarrassing situation that confronted him, but took both girls to jail.

Now the sister against whom there was no warrant is suing for illegal imprisonment. Legal experts agree that unless the court decides that the two girls are in reality only one somebody will have to pay dearly. One sister is married and the mother of a baby two years old.

Midnight in the Ozarks

And yet sleepless Hiram Scranton, of Clay City, Ill., coughed and coughed. He was in the mountains on the advice of five doctors, who said he had consumption, but found no help in the climate and started home. Hearing of Dr. King's New Discovery, he began to use it. "I believe it saved my life," he writes "for it made a new man of me, so that I can now do good work again." For all lung diseases, coughs, colds, la grippe, asthma, croup, whooping cough, hay fever, hemorrhages, hoarseness, or quinsy, its the best known remedy. Price 50c and \$1.00. Trial bottle free. Guaranteed by Green's Pharmacy Co.

Sent 8,000,000 Kisses.

Magistrate Steinert, in a New York court, set down hard on a young man who sent 8,000,000 kisses through the mail to Bluebell Lusse, 13 years old. The prisoner, Francis R. Eldredge, was sent to Bellevue hospital.

Miss Lusse objected to the attentions Eldredge showered on her. She said he kept the postman busy bringing her letters she did not care to read. She added, it was annoying to be aroused at 2 o'clock in the morning to sign for a telegram reading: "I love you as much as I did last night." The flowers Eldredge sent to her home were equally unwelcome, she said, and the girl finally asked for a warrant. When Eldredge was arraigned he talked in a way that led the magistrate to doubt his mental poise.

Never Out of Work.

The busiest little things ever made are Dr. King's New Life Pills. Every pill is a sugar-coated globule of health, that changes weakness into strength, languor into energy, brain-fog into mental power; curing Constipation, Headache, Chills, Dyspepsia, Malaria. Only 25c at Green's Pharmacy, Co., Bellefonte, Pa.

Drop in Retail Prices.

Retail meat prices have dropped from 5 to 3 cents a pound below last year's figures in Philadelphia. Eggs are off from 15 to 20 cents a dozen; butter is 12 to 15 cents a pound cheaper; poultry is lower by about 6 cents a pound; lard has dropped as much as 10 cents a pound, and many varieties of groceries show corresponding declines.

NOTICED BALD SPOT COMING ON HEAD

Interesting Story of Consultation with Dermatologist and Successful Use of Cuticura. Also Case of Severe Itchy Poisoning, Relief of Which by Cuticura was Permanent.

"Nine years ago I noticed a bald spot coming on my head and, as I was only nineteen years old, it did not seem natural, as it was on the side of my head instead of on top. My mother advised my seeing a dermatologist and I did so, one of the best in Boston, and he said it was due to a germ I must have got at the barber's. He couldn't assure a cure, but by treating each hair separately by electricity, he said, the hair might come out white or gray, if it came out at all. He proposed giving me a treatment every month for six months at ten dollars a treatment. When I told my mother she advised using Cuticura and this I did, using Cuticura Soap and Ointment every day. In two months my hair commenced to grow, and in six months one would never have known there had been any trouble, the hair coming out being black the exact shade of my own. I have never had any trouble since, and feel I can't say half enough for Cuticura. "Another member of our family was terribly poisoned by poison ivy and every summer for six years the blisters came, bursting and causing great suffering. We tried everything recommended by the best physicians, but with no good result. Finally we tried Cuticura and obtained relief in a very short time which was permanent. She has never had any trouble since, so Cuticura is invaluable to us, you see. G. J. Browne, 1 Remington St., Dorchester, Mass., Jan. 29 1910."

This letter is but one of hundreds giving proof of the success of the Cuticura Remedies in treating the skin and scalp. Potter Drug & Chem. Corp., Sole Proprs., Boston

NOTES FOR FARMERS.

By R. P. Kester, General Deputy Penna. State Grange.

The late season may cause many farmers, in their anxiety to get their crops sowed, to work the ground before it is dry enough. The very best soil is injured by working while too damp, and soil very deficient in humus may be so injured as to require several years to get over the ill-effects of working while wet. Wait till the ground is ready, even if it does seem late.

Try a piece of cow-peas this summer as a soil renovator and note their effect in improving fertility. Drill in rows about 27 inches apart and cultivate two or three times, then watch them grow. Cut before frost kills and leave lie on the ground as a mulch and plow down in Spring, after cutting up with a disk harrow. Don't plant till the ground is warm; about the first of June.

The increased interest in and added dignity to agriculture is largely due to the influence of the Grange. While other agencies have helped, the Grange has been the fore-runner. By its influence, many of the other agencies have come into being. The Grange issues now being agitated are as follows:

- State Issues. 1. Equalization of Taxes by increasing state appropriations for road and school purposes. 2. Initiative, audreferendum and recall, as it applies to all matters which affect the public.

- National Issues. 1. We favor a Parcel Post. 2. We favor the election of U. S. senators by the people. 3. We favor conservation of our natural resources.

- 4. We are opposed to a centralized bank. 5. We are opposed to ship-subsidy. 6. We are opposed to the sale of American-made goods cheaper abroad than at home.

Do you favor these issues? Then help.

Will Produce Pedigreed Seed.

