—Philip Haaz, son of Mr. and Mrs. Harry Haaz of this place, has developed into quite a steeple-jack lately, and to see him swing around the stacks of the American Lime & Stone Co. kilns, at dizzy heights, would make one think he had followed the business for painting quite a number of this firm's stacks and the fact that his services are in demand at other places, speaks well for his satisfactory work. "Pat" made a good overseer and even if he is a democrat that should not interfere with any taxpayer supporting him.

—Miss Ella Levy, an instructor in our schools for a number of years has tendered to the board her resignation. This is to be regretted for she was in many ways the most efficient instructor in the High School. She could always be relied upon to do the work assigned her and do it well. —Manager Garman, of the opera house, is flaring hard on giving the people of Bellefonte some good solid amusement next week, and if it is possible to do so, he will have a comedy company here all next week to play at popular prices—10, 20 and 30 cents. There is some uncertainty as to whether the company can be persuaded to stop here, but if it does you can depend upon seeing something extraordinary. At the low prices, too, of 10, 20 and 30 cents, everybody can afford to attend, and you can attend company one night you'll want to attend them all.

—An early morning fire Wednesday at the residence of John Witmer, on Reynolds avenue, proved of sufficient seriousness to call out the fire department, but fortunately the services of hose companies were not long needed, for a well directed stream from a hose attached to a fire plug soon dispensed with the danger. The building is a new frame dwelling, only erected last spring and the origin of the fire is somewhat of a mystery. When it was discovered the fire was burning under the shingles on the roof. Mrs. Witmer states that there was no fire in the stove at the time, which fact has caused a rumor to become circulated to the effect that the conflagration was caused by electric wires. This is an error, for while the house has been made with the electric light company's service wires. The inside of the house was considerably soaked with water, while several holes were burned in the roof. The damage will possibly amount to several hundred dollars.

PRIVILEGE WITHDRAWN

To Dr. Sebring to Maintain Sign on Allegheny Street.

Monday night's session of council was an occasion for a lively little debate over the much-talked-of Sebring signboard erected on Allegheny street, for which council had given the owner the privilege some months ago to erect and maintain. At a previous meeting three weeks ago, Mr. Blanchard and W. Harrison Walker, counsel for Dr. Sebring, appeared before the borough legislature, and asked them to rescind the privilege extended to Dr. Sebring to maintain a signboard in front of their client's vacant lot, for the reason that they had no right to grant such a privilege. At that time the matter was discussed by the members, but as no conclusion could be arrived at, it was held over until the next meeting. In the meantime the sign had been put down by some person, and again erected by Dr. Sebring, more firmly than ever.

Both sides in the controversy were represented on Monday night, W. D. Zerby, Esq., for Dr. Sebring, and John Blanchard, Esq., and W. Harrison Walker, Esq., for Seibert. In proper order Mr. Zerby stated that he understood that council intended to withdraw the privilege extended to his client, and therefore asked them to reconsider that move. He further stated that in his opinion they had a perfect right to grant the privilege, and no right to rescind it unless, his client had done something to forfeit the favor. This was replied to by Mr. Blanchard, who fully explained why the privilege of placing a sign in front of another man's property should never have been granted, and further stated that unless council wished their hands off the affair by withdrawing the privilege to Dr. Sebring, they would be drawn into litigation. To this Mr. Zerby made reply, and the matter was dropped, to be taken up in regular order later in the meeting.

Under the head of old business Mr. Judge, of the street committee, offered a resolution in effect that inasmuch as council had labored under a misapprehension when they gave the privilege to Dr. Sebring to erect the signboard at this point (thinking that the owner of the lot had consented to same) they then and there withdraw the privilege. This resolution was adopted by motion.

Under verbal communications Mr. Twilmer asked that the water drainage in front of his residence be soon attended to, as he is much annoyed by surface water running in his cellar. This was referred to borough engineer to remedy.

Street committee reported laying a number of brick crossings on High and Lamb streets, and making other necessary repairs.

Water committee reported amount of water bills from April to July, 1844.77. Also making numerous repairs.

Market committee reported \$11.30 fees collected.

Treasurer reported a balance of \$239.92 on hand.

In regard to the Lamb street bridge and the Buffalo Run bridge, borough engineer stated that the latter was in bad shape, and would practically have to be rebuilt. The Lamb street bridge needs a new floor, and the iron structure needs repairing. As the abutments for this bridge were built by the borough, the iron work furnished by the county, with the understanding that the bridge be maintained by the borough, the latter falls heir to the repairs unless an entire new structure is necessary, which might be replaced by the county. The borough engineer was asked to prepare plans and ascertain the probable cost for a new bridge over Buffalo Run.

Engineer Meyer also submitted plans for the proposed new reinforced concrete bridge over the tailrace at the swing factory, and action on the same was deferred for two weeks, during the meantime the borough solicitor will prepare bids for the same.

The ordinance for the macadamizing of east Bishop street from Allegheny street, was again read, and on motion adopted. Two-thirds of the cost of the macadamizing is to be paid by the property-owners at 15 cents per foot front.

Another reading was given the ordinance to grant the Centre County Light, Heat & Power company the right to erect and maintain poles, wires, etc., through the streets of the borough. The ordinance has been amended which revised since last meeting of council, and sets forth that no poles shall be erected on Linn, Allegheny or Bishop streets, the wires to be maintained by conductors. Service shall begin by Jan. 1, 1912, and rates shall be as follows: Arc lights, no price fixed; commercial lighting by cents per kilowatt; commercial power, 5 cents per kilowatt. These are the maximum rates, and are to remain in force for a period of fifteen years.

The matter was referred to the borough solicitor to confer with the company. Mr. Musser stated that a new stack was greatly needed at the Phoenix station, and that Mr. Reynolds had proposed at one time to erect a brick stack if council would pay as their share the cost of an iron stack.

Financial committee reported the fixing of millage rates the same as last year—3 mills for borough, 5 mills for interest, and 6 mills for street. This was accepted by council. This committee also asked that a note of \$1000 for six months at 5 per cent be drawn to take up a note of similar amount falling due; and also that a new note for \$1000 be drawn, at 5 per cent, for three months, to pay current bills.
