Miss Helen Schenck is Dead.

On Monday morning Miss Helen Josephine Schenck,d aughter of Frederick Schenck, passed to the boyond, released from the domination of a long and weariome malady. Miss Schenck was not yet twenty-seven years of age-too young to die-but her religious life and christian service had well prepared her for the transition to the life of reward. She was a consistent and active member of the Reformed church, always at her post of duty, when her frail health permitted. She was a cultured musician and the organist of her church. For everal years her failing health had prevented her from active particiaption in the social life of the town, though her gentle manners and sweet disposition made her a general favorite with her young

to heaven. She was laid away in Schenck's cemetery, this (Thursday) morning, after services at the home by her paster, Rev. E. F. Faust.

Mr. and Mrs. William Weber were awakened about five o'clock last Saturday morning by a crackling noise in a dressing room which adjoins their bed room and in which they burn a night Through the portiers which separate the rooms they soon discovered that the territory about the lamp, including the carpet and the floor, some of Mrs. Weber's clothing, and the book case upon which the lamp was habitually placed, was on fire. The prompt and energetic action of Mr. Weber soon subconflagration. An dued the incipient examination found that from some unknown cause the lamp had exploded, and a portion of the blazing oil had run wn over the book case and carpet, and a very few moments more would have destroyed the entire building.

Favorable Crops.

During the past few days a number of farmers in this county began cutting their first hay. In many places the yield is good. While it is not very high

Miss Cora Chatham, of Lock Haven. Down in Union county and especially through the famous Buffalo valley the conditions are not near as favorable. Many of the wheat fields will not give a third of a crop and in some cases there will hardly be enough to pay for the trouble of cutting. To find a good field is almost impossible. Corn is also an exceptionally poor crop with them as much of it failed to come up. Mrs. D. H. Kloss, of Altoona, and Mrs. As a rule Buffalo Valley leads Centre county in almost all crops each year, but this season they are sadly left. Our corn and wheat are far ahead oftheirs. In fact we are told that the crops in Centre county are better than in most parts of the state. While our wheat and corn are not the best, yet are much better than the average in other sections. For that we certainly should be thankful.

endered the happy pair at the Brugger nome which was a most elaborate and pleasing event. The large and beautiful lawn was handsomely illuminated with Chinese lanterns. The large and commodies parlors were also brightly iluminated. Some of the most pleasing and enjoyable incidents was the delightful music rendered by Miss Alice Henshey, an accomplished planist, who played a number of charming instrumental solos. The groom, who is a salaried singer in one of the Philadelphia churches, sang a number of beautiful solos accompanied on the piano by Miss Flora Brugger, and also by Miss Eloise Buck. Of course, the groom being so full of happiness, he couldn't help but throw his whole soul into his songs, which were greatly enjoyed by the many guests. J. E. Hall also surprised the guests by the rendition of several pretty instrumental pieces on the piano. After that, then what? Gee! such ice cream, such cakes for quantity and quality, and such doffee was certainly a record breaker. Suffice to say that all enjoyed themselves to the limit and the one all absorbing question with the writer was, "why don't more people get married and hold receptions?" A list of the guests follow: tance were, Mr. and Mrs. M. I. Gardner and son Harold, Mr. and Mrs. N. B. Spangler (of course) Miss Moille A. Snyder, and Mr. and Mrs. J. C.
