JULIAN.

James Hand, after spending a few weeks with his family at this place, returned last week to West Virginia. Mr. Hand is employed as a camp cook among the mammoth timber of that "Sunny" state.

The sad news of the sudden death of the Rev. Newton S. Bailey, at his parsonage in New Paris, Bedford Co., on July the 10th was an unexpected shock to our community. Two years ago Rev. Bailey was on the United Brethren Charge at this place, during which time he made many friends both in town and in the surrounding rural districts. Many were his visits at the home of the writer who highly enjoyed his sojourn. One cannot extend our sympathy to the wife who mourns his absence.

Carpenter Reuben Walker, who is employed out in Ohio, spent a few weeks with his family at this place. Mrs. Eliza Myers departed last week for Davis, West Virginia, where she will spend a few weeks with her daughter, Mrs. Joe Kline.

Rumor is circulating the news about that matrimonial "Bumble Bee" is buzzing in our town again. Let us wipe the cobwebs from our tin horns and prepare to "Toot" at the serenade.

NOTE—Friends and relatives of the Resides family who contemplate attending the Resides reunion this year, will note that it will occur at Hunters Park, on Saturday, July the 29th. Rollie Williams and F. W. Dillen have purchased the hay crop on the David Henderson farm and for the past ten days have been with the necessary help, tending under the singing rays of that ever-luminous orb, preparing the hay for winter use.

On Friday of last week Oren Boyer, wife (nee Miss Annie Turner) and seven children, of Ashtola, Somerset county, arrived in town and will spend a few weeks at their parental homes. Mr. Boyer has been a progressive and up-to-date mill hand in the employ of the Babcock Lumber Co., at Ashtola, for many years. But owing to the fact that he has secured a position as mill foreman with the United Lumber Co., at Humbert, Somerset county, Pa., he has shipped his household effects from Ashtola to that place, and when he and his family have concluded their visit among their many friends and acquaintances, they will depart for that place, where they expect to make their future home. May health and success abide with Mr. Boyer and his family.

Miss Emma Murray, of Tyrone, and Mrs. Estella Stump, (nee Miss Estella Austin) of Lancaster, Pa., both former residents of this place, came down from Tyrone, on Sunday, and circulated among their many old-time friends and acquaintances in Julian.

On Saturday G. E. Campbell after giving his motorcycle two quarts of buttermilk and a generous supply of oxygen jumped astride the ever-trusty vehicle and turning its bowprit in the direction of Bellefonte, started off at something less than 10 miles in 5 minutes. But while several miles west of that shopping city the handle-bars broke, which presumably raised a cloud of dust as high as Pike's Peak. However no damage was done to either cycle or rider. A new pair of bars was secured and the journey finished as if nothing had happened.

Miss Eva Davis, of Lancaster, Pa., came on Saturday and is being entertained at her parental home. Mrs. Maggie Richards, of Jersey Shore, arrived in town on Friday and spent several days at the home of Mr. and Mrs. James Turner.

When the summer's harvest is over and the crops in the bays are stored. When the reaper and mower in silence Under shelter are safely towed, When the bleak winds blow o'er the stubbles

And the jagged stalks of the corn, When the Sun, in the morn, And rises late in the morn, Is our "Thanks" to be heard for these blessings.

For the bounteous yield, in our care; Never grumble and be discontented; But be grateful, and glad for your share.

—G. W. Harbridge.

ZION.

The weather conditions were most favorable for haymaking and harvesting, and the farmers took advantage of the same and have both crops stored in their barns in fine condition. The hay crop was about an average crop, while the wheat is perhaps a little better than a half crop.

Billy Smith has started his thrasher and reports some of the wheat badly shrivelled, while others are of fair quality.

Miss Ada Royer, the night operator on the Zion telephone exchange, has been off duty for several weeks. The company so far has failed to get a substitute. Her place, however, is being ably filled by the Misses Lesh and Garbrick, the day operators, who take turns in filling the vacancy.

Several weeks ago, after an electric storm, Miss Ada Royer, the night operator in the Zion office of the Nittany telephone exchange, replaced some fuses that were burned out, and returned to the board to answer a call, when she got a paralytic stroke effecting her left side, since which time she has been confined to the house. John Love, of Altoona, is visiting at Emanuel Garbrick's and other friends in our neighborhood.

Mrs. Annie Startz is spending some time at Hubersburg visiting friends and old acquaintances.

Pat, our village police, has an easy time. The lock-up is empty and the offenders of the law are cooling themselves with ice cream this hot weather or instead of using "real eyes" and any way its awful lonesome and hot to sit under a roof in a lock-up.

Come to Nittany July 22nd, and have a good time.

In reading over Howard items last week we saw that they have Dan Diehl quoted as one of Marion township citizens. We will say right here that he is one of Walker township's good, jolly citizens. He did receive a big new machine of the Huber & Co. make, of Marion, Ohio, and has started out to thrash and the machine works O. K.

Mrs. Arthur Norris, of the Branch, visited at Charley Wand's on Sunday.

Of the campers and picnics here at Rock, there is no end; there has been a picnic here every week this summer on the meadow at Rock church. If they can't gather a crowd enough to have a Sunday school, they can for a picnic; it seems as though in other parts of the country the boys are more sociable, as Rock can't get up a Sunday school without a squabble.

Apples Dropping Off Trees. Farmers say that their hopes of a bumper apple crop to come next fall are being dashed to earth, as the green fruit is dropping off the trees. They do not know if it was the too wet or the too dry weather that did it, but the trees, which were laden with blossoms and green fruit, are losing it at a rapid rate.—Lewistown Journal.

Aids Nature

The great success of Dr. Pierce's Golden Medical Discovery in curing weak stomachs, wasted bodies, weak lungs, and obstinate and lingering coughs, is based on the recognition of the fundamental truth that "Golden Medical Discovery" supplies Nature with body-building, tissue-repairing, muscle-making materials, in condensed and concentrated form. With this help Nature supplies the necessary strength to the stomach to digest food, build up the body and thereby throw off lingering obstinate coughs. The "Discovery" re-establishes the digestive and nutritive organs in sound health, purifies and enriches the blood, and nourishes the nerves—in short establishes sound vigorous health.

If your dealer offers something "just as good," It is probably better FOR HIM--it pays better. But you are thinking of the care not the profit, so there's nothing "just as good" for you. Say so.
