

WASHINGTON NOTES.

What Reciprocity With Canada Means to Us.

Dorsey W. Shackelford of Missouri, a member of the Ways and Means committee of the House, has prepared one of the most illuminating letters on the subject of reciprocity that has appeared. The document has caused much discussion among members of Congress and is to be widely circulated.

"The lumber trust and the paper trust are waging a fierce fight against reciprocity," says Mr. Shackelford. "They are making desperate efforts to get the farmers to join them. Wherever possible they have enlisted the papers which circulate among the farmers. They try to make the farmers believe that, by reason of the tariff, he gets more than the fair market price for his products."

"Canada has a tariff which operates against our products sold in Canada. We have a tariff which operates against Canadian products sold here. Reciprocity is an agreement between the two countries to modify both tariffs with a view to more extended trade."

"A large trade has grown up between us and Canada. In five years ending June 30, in goods of fall kinds. Total trade:

Table with 2 columns: Category and Amount. Includes 'We sold in Canada', 'Canada sold to us', and 'Difference in our favor'.

"Any country which buys from us more than it sells to us is a good country to trade with. The tariff wall should stand between us and such a country."

"Government statistics for the five years ending June 30 also show these things:

Table with 2 columns: Category and Amount. Includes 'We sold in Canada', 'Canada sold to us', and 'Difference in our favor'.

"You ask why Canada favors reciprocity if it is to give us the best of it on these products. The answer is easy:

"First, the Canadian tariff is added to the price which the Canadian consumer must pay. Canada desires to relieve her people from this extra price."

"Second, Canada is willing to take her tariff off of the goods which we sell her if in turn we will take our tariff off of the paper, wood pulp and lumber which she sells us. If our tariff against these products were removed she would sell us a still larger amount of timber products than she now sells us. How could that hurt the American farmer?"

"Who, then, would be hurt by reciprocity? I will tell you. The lumber trust and the paper trust. Reciprocity would bring Canadian lumber and paper here to be sold in competition with the American lumber and paper. This would give the American people cheaper paper, and the farmer cheaper lumber to build houses and barns. So you see why it is the trusts are making such frantic efforts to defeat reciprocity. They desire to hold a monopoly of the American lumber and paper markets. Let the farmer be of good cheer. He is not the fellow who will be hit by reciprocity. He will be helped. The lumber trust and the paper trust are the ones who will feel the weight of this measure."

"Taft Fights Progressives. President Taft is still fighting progressive republicans. He first endeavored to smother progressiveism by refusing patronage to members of Congress who would not vote for bills recommended by him whether he thought them to be for the public good or not. This movement failed utterly. Insurgency increased instead of disappearing. Then the President used all the influences at his command to bring about the defeat of Senator La Follette in Wisconsin."

"Reciprocity Act Improved. Practically the only change in the Canadian reciprocity agreement by the Democrats in the House was the addition of a clause authorizing the President, by executive act, to reduce the tariff, of this country, on any item, whether included in the treaty or not, whenever Canada is willing to put them on her free list. In other words we express a willingness to move toward free trade with Canada as fast as Canada may desire. This invitation applies only to Canada, however, and the object is the promotion of the friendliest possible commercial intercourse between the United States and our neighbor on the north."

"DON'T EXPERIMENT. You Will Make No Mistakes if You Follow This Bellefonte Citizen's Advice."

"Never neglect your kidneys. If you have pain in the back, urinary disorders, dizziness and nervousness, it's time to act and not time to experiment. These are all symptoms of kidneys."

"Doan's Kidney Pills is the remedy to use. No need to experiment. It has cured many stubborn cases in Bellefonte. Follow the advice of a Bellefonte citizen and be cured yourself."

"William E. Haines, Sunny Side St., Bellefonte, Pa., says: 'The public statement that I gave in favor of Doan's Kidney Pills some years ago still holds good, as the cure they effected in my case has been permanent. In 1890 I began to suffer from a lameness in my back, accompanied by a dull, insidious ache in my loins that made it hard for me to attend to my work. I did not rest well and I was at a loss to know what to do. After trying a number of remedies without being benefited, I learned of Doan's Kidney Pills and got a box. They proved to be just the remedy I required, removing my trouble in a short time. I have been fully convinced of the curative powers of this preparation.'"

"For sale by all dealers. Price 50 cents. Foster-Milburn Co., Buffalo, New York, sole agents for the United States. Remember the name—Doan's—and take no other."

"The Keystone party of Berks county announces that it will have full county and city tickets in the field next fall."

THE "HOLD-UP" OF CANDIDATES.

A Custom Which is Corrupting and Often Leads Men to Dishonesty.

"Hands up and Deliver!" When looking into the little black hole in the end of a revolver, accompanied by the above words, one is not long in complying with the simple request. Anyone caught in this trick, however, goes to prison where he rightly belongs.

