### Rock Forge No. 2.

The champion berry pickers of this season so far known are Mrs. Harry Fike and children. Should a contest be started Mrs. Fike would secure first prize. A few local showers passed over our valley last week and were a grand help to all vegetation.

Mrs. Shaffer, from Indiana, is visiting at the home of J. S. Royer, in our village.

Jas. Bailey, the barber, and his wife, from Bellefonte, drove down to our village Sunday evening, spent a few hours very pleasantly with his aunt, Mrs. Yonada who had the misfortune to trip on a board and fall, fracturing a bone in the left arm; the fracture was reduced by Dr. Fisher and is healing nicely.

The sick: N. E. Robb, who had been somewhat indisposed for several days, is out and around again; Ada Royer has so much improved that she is able to be up and around the house; Dr. Fisher is convalescing slowly; Lavina Shaffer is not improving any; her disease is of a dropsical nature and her many friends are fearful of the future result.

Saturday was an ideal day and quite a few took advantage of it by attending the Sunday school picnic at Hecla Park; everything passed off very enjoyably. The amusements were a ball game in the forenoon between the married and single men, followed by a feast of good things for everybody. The afternoon was spent in social intercourse, rowing on the lake, and a ball game between a select team from Bellefonte and the Zion boys. At about five o'clock all repaired to their several homes very much pleased with their day's outing.

Late improvements in our village was the painting of the Evangelical church and a concrete walk for J. G. Royer.

### BENORE.

The officials of the M. E. church at Scotia held a festival in the public park; there was a large and well-attended assembly of old and young people, the home band giving a fine selection of music. We hear it was a financial success—the proceeds for the benefit of the minister.

The Scotia works are still standing on one leg—working the men in gangs of 18 or 20, one gang today and the other tomorrow. What is the matter? Too much tariff or an over production of iron.

The McNitt Huyett Lumber Co. have been grading their tram road through their tract of timber known as the South Side. They have it graded from Fairbrook to Scotia where they expect to tunnel under the Pennsylvania R. R. and connect with the Bellefonte Central R. R. with a third rail.

Miss Reila Ghaner spent a week with relatives and friends in Halfmoon, Loveville and Tyrone, and reports having a good time; if she did some home posting, we don't know what for.

J. W. Lytle is moving his family to Jersey Shore, where he will work in a machine shop; we are losing a good neighbor and Jersey Shore will gain one.

H. M. Gray, of Tyrone, and Miss Annie Gray and Mrs. Nora Thompson are each having a very large pit of lime burnt in the Echo hollow, estimated at 4000 bushels each. The former to be put on the Miles D. Gray farm by B. C. Bloom, and latter to be sprinkled on the Echo farm by the Griffen Bros.

On last Friday morning it rained so hard just about the upper end of Patton township that it washed the road bed in places so bad that it can't be traveled; in places there are holes deep enough that one could bury a horse in. This is the worst road washout we have had for years but the roadman, W. H. Ghaner, got right after the bad places, and they can't last long.

### LEMONT.

Claud Hoy has gone to work again for the P. R. R. Co.

Supervisor Drees and men are busy putting crushed stone on the old pike between Lemont and State College, and thus far have used about five car loads.

The Union picnic, Saturday, held west of Houserville, was well attended and everyone had a pleasant time.

Died from Picking Pimple. Miss Clara Kiel, a well known young lady, of Portage, is the victim of a peculiar death. Nine weeks ago last Sunday she picked a small pimple on the right side of her face by means of a pin. Soon her face became very sore and then poison spread through her entire system. Medical attention proved of no use and death claimed her Thursday morning, being caused by cerebro-spinal meningitis.

## Housework Drudgery

Housework is drudgery for the weak woman. She brushes, dusts and scrubs, or is on her feet all day attending to the many details of the household, her back aching, her temples throbbing, nerves quivering under the stress of pain, possibly dizzy feelings. Sometimes rest in bed is not refreshing, because the poor tired nerves do not permit of refreshing sleep. The real need of weak, nervous women is satisfied by Dr. Pierce's Favorite Prescription.

### It Makes Weak Women Strong and Sick Women Well.

This "Prescription" removes the cause of women's weakness, heals inflammation and ulceration, and cures those weaknesses so peculiar to women. It tranquilizes the nerves, encourages the appetite and induces restful sleep.

Dr. Pierce is perfectly willing to let every one know what his "Favorite Prescription" contains, a complete list of ingredients on the bottle-wrapper. Do not let any unscrupulous druggist persuade you that his substitute of unknown composition is "just as good" in order that he may make a bigger profit. Just smile and shake your head! Dr. Pierce's Pleasant Pellets cures liver ills.
