GAGGING THE PRESS.

Within two years the money power has applied the gag to several magazines engaged in militant work for popular rights It applied the gag first to Everybody's Magazine, which through Thomas W. Lawson exposed "The System" and brought consternation to Wall street. It next suppressed The American, which was instrumental in showing up the rottenness of municipal government in many large cities. It has now gotten control of Hampton's, which showed the country how Wall street captured railroads and used them as pawns in the stock gambling game, how the Guggenheims invaded and monopolized Alaska, and how the big trusts levied tribute on the people. The money power appears to be determined to suppress every popular publication, at least to control its utterances.

The money power has gone about this business systematically. It has first undertaken to influence advertising patronage. then to hamper stockholders in their financial transactions, and finally to destroy the credit of the magazine itself. In the case of Hampton's it installed a spy of the magazine, who obtaining the information desired, left the magazine without so much as the formality of a resignation. The money power employs any means or method to reach the

It may be said that all this is the business of the magazines. But is it? Is it not, in its ultimate analysis, an attack on a free press and free speech? And if so, is it not applying the gag to the peothemselves? This paper believes it. that this crusade of suppression will so be regarded by the people, and that they will eventually rise up and oppose it .-

MINERS LEAN TO WILSON.

A partial canvass of Schuykill county voters made by The Evening Chronicle shows some curfous results on Presidential preferences of voters. That the miners still hold Roosevelt in grateful remembrance for the Anthracite Strike Commission is shown by the vote, which was as follows as compiled last Satur-

Republicans-Roosevelt, 1516; Taft, Woodrow Wilson, 204; Lafollette. 184: Knox. 12.

Demograts-Wilson, 1856; Clark, 384; Roosevelt, 182; LaFollette, 165; Harmon,

The Chronicle estimates that Governor Wilson would carry that county by from 8000 to 10,000 majority if nominated against Taft, and the present sentiment continues, as a number of Roosevelt supporters declared the New Jersey man to be their second choice.

Governor Woodrow Wilson is being as-sailed by the reactionary Democrats in the house and senate because of his outspoken opposition to the use of party lines for the promotion of special privilege purposes and the defeat of the public interest.

He expressed himself forcibly and was in Washington last Sunday, and government supervision of such election equal force and clearness in several of his speeches in the west.

His statements have now been seized upon by the tory Democrats as basis for the charge that the governor is not a Democrat and that his nomination and election, no matter how much it might benefit the country generally, would destroy the Democratic party organization.

Report of Support Annoyed Taft. WHY STATE COLLEGE SUFFERS

Why They Can Not Accommodate All Students-Public Monies Diverted to Private Institutions-Pennsylvania's Shame-Machine Politics the Cause.

During the past week there was a rumor current in Bellefonte that Dr. E. E. Sparks, president of Penna. State College, had tendered his resignation, in order to accept a similar position with On a peak at the summit of the high the University of Iowa. It was the occasion for many expressions of regret from our people, who have learned to appreciate Dr. Sparks, worth as the head of our institution in the brief time he has been here:

Without going into detail, we can as sure our people that Dr. Sparks has not tendered his resignation, nor is at all likely that he will do so. A proposition was made to him some time ago to accept a position in that institution, but not as the president, yet there was an increase over his present salary at State College, which was attractive and worthy

of consideration. The lowa institution is said to receive three millions annually from that state for its maintenance, and the institution does not have to depend every two years for its existence upon the good will a corrupt bunch of politicians like that sentiment of Centre County Democrats which composes the Pennsylvania legislature. Instead of wasting valuable time sions from our people. Therefore give us in log rolling, wire pulling, and humoring a low type of unprincipled men out in your views, on the following for publi- lowa they are secure, and can devote all cation in our next issue. Make your their time and energies to the cause of education. In lowa scholarly men, of superior talents, are not forced into such humiliating occupation.

In Pennsylvania our state institution suffers because the gangsters from Philadelphia insist that the private schools in Philadelphia and Pittsburg receive the bulk of such monies, while her state institution must actually languish, limp along with inadequate buildings and equipment to properly care for and instruct the great increased attendance

from all parts of the state. This is the real condition . Hundreds of ambitious young men in all sections are now clamoring for admission to State College next year, and the problem now is to find sufficient class room, laboratories, etc., as well as lodging for these ambitious young men seeking to equip themselves for life's work.

This condition is not exaggerated, and if the President and the Board of Trustees would take the public into their confidence, instead of fearing and gracefully submitting to these notorious outrages; if they would appeal to the better thinking element of Pennsylvania for redress, we believe they would win more upon their merit, than instead of coaxing, pleading, begging, almost fawning and cringing before the corrupt politicians of Philadelphia, who compose the notorious Penrose Machine.

Other states maintain similar educational institutions and provide much more liberally for their maintenance; but here, in Pennsylvania, the Penrose Malarger sums are diverted to the private institutions in that city and Pittsburg.

This is Pennsylvania for you; it is the outgrowth of the corrupt political system that has grown powerful and dewith all the atuhority, and power possible, no matter how long or how greatly they have abused it, or what wrongs they commit upon the people. That is Pennsylvania for you-we deserve it because our people constantly vote that way-and they most surely get

The Bristow amendment, giving to the federal was adopted, 44 to44, the Vice President casting the deciding ballot. The House has already passed the resolution.

Farmers of the country are beginning to realize that they are being duped by the trusts and there is good reason to believe that they will resent the deception that is being practiced by selfish interests. When the trusts engaged emissaries to go out among the farmers and fan the little flame of opposition to the Canadian reciprocity treaty they counted without the cost, for they uncovered their whole scheme. They have endeavored to kill the re-form legislation by the exercise of subterfuge, but fortunately American intelligence cannot be deceived in that way. There will be a reaction detrimental to the trusts.

As to the new milk law, in a statement issued, Commissioner Foust says that the new law 'puts the pump out of commission, drives the drug shop out of the milk depot and halts the deceptive thickeper as it would enter the door.' This will depend upon the success of the Commissioner in enforcing the law in which he should have the cordial 'support and co-operation of all good citi-
