A Welcome Change

Smoke curling up from the farmhouse chimney as the men are coming in from the fields, gives a pretty suggestion of a good supper and a comfortable home. But it also means a hot, tired woman, working hard over a blazing fire.

Your wife can escape this with a New Perfection Oil Cook-stove.

A New Perfection keeps a kitchen many degrees cooler than any other range, yet it does all a coal or wood range can do. It saves time, labor and fuel. No wood to cut; no coal to carry; no ashes; no soot. With the New Perfection oven it is the best cooking device you can find anywhere.

Made with 1, 2 and 3 burners, with long, turquouse blue enameled chimneys. Finnd-somely finished throughout. The 2- and 3-burner stovus can be had with or withhout a cabinet too, which is litted with drop shelves, towel racks, etc. Dealers everywhere; or write for descrip-ive circular to the mearest agency of

## Do You Love the Trusts Enough to Pay Four Profits on Your Shoes?

Every year the American people pay Millions of Dollars more than they need to for their shoes. They pay Four Excess Profits-the Hide Trust's profit, the Leather Trust's profit, profits to the Leather Jobber and the Shoe Jobber.

Endicott-Johnson shoes are the only shoes in this country that are free from these four profits. Endicott, Johnson & Co. buy their hides in the open market of the world. No profits to the Hide Trust. They tan-in their own tanneries-every foot and every pound of leather they put into their shoes. No profits to the Leather Trust and the Leather Jobber. They sell direct from the factory to your home shoe dealer. No profits to the Shoe Jobber. Endicott-Johnson shoes reach your feet 50 cents to \$1.00

cheaper than any other shoes of the same appearance and style. And what is better-you'll get more service out of Endicott-Johnson shors that you ever bought for the same money-because the leather is there, and that means everything in a shoe.
