In Common Use.

Automobiles are finding owners in many of the villages of our county and even among farmers. The number in those places will steadily increase—evidence that the rural population are keeping abreast with the times and will have the pleasure to be derived from those machines. Buggies and carriages for travel will be dispensed with and the speedy and more convenient auto be as common in the farming sections as in the towns and make friends for the cause of good roads. It will also bring about an elimination of dangerous places along the public highway and thereby decrease the liability to accidents now so frequent.

Deafness Cannot Be Cured

by local applications, as they cannot reach the diseased portion of the ear. There is only one way to cure deafness, and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube is inflamed, you have ringing, roaring or imperfect hearing, and when it is entirely closed, deafness is the result, and unless the inflammation can be taken out and this tube restored to its normal condition, hearing will be destroyed forever; nine cases out of ten are cured by Catarrh, which is nothing but an inflamed condition of the mucous surfaces. We will give One Hundred Dollars for any case of Deafness cured by our method. Send circular free by Mail to Catarrh Cure, Send by circular free.