After an investigation that carried him over 100,000 miles in Canada and the United States, P. L. A. Ferguson, a seed expert with his associates has concluded that the Northern portion of the United States furnished the best location for a seed producing farm that could be found in any location in the world.

Acting upon this decision, Mr. Ferguson has purchased 3,000 acres of land at Stanley, Wisconsin, and is locating there on one of the largest seed grain producing farms in the country. The farm will produce only the highest pedigreed grains of all kinds.

A 50-cent bottle of Scott's Emulsion given in half-teaspoon doses four times a day, mixed in its bottle, will last a year-old baby nearly a month, and four bottles over three months, and will make the baby strong and well and will lay the foundation for a healthy, robust boy or girl.

FOR SALE BY ALL DRUGGISTS

Send 50c., name of paper and this ad. for our beautiful Savings Bank and Child's Sketch-Book. Each book contains a Good Luck Penny.

BELLEFONTE GARAGE JOHN SEBRING, Jr., Prop.

Bellefonte, Pa. (Entrance from Allegheny, Spring, Howard or Lamb Streets.)

Trust Greed Dominates Tanning Industry

Shoe Wearers Must Pay More for Poorer Leather

How You Can Protect Yourself

The shoe business of this country is absolutely controlled by the Leather Trust.

The Trust owns the tanneries which produce about four-fifths of all the leather in America.

It fixes the price of leather with an eye single to its own profits—which is the one reason for the high price of shoes.

It has recently closed scores of its tanneries for an indefinite period, to create an artificially high price for leather.

Worse than that—the Leather Trust is deliberately using its vast resources to cheapen its product for the sake of extortionate profits.

Most Shoe Makers Cannot Get Honest Leather

Buying his leather from the Trust, the ordinary manufacturer is forced to take an inferior product—hemlock tannage, chemical tannage, or other quick process tannages—everything but straight old-fashioned oak tannage, thoroughly tanned and finished to give it the backbone that leather must have to make a good shoe.

You know what to expect of the average shoes you buy—how good they look at the start and how soon they break down—

Holes in soles. Heels run down. Vamps stretched and cracked. Uppers wrinkled. Finish rubbed off beyond all hope of dressing and polishing.

Now, what can you, John Smith, resident of this town and reader of this paper, do about it?

How to Protect Yourself

You can wear honest shoes if you want them—and at a fair price.

You can get shoes made by the only shoe concern in the world that tans its own leather.

The only shoe manufacturers in this country that tan, manufacture and sell independent of the Hide Trust, the Leather Trust, the Leather Jobber and the Shoe Jobber.

Endicott, Johnson & Co. is the name of this concern.

They buy their hides in the open markets of the world. They have the only complete shoe-manufacturing plant in the world—"from the hide to your foot."

They are the largest shoe manufacturers in the world—thanks to their policy of honest shoes and their saving the shoe wearer four profits in the price.

Endicott, Johnson & Co. started in the shoe business with the fixed idea of service to the wearer. It was the extreme unreliability of Trust-tanned leather that forced them to build their own tanneries.

Leather Tanned for Service

At this writing they are tanning 1750 sides of the finest sole leather every day, 8000 sides of chrome upper leather and 1000 skins of calf leather.

The product of their tanneries is worth Six Million Dollars every year.

Every lot of leather is tanned and finished for a definite type of shoe, to make it durable in the kind of service that will be demanded of it.

They tan honest old-fashioned "Forest Oak" sole leather—like the village tanner used to make when our fathers were boys. Months in the tan vat—weeks more in the seasoning and the finishing. Tough, compact, durable.

They make "Kromelk"—the first and only perfected chrome-tanned sole leather, that outwears ordinary soles, two for one.

Leather Trust Cannot Make "Kromelk"

No other manufacturer in the world can give you "Kromelk" soles. The "Kromelk" process is an Endicott-Johnson invention. It is their exclusive property. The Leather Trust has never succeeded in imitating it.

They produce elastic, "glovey" calf leather and chrome-tanned uppers—leather that works up to a marvel, finishes to a dot—makes a stylish shoe and holds its style.

Endicott, Johnson & Co. make five hundred styles and models of shoes—all in a full range of sizes.

Their most popular line is the ENDWELL (Goodyear Welt)—dress and business shoes that retail for \$3.00, \$3.50 and \$4.00.

They make lines that sell for more money—and still other lines at a lower price.

You can buy Endicott-Johnson shoes for men, women and children—shoes for business and street wear, work shoes, dress shoes, school shoes for boys and girls.

You will get all the latest kinks of fashion. Endicott, Johnson & Co. employ the finest designers and shoe makers in the trade.

You Save Four Profits

You will save 50 cents to \$1.00 on every pair of shoes you buy. You pay no profits to trusts or middlemen. Endicott, Johnson & Co. sell their shoes direct from the factory to your representative home dealer.

Go to him and ask for the ENDWELL shoes or any other kind of shoe to suit your needs.

They will give you some new ideas about shoe values.

Remember the name. It is stamped on every shoe—

ENDWELL Cluster's Underselling Store.

Shoe buyers who live outside the city where this paper is published can learn the names of their home dealers who carry Endicott-Johnson shoes by writing to Endicott, Johnson & Co., Endicott, N. Y.