"Is this Mr. Candidate? No! I have never had the pleasure of knowing you personally, but I have heard of you often and just thought I would come in and ask you if you felt like giving us a little lift. We are trying to raise some money to pay our preacher's salary, (our lodge Sunday school, or what not). I see you are running for office. Well, we have a good many voters in our section and we will be very glad to do all for you we can. The third page of this paper is where those other fellows signed who are running for the same office you are, and I don't suppose you would care to give less than they did. Yes, thank you."

"Is it an outrage that candidates should be exposed to this source of things? Sometimes the subscription papers are started innocently and thoughtlessly. Some of the causes are legitimate, but these should not be circulated during a campaign. There are others that are not. Under the new election laws each candidate must file his statement of expenses, and he must swear that the facts as stated are true and correct. If each candidate would say "no" and stick to it there would be no trouble from this source, but that is impossible. He simply has to stand up and deliver or he will stand alone. For those who "come over" nothing is done and for those who refuse, the knife is drawn and sharpened. The ministers should make it their duty to see to it that these papers are not allowed to be used for campaign purposes."

"We always uphold the churches in all of their various branches, but we do most heartily condemn any procedure so common at election time of "touching" the candidate. It is a pure and simple case of extortion and graft against which the "pulpit" hurls its thunderous condemnation and yet frequently profits and in some cases another, encourages it. If you want our public officers to be dishonest, there is no surer way to go about it than by covert threats induce them to expend more money in securing their election than they will realize out of fees or salary after they are in office and there is no more subtle way to accomplish this than to ring in church and society matters during a time when their tender-soles are sizzling on the political grid-iron."

ONE YEARLY ASSESSMENT.

Gov. Tener Signs Bill That Will Save County Funds.

The bill permitting the commissioners to issue their precepts to the assessors early in the year so that the assessing of personal property may be done in the spring instead of the fall as now provided, was signed by Governor Tener a few days ago and is now a law. It is estimated that this bill will save the tax payers of Centre county at least \$1000 each year.

Ruined the Echo.

What has become of the splendid echo we could hear from yonder bluff last season? asked the returned guest of the summer-home landlord, as they met on the veranda. "Well, I'll tell you. After you left last fall there was a bunch of these here college-students come, and one night they got full of love for Almy Mater, or some other woman, so they said, and likewise full of something else, and they got out here in front of the hotel, and all at once an all together they cut loose with the daddleddest thing about 'Rah, rah rah!' and a whole lot more to the same effect. The writer who just naturally must 'give up the ghost' quit, for the next mornin' one of the hired men was over there on the bluff, and he said the ground was torn up for a space of fifty feet square, and there seemed to have been a terrible struggle. At any rate we ain't seen nor heard nothing of the echo since."

Rats in Demand.

The demand for rats in Chicago is great and the supply is far too small. Prices threaten to go up rapidly. Deputy United States Marshall Edward Marsales made efforts to obtain twenty live rats to fill an order from Frank Ehey, who is connected with a telephone company at Rockford. "Nothing doing today," was the reply of the rat catchers. "We have many orders ahead of you. The supply doesn't meet the demand. As soon as we get to you in rotation your order will be filled."

The rats are used in placing cables. A rat is loosed in a pipe through which a cable is to be placed. Then a string is tied to a ferret, which is allowed to pursue the rat. In that way a small string is put through the pipe and later the cable is pulled after it.

To Investigate Headache Remedies.

Dangers so grave, according to Dr. H. W. Wiley, chief chemist of the department of agriculture, lurk in the ordinary headache remedies, that he determined to institute an investigation under the pure food and drug act. Many cases in which death has followed the taking of these remedies, said Doctor Wiley recently have been brought to his attention. Headache powders, said Doctor Wiley, usually contain large quantities of acetanilid, phenacetin, antipyrine or caffeine, all of which affect the heart more or less. The powders, according to Doctor Wiley, contain a larger proportion of these drugs than any physician would think of prescribing.

Smiting the Raffles.

A member of the New York legislature has introduced a bill to prohibit raffles, punch boards and all other games in which chance is employed in disposing of merchandise. It is suggested that this is retaliation for anti-race track laws. But whatever the motive the proposed law is a good one. The law is intended to exclude church raffles, and why not? Why should a church throw its influence on the side of gambling? Chance is just as vicious in a church raffle as in a wheel of fortune—there is no difference in principle. Why has the Louisiana lottery if we are to encourage the church wherever it appears.

Trying to Save His Life.

When we say that Sixine Pills are responsible for many a happy person in this world today we are not exaggerating a bit. There is no tonic builder equal to Sixine Pills. Show me a person who cannot be restored to strength and steady nerves with Sixine Pills, and I will show you that I will not cost you a cent to try them, for they are guaranteed. Price, \$1 a box, 6 boxes \$5. Sold by C. M. Parrish, Bellefonte, Pa., where they sell all the principal remedies and do not substitute.

