Deafness Cannot Be Cured by some approximate, as they cannot reach the dismased portion of the ear. There is only one way to
cure deafness, and that is by constitutional remedies.

Deafness is caused by an inflamed condition of the
mucous lining of the Eustachian Tube, When this
tube is inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed, Deafness is the result, and unless the inflammation can be
laken out and this tube restored to its normal condition, hearing will be destroyed forever; nine cases
out of ten are caused by Catarrh, which is nothing
