Bright, Newsy Letters From the Various Sections of the County.

WINGATE.

James Davidson deserves a word of sympathy for the way he was treated, as he let the berry pickers of this vicinity have the liberty of his huckleberry patch with the proviso that they leave his blackberries alone which were in an adjoining field; but when James came to pick his berries, lo and behold, someone had beat him there. Such mean tricks make deserving persons deprived of the privilege of getting berries.

Sylvester Summers is improving the appearance of his homestead by a new shingle roof and other repairs.

Don't forget the lawn fee here Aug. 19th, for the benefit of the U. E. church. Business starts at 6.30 sharp.

For home-made dry pans apply to Mrs. Jacob Kerchner.

ROCK FORGE.

Well Rock scribe No. 3 blamed No. 1 for sleeping. Excuse me, you blockhead, we were to the Bear Meadows for huckleberries and didn't get back in time to hunt up the news, but I will try and tell all I know; so here you go:

Well, just to think our town has three correspondents and still don't get all the news. Our town is so large we can't get over all the news in a week.

Nearly every person around Rock attended the festival held at Lemont on Saturday evening the 12th. It was more like a picnic, and you will soon see the lights go up and a well dug which will be of a great benefit to the town.

Rock Sunday school is improving this summer, as Malvin Roan is superintendent and a good friend of every person, and that will help the good cause along. We would like to see Mr. Roan and his helpers get up a festival here at Rock. We are sure every person will do their part.

The Kuhn and Smith families and relatives had a sort of reunion on Sunday as they passed through Rock on Sunday for a suitable place to hold it.

It seems as though Bearley has great faith in taking care of the little girls, as every place he goes he is taking care of some one's daughter.

H. E. Walters visited at Rock one day last week and told a huckleberry story. He reports six young boys and girls from Bellefonte, with himself in the crowd who walked out on Muncy mountain for berries and he said the boys didn't get any and the girls all had huckleberry skirts on, and they couldn't climb the fence. He said the boys were kept busy tearing down and building up fences all day.

A great surprise was on Mrs. Ira Benner on last Tuesday, as on Wednesday was her daughter, Romaine's birthday. Mrs. Benner had gotten up a postal card shower for her daughter, and she kept her eye on the mail box in case some one might write and tell the daughter, never thinking of Tuesday being her own birthday. When she went to the mail box she was surprised to find that some of her kind friends had gotten up a card shower for Mrs. Benner, and she received 166 cards that day, besides some other mailed greetings; and her daughter got 58 cards on Wednesday.

Runkle Frazer has purchased from Charley Wands all of his rabbits and is going into raising rabbits on a large scale.

The natives of this vicinity must be very careful what they are doing, as they are being constantly watched.

Geo. Behrer has purchased a field glass and can be seen any day up on his barn roof spying down on us.

The sound of the woodman's axe and the buzz of the saw will soon be heard here in a few days. Reynolds Hope has moved his saw mill from the Lew Marshall tract to the James O. Clark tract of timber, right back of Harvey Benner's. There is some fine timber on this tract, and should make some very good lumber.

We are having fine weather now for the corn and late potatoes and the indications are for a large crop of corn. Ira Benner has a fine field of corn, so also has Andy Breen.

Berries of all kinds seem to be very plentiful all summer around here, especially with huckleberries but their season is about closing, as they are getting soft and mushy.

We are sorry to say that there have been very few people attending our Sunday school and church services at the Methodist church. It is a duty of everyone of this neighborhood to attend church service at least once in awhile.

Should anyone pass along Spring Creek below the Methodist church, they might see some odd looking birds with long slender legs running along the road. Not a short time ago Leslie Wands, while watching cows discovered these birds and caught one. He took the bird home and showed it to his sister Mary. She suggested it to be a young stork. But after investigating a little it was decided that it was one of the young cranes that lives on small fish in the creek.

After A. L. Johnson thrashed 170 bushels of wheat and 70 bushels of oats. He is still compelled to pull two large stacks of oats, of 80 four-bushel loads each, out in the field on account of not having room in the barn. This is the kind of farmers we ought to have everywhere.

Mrs. Sallie Swope is adding to this life's comforts as well as to the value of her property, by building a new kitchen.

One morning last week a fine large rabbit was found lying dead by the roadside just west of town. It is said that "bunnie" lost his life during the night by being run down by some of these "blooming" hounds which hold the fort on our public highways or wherever they choose to roam. The "hound" should not be allowed his liberty from the kennel only in hunting season when accompanied by his superior. If the dogs' eminence keeps on rising as at the present rate, the day may come when he will sit in our senate, or, in the chief executive's chair at the White House. (What you think?)

Remedies are Needed

Were we perfect, which we are not, medicines would not often be needed. But since our systems have become weakened, impaired and broken down through indiscretions which have gone on from the early ages, through countless generations, remedies are needed to aid Nature in correcting our inherited and otherwise acquired weaknesses. To reach the seat of stomach weakness and consequent digestive troubles, there is nothing so good as Dr. Pierce's Golden Medical Discovery, a glyceric compound, extracted from native medicinal roots—sold for over forty years with great satisfaction to all users. For Weak Stomach, Biliousness, Liver Complaint, Pain in the Stomach after eating, Heartburn, Bad Breath, Belching of food, Chronic Diarrhea and other Intestinal Derangements, the "Discovery" is a time-proven and most efficient remedy.
