JULIAN.

John Dale, of Dale Summit, was in town one day last week. Mr. Dale is a candidate for County Treasurer and was on his beat over the country to let the people get a glimpse of the man he anticipates will be elected for this office at the coming election.

The singing school at Julian, under the direction of Prof. Howard Miles is getting along nicely. Those attending are as follows: Mrs. Rollie Williams, Mr. and Mrs. Reuben Alexander, Marjorie and Miriam Matern, Jackson Cronister, Franklin Dillen, Albert Miller, Frances Swisher, Ida Turner, Jennie Straw, Lizzie Hand and Mrs. John Cookley.

Mrs. Susan Bodle and Mrs. Rachel Boyer are spending a few weeks with their many friends and relatives at Jersey Shore.

Mills Elaxander has purchased the old Wilson Dillen homestead, two and a half miles west of town, and on Tuesday surveyor Clem Dale, of Bellefonte, came up to renew the boundaries of the above named farm.

The town school house has been undergoing some much needed repairs during the past two weeks, such as a new roof, a little plastering, etc. A new heating plant or furnace will cost \$125 and it is expected will be far superior to the common stove.

It will distribute the heat evenly in pipes all over the school room. This will, if it works properly, put an end to one-half of the scholars roasting their life out while the other half are freezing to death, as was the case during the bleak winter months when the writer went to school there.

The Rev. and Mrs. L. W. Nuttall, of Phillipsburg, were business callers at the home of Mr. and Mrs. F. Dillen on Friday. Rev. Nuttall is secretary of the State Sabbath School association for Centre county, and is canvassing the county in the interest of the Sunday schools.

On Saturday evening, July 22nd, Miss Bessie Moore celebrated her "sweet" sixteenth birthday anniversary. A large crowd of merry-making young folks gathered and a very delightful evening was spent.

The writer could not learn the names of all those present. One of the most important events of the evening was that when the party was over and all were homeward bound, it is said that one of our little school ma'ams accompanied by one of our popular and up-to-date P. R. E. agents got lost among the giant timber and the blackness of the night. We beg to suggest a compass and a lantern, next time.

On Thursday of last week the writer had the pleasure of enjoying a spin in Captain Turner's new Ford auto. It rides with the ease of Count Zeppelin's big passenger balloon now doing service in Switzerland, and as our cow boy ex-president would term it, was "delighted" with the trip.

Geo. Sones arrived in town on the 5:10 p. m. train from Northumberland on Saturday, and was entertained by his many friends and relatives over Sunday. Mr. Sones, only a few months ago, sold his property in Julian and moved his family and household effects to Northumberland, Pa., where he expected to make his future home; but he informs us that this railroad town did not meet with his expectations, thus he has secured a position as carpenter with the Tyrone Paper Mill Co., to which place he is now on his way.

The venerable Thomas Quick returned on Friday evening from Moose Run, where he attended the funeral of his brother, George Quick.

On Friday evening, July 23th, the Misses Mary and Emma Swope entertained at their home on Railroad Ave., a number of invited guests. During the evening the party enjoyed much music and many delicious cake and candy was also served. All returned to their respective homes feeling that they had greatly enjoyed the festivities of the evening.

Some of our farmers have their oats all cut and some of it in the barn. The Huckleberries are said to be very plentiful on the Allegheny mountains, many bushels have been brought into town by our natives. On Muncy mountain the berries are very scarce.

The show on Thursday did not attract a very large crowd. Our people don't have much use for a show minus the elephant.

Dr. W. U. Irwin and Harry Lindymouth, both of Fleming, passed over Julian's boulevard on Sunday afternoon in their autos.

The ladies of the M. E. church will hold a lawn social on Saturday evening, August 5th, on the green in the church yard, the proceeds to be used for blinds and other necessities. Ice cream, cake, fruit, candy and peanuts will be on sale. This is for an important cause and of course a cordial invitation is extended to all.

Rev. Gilbert will preach in the M. E. church on Sunday evening August 6th, at 7:45 o'clock.

fallen asleep when it occurred. It was found that he tried to make his way through the cellar and when he found his attempt was useless he returned to a back window removed a sash and in that way succeeded in entering the house. He succeeded in ransacking the house downstairs and was on his way up when, as luck happened, he stumbled, which readily woke Mrs. Hale who called and asked who was there; no doubt the burglar became alarmed and succeeded in making his escape. Mrs. Hale became very much frightened and her cries brought many neighbors to her aid; of course, it is plain to be seen that money is what the bold attempt was made for as nothing in the other part of the house is missing.

Miss Dela Cowpher, of Port Matilda, returned home last Friday after spending a couple of weeks with relatives and friends at this place, but Edgie looks lonesome.