SCARCITY OF TROUT.

There can no longer be any doubt that the trout streams generally, and in this county in particular, do not show up to expectations. The liberal stocking of the streams within the past half dozen years, has not produced the harvest for the trout fishermen, promised and expected. The hatcheries, so far as they are concerned, produce the fry in all abundance and ship the little things to wherever applications come from for stocking the streams of the state, yet trout seem to have been getting scarcer every year. It has been contended by those who have followed the stream many years, and before the hatcheries did their work, that trout were far more plentiful from the natural increase than since the product of millions from hatcheries has been added with every year. This is true, as we know from our own observation and experience. The old trout fishermen say that the trout fry are not given to the streams at the proper time, nor to the proper places in the streams, and are too young and small to take care of themselves, being mere pines when promiscuously dumped into the streams. We think there is much truth about this theory, and it is of such a nature as to be easily remedied.

The planting of hatchery trout in the streams, annually, exceeds the increase in fishermen by millions, and thousands only are caught yearly to millions planted. Take Logan Branch, a large trout stream, running along the lengthwise edge of the Bellefonte hatchery, comparatively few speckled beauties have been caught, this season, and scores of anglers have not been able to capture a single fish, although stocked.

Schools Get \$15,000,000 More.

The school appropriation will be increased somewhat over the \$15,000,000 of past sessions, whether the school code is passed or not; already the present bill has been passed and upon to appropriate \$100,000 to cover up a deficiency in the normal school tuition appropriation of 1909. The legislation requiring the State to pay the minimum salary of all school teachers for the minimum term has been permanently picked. The bill would have required about \$19,000,000 for the next two years, according to State Superintendent of Public Instruction Schaeffer, so it was sidetracked.

The Jones dirt road bill under which the state pays to townships a bonus of not more than \$20 per mile for dirt roads is another measure which is causing the money-handlers some concern. It is told by road experts that if all the supervisors in the state would take advantage of that bill, said Woodward, "It would cost the state \$15,000,000 per year. I wanted the Legislature to reduce the \$20 to \$10 so that we would get nearer our revenue, but it was not done. The Highway Department has asked for \$2,000,000 for the dirt roads alone and I hope that we can grant it."

May Be Long Lost Charley Ross.

A man who may be the long-lost Charley Ross, who, as a boy, was kidnapped near his parents' home, in Germantown, has written to the police, requesting aid to find his parents. The writer gives his name as T. M. Scott. He lives at 2728 South Nineteenth street, St. Joseph, Mo. He says that the name he gives is not his right one, but that as a boy he assumed it because a man of the name of Scott rescued him. He makes no reference to Charley Ross, but certain points in his story agree with features of the case of Charley Ross. He says he was kidnapped near his home in 1873 or 1874. Charley Ross was 4 years old when he was kidnapped, on July 3, 1874. The letter from Scott will be brought to the attention of the Ross family.

Fly's Are Evil? Oh, No!

The "at last" week thirteenth fly" has at last found a defender. He is Prof. S. A. Forbes, State entomologist, who has experimented with the "fly problem" in Chicago for two years. "Don't swat the fly; swat the person who gives it opportunity to do deadly work as a disease carrier," said Prof. Forbes. "The fly, instead of being an evil, is an agent for good." "The presence of the fly points to an unsanitary condition—the householder is not taking proper care of his manure, or is careless with his table scraps. Take warning of the fly. It will save doctors' bills. Fly carried disease is the punishment for not heeding sanitary laws and the fly's warning."

Surprised by Bears.

While out fighting forest fires on Friday of last week Myron Gummo, of Bald Eagle township, came across an infuriated mother bear and her two young cubs. Mr. Gummo, not being armed had to run for his life, but succeeded in getting away without a scratch, later Edwin Williams and James Gummo captured the two cubs, one of which had been injured by the fires.

Water Company Elects Officers.

At the annual meeting of the Centre Hall Water Company, on Monday, the following officers and directors were unanimously elected for the ensuing year: President, Fred Kurtz; Secretary and treasurer, D. E. Lutz; Directors: Chas. Arney, Prof. Bitner, J. Fred Kurtz, J. D. Murray, and C. R. Kurtz.

WASH THAT ITCH AWAY

It is said that there are certain springs in Europe that give relief and cure to Eczema and other skin diseases. If you knew that by washing in these waters you could be relieved from that awful itch, wouldn't you make every effort to take a trip to Europe at once? Would you not be willing to spend your last cent to find the cure? But you need not leave home for these distant springs. Relief is right here in your own home town! A simple wash of Oil of Wintergreen, Thymol and other ingredients as compounded only in D. D. D. Prescription will bring instant relief to that terrible burning itch, and leave the skin as smooth and healthy as that of a child. If you have not already tried it, get at least a 25-cent bottle today. We assure you of instant relief.

For Sale by

GREEN'S PHARMACY, Bellefonte, Pa.
