

MILLIONS OF TREES PLANTED BY PENNSY

FORESTRY DEPARTMENT AIDS CONSERVATION WORK.

FOR BEAUTY AND UTILITY

Hardwood Set Out For Timber—Station Lawns Ornamented—Conducts a Large Nursery—Object Lesson in Free Culture.

In its campaign of forestry conservation the Pennsylvania railroad has planted in the last nine years 4,999,524 trees.

The report shows that the forestry operations of the company extend to all points on the lines east of Pittsburgh and Erie.

There were 200,000 trees planted on several of the company's properties at Altoona, 49,189 in the vicinity of Mount Union, 93,700 near Martie Forge 65,000 at Newton Hamilton, 62,249 at Petersburg, 36,100 near Middletown, 12,000 at Linesard, 10,000 at Ryde, 27,750 at Rambo, 6000 at Conewago, 3,500 at Kinzer, 17,250 at New Brunswick, N. J., and 35,100 at Parkton, Md.

At Morrisville, Pa., the company has 32 acres of land devoted to nursery purposes. This land has a capacity of 1,000,000 trees a year.

To replace the seedling trees transferred last year to their permanent locations, there were planted 259 bushels of acorns and 115 pounds of seeds from coniferous trees.

With a view of beautifying the lawns around stations and unoccupied places along the roadway, much attention has been paid to the growing ornamental plants and trees.

The railroad believes that the conservative lumbering and forest planting will serve as an object lesson for farmers, and provide an incentive to intelligent forest development of his part of the public generally.

DISSAPOINTED IN LOVE.

Milton Young Man Shot Himself Through the Heart.

Because he loved a Newberry young woman and she didn't love him, Geo. E. Kleckner, nineteen years of age, killed himself at his home in Milton on Wednesday afternoon of last week.

Because he was jilted, and in love with the girl who refused him, George E. Kleckner, a son of Mr. and Mrs. T. E. Kleckner, of Wall street, shot himself through the heart.

Later he came to Milton and got a place as a naller's helper with the F. A. Godcharles company, and has been employed there for some months.

From information received from the matrimonial editor of an Oklahoma paper, four pretty young girls of York, Pa., ranging in age from eighteen to twenty-two, have asked that the editor provide them with husbands in the far west.

The young girls prefer wealthy farmers. Their names are Mary Horner, Martha Walker, Mamie Riddick and Rebecca Doyle. Miss Horner is nineteen and says she is considered pretty.

Rebecca Doyle, the last of the quartet, is eighteen, weighs 125 pounds and is five feet tall. The girls are all young and apparently anxious. They seem to have taken a novel method in getting away from York.

The Kansas board of health has discovered that houses and barns painted blue inside as well as outside will be shunned by flies.

Farmers are busy as bees in their fields, planting corn and plowing. Crop prospects are showing up well, and the wheat and grass fields have a good stand.

Twenty-nine states, according to a Washington report, have ratified the proposed income tax amendment to the federal constitution.

WIFE SEEKS DIVORCE.

Husband a Former Mifflinburg Resident and Bucknell Student.

Selinsgrove is in the grasp of a breezy sensation in which the Rev. Howard L. Guss, a former resident of Mifflinburg and Bucknell student in the limelight, his wife, Mrs. Emily W. Guss, having instituted proceedings against him.

The appeal for the separation of these old-family folks comes as a sudden climax to a marriage of first love wedded last June.

Mrs. Guss charges cruel and barbarous treatment. Her father, Charles A. Warner, died at his home in Ardmore April 12th, and his death was all her father.

It is alleged that Rev. Mr. Guss had intercepted every means of communication from her family, confiscating letters and telegrams sent to his wife urging her to come immediately to her dying father.

Just why Mr. Guss did not want his wife to bid farewell to her father no one seems to know. It is alleged that the preacher was unreasonably jealous of his wife's relatives.

Mrs. Guss claims that during the time messages were being received by her husband he urged her to accompany him to Williamsport, and while there he informed her of an important business engagement in Chicago, and urged her to accompany him.

Centre Democrat: I beg leave to say a few things in relation to stock-raising streams.

Even the fellow who has nothing to do can't always be depended upon to do it. Some fellows have nerve enough to attempt to borrow money from a bill collector.

No need fear being chided for exceeding the speed limit in running on missions of mercy.

When a young man calls a young woman "dear" and she doesn't resent it, he should know that the hunting season is open.

We naturally expect a man to make a fool of himself over a woman, but we never forgive a woman who makes a fool of herself over a mere man.

When a young man begins to hang around the grocery store and ask what things cost, it is a safe conclusion that some girl is going to get married.

There are lots of people who never know right from wrong until they are found out, and some of 'em might be found with a fine toothed comb in Bellefonte.

The Powell marriage license bill in this state has been amended so that a license becomes void unless used within 60 days after it is issued.

The following is a good explanation of the initiative, the referendum and the recall we hear so much about these days.

Mr. Man goes home and announces that he is going down town after supper to meet a man; that's the initiative. The lady of the house says, 'Are you?' In that ascending voice, which seems to talk over the tops of her nerves, that's the referendum. Then Mr. Man sits down and reads his paper; that's the recall.

HER APPENDIX A WATCH CHARM.

Gold Plated it and Inaugurated Queer Fad in New York.

Up-to-the-minute young women of the metropolis are seriously cultivating attacks of appendicitis. They want an appendix for a watch charm.

The appendix jewel fad has had a flying start already. Miss Vera Cornell, who lives with her mother, Mrs. Lillian D. C. Cornell, in the Dartmouth at 509 Cathedral parkway, New York, is wearing hers as a watch charm right now.

Her appendix first was turned into silver and then heavily plated with gold (having first been taken out, of course), and now swings jauntily at the end of a slender gold chain.

Just where the 'pendix is linked to the chain there is engraved upon the unique article of jewelry "Vera Cornell" in Roman letters. 'Tis a dainty thing.

Dr. Carleton Dederer, of 609 West 127th street, a young surgeon, performed the operation on Miss Cornell and transformed the appendix into a jewel by a process of petrification.

He declared that any portion of the human body might be treated in the same manner.

Leather Trust Causes All Your Shoe Troubles

Profits—profits—profits are the one aim of the Leather Trust. It controls the tanneries. It works hand in glove with the Hide Trust. It runs up the price of leather—it cheapens the quality.

You see now why the average shoe costs you so much—and why its quality is so bad.

Endicott, Johnson & Co. are the only shoe manufacturers of this country who are independent of the Leather Trust, the Hide Trust and all Middlemen.

They buy their hides in the open markets of the world. They own their tanneries—they tan every pound of leather they put into their shoes. They sell direct from the factory to your home shoe dealer.

Endicott-Johnson shoes are firm and solid—but pliable and comfortable to the feet. They have style—and they hold their style, because the good leather has back-bone to withstand wear and weather.

They come to you 50 cents to \$1.00 cheaper than any other shoes of the same general appearance—they pay no profits to Trusts or Middlemen. Ask your local Endicott-Johnson dealer for ENDWELL (Goodyear Welt) shoes—dress and business shoes, selling at \$3.00, \$3.50 and \$4.00.

ENDWELL shoes give you your choice of two hundred styles in Shoes and Oxfords, lace and button—all the modish lasts—every width and shape of toe—all colors of leather.

Look for this name stamped in every shoe—