Dr. Patch, who is employed by the Anti-Saloon league of this district, gave a very interesting and instructive lecture in the M. E. church of this place on Sunday evening, August 30th. His subject was "Our Nation's Oppression and its Emancipation." Let us rally on the side of the cause of right, and do what we can to root out this great cause of slavery.

Quite Informal. Arthur Brisbane, editorial writer for Mr. Hearst, has been a great friend of John L. Sullivan, the former heavyweight champion, for many years. When Brisbane was a newspaper writer in London, John L. was given an audience by the late King Edward, then Prince of Wales.

"By George," exclaimed Sullivan to some of his friends, "Brisbane is the leading young journalist of America, and if I meet the Prince of Wales Brisbane does too."

When the little party arrived at the palace for the audience the court attendants nearly had heart failure as John L. introduced Brisbane in these words:

"This is my pal. He's Arthur Brisbane, the leading young journalist of America."

They pointed out that a newspaper man, especially an American of that profession, could not be present at the reception.

"No Brisbane no me!" said Sullivan flatly.

Finally they were admitted, and then it was Brisbane's turn to get heart failure. Sullivan strode up to the Prince of Wales, grasped him by the hand and said in his deep voice:

"Hello, prince! Let me present Arthur Brisbane, the leading young journalist of America."—Popular Magazine.

Used Another Man's Legs. In the hall of the house of representatives there is a painting of George Washington. He looks a most commanding person, with the stature of a giant and a faultless physique. But looking at the portrait recently a public man commented:

"That is a good deal of a sham. George Washington never looked like that, though I've no doubt he would have been proud to appear so magnificent."

"Notice the legs," the speaker continued. "They are perfect beauties, but they are not Washington's. They are the legs of General Smith of New Jersey, a soldier of the Revolution."

"It happened this way," he explained in conclusion: "Washington had quite unimpressive legs, and the artist who painted that picture was so dissatisfied with their shape that he persuaded General Smith to lend his faultless members as models. So, while we have the face and torso of our great first president, the supporting legs are those of one of his generals. Long may they stand!"—Washington Post.

Not the Answer He Expected. One of Lord Desborough's best anecdotes relates to a clergyman who was far more at home in the hunting field than in the pulpit, says London "Tit-Bits." On the morning of a meet he was much annoyed at having to officiate at a funeral; but, this over, he mounted his horse and started in pursuit of his friends. On the road he sought information of an old woman with a donkey cart.

"Well," she said, "if you ride to the top of the hill you will come to a 'meenister.' Then if you turn to the right you will be likely to come up with them."

Handing her a shilling, he said, "My good woman, why did you call the sign post a minister?"

"Why, you see, sir, it's like this: We used to call 'em sign posts, but since you've been in these parts we call 'em meenisters, 'cos, though they points other folks the way, they never goes themselves. Go on, Neddy!"

Waits for Fame. No writer ever thinks of spelling out his middle name in full until he has been a war correspondent or has taken a ride in a aeroplane.—Los Angeles Express.

A Difficult Matter. Love scenes are always difficult. I would rather murder any woman than propose to her—that is to say, in fiction.—John Oliver Hobbes (Mrs. Craigie).

Wouldn't it be nice within a week or so to begin to say goodbye forever to the scalding, dribbling, straining, or too frequent passage of urine; the forehead and the back of the head aches; the stitches and pains in the back; the growing muscle weakness; spots before the eyes; yellow skin, sluggish bowels; swollen eyelids or ankles; leg cramps; unnatural short breath; sleeplessness and the despondency?

I have a recipe for these troubles that you can depend on, and if you want to make a quick recovery you ought to write and get a copy of it. A doctor would charge you \$3.50 just for writing this prescription, but I have it and will be glad to send it to you entirely free. Just drop me a line like this: Dr. A. E. Robinson, 1219 Lock Building, Detroit, Mich., and I will send it by return mail in a plain envelope. Where Woman's Voice is Heard. What a great country is Australia. It is a country where one can get things done and no words about it. No back talk. The ladies of Melbourne, they of the tight-skirt persuasion, have found a difficulty in mounting the steps of the street cars, and now the authorities have ordered that the steps be lowered so that the foot need not be raised beyond the limitations imposed by fashion. And we call ourselves a free country.

Rubber Made From Beans. It has taken the Germans to use beans for making rubber. The process has just been patented. It consists in extracting a thick oil from the soya bean, treating this with nitric acid, and then heating the material to a given temperature, whereupon it becomes viscid and tough like crude rubber. It can then be vulcanized by addition of sulphur the same as vegetable rubber, and used for the same purposes.

The Man and His Book. A fool reads a book and understands nothing in it. A witty reads it, he fancies he is perfectly master of it all without exception. A man of discernment sometimes does not comprehend it entirely, he distinguishes what is clear from what is obscure, whilst the beaux esprits will have those passages dark which are not, and affect not to understand what is really intelligible.—La Bruyere.
