Among the members of the 148th who attended the reunion in Bellefonte last week was noticed the tall and familiar figure of William Gares, of Williamsport, at one time a well known resident of our town, and who for many years was chief of police. Those days were really more strenuous for a police officer than are the present, as there were industries in operation in Bellefonte, and times were a great deal livelier.
On Friday afternoon a slight wreck occurred on McCalmont & Co's siding near the ball grounds, by which engine No. 9 of the Bellefonte Central was derailed. Engineer Senick Walker had pushed a car of coal into the McCalmont yard, and when coming out, a broken rail just in front of the residence of Miles Shultz, caused the middle portion of his engine to jump the track and swing around almost at right angles, and came within two and a half feet of crashing into Mr. Shultz's porch. The wreck was at once removed and the track cleared up by track foreman Rishel and crew.

PECULIAR TREATMENT.
Practiced Upon a Colt Suffering With Lock Jaw.
A peculiar yet effective method of treating lock jaw in animals was practiced recently upon a colt owned by Wm. H. Laird, south of Centre Hall. The colt, a two-year-old, had been castrated, and shortly afterward the animal became sick. A veterinary treatment failed to afford it any relief, and lock jaw developed.
Mr. Laird had fully determined to kill the colt to put it out of misery, but he was prevailed upon by a neighbor who happened to come to the Laird barn to call Dr. Philip Frank, the local veterinary surgeon, and give him a chance on the colt. Mr. Laird acted on the suggestion. Dr. Frank found the colt lying in the stables, legs extended and stiff, jaws open and eyes set. As a last resort the sledge hammer treatment was decided upon, and the sledge hammer treatment is this: A plank was laid over the forehead of the colt and the head was struck a heavy blow with the hammer. There was immediate response to the treatment. The jaws were relaxed, and the muscles in the limbs relaxed. In less than an hour, the colt was on its feet after lying for several days. Signs of improvement were seen in the eyes occasionally showed all "white," but later the muscles held the orbs in their natural position.
This treatment described was followed with medicine, and now, almost a month later, the colt is all right, and no ill effect of its sickness is noticeable, and all due to Dr. Frank's radical treatment.

Belleville at the Head for Autos.
Bellefonte, with a population of four thousand, has over 100 automobiles licensed and running on its streets. This would mean about one machine to every forty. This is a fact which is mentioned by the Sun of that handsome city—Biltown. The Sun goes into data as follows:
"According to the list of licensed cars issued by the state highway department Williamsport has between 350 and 400 automobiles running on its streets. This would mean one machine to about every 100 people, an average that is exceeded in only two other cities in the United States. A compilation, prepared by an automobile publication, gives Newport, Rhode Island, the greatest number of machines for the size of the place and the number of its population. To machines for the size of the place and Pasadena, California, it awards second honors, while to Williamsport falls third. Both Newport and Pasadena being recognized pleasure resorts, with floating populations, it is rightly granted that Williamsport stands unique in its relation to the automobile world."
The Sun may now have its hat on the peg next below Bellefonte; it will be so long to have good neighbors.
LEMON.
Dr. W. H. Fry was seen in town looking up his interests politically, and we hope he will succeed.
Prof. and Mrs. Thos. C. Houtz, of Selinsgrove, are taking their yearly visit in these parts.
The rains that fell during the week were needed, but we could have gotten along without the storm, for it put down lots of apples and trees in this neighborhood.
By all appearances the chicken thieves have full sway; there seems to be no law to prevent stealing.
The artisan well has been completed and had to go down 65 feet, but struck a stream of water that flows at the rate of 10 gallons to the minute, which will supply the town for the present.
Paul A. Noll moved his household goods to Lewisburg, where he will teach the coming term.

COUNCIL'S DOINGS.
A Summary of What Transpired at Monday Night's Session.
Council on Monday night with Messrs. Harper, Judge, Sheffer, Keller, Musser, Bezer and Grim, in their accustomed chairs. Minutes of previous meeting were read and approved without alteration.
During the call for written communications, a letter from the borough auditors was read, stating that in examining the accounts of the borough they could not legally pass upon the item of extra pay and expenses for J. Thomas Mitchell, the borough solicitor. This has to do with several trips Mr. Mitchell made in the interest of the Green mill property at Milesburg—one to Philadelphia for which he was paid \$15 per day for five days as extra services, and \$100 for expenses. Another of the trips was to Harrisburg for which he was paid similar amounts. Council sanctioned the payment of the bills of Mr. Mitchell, but the auditors have taken exception thereto. The latter stated that if the amount was not refunded within five days they would employ an attorney to take up the matter. Council waived any action Monday night, and it is now up to the auditors.
Mr. Musser of the water committee, reported that W. D. Meyer, the borough engineer had verbally tendered his resignation. No reason was assigned for Mr. Meyer's action, but it is understood that he had received a position under the state highway department, which will be more to his liking.
Street committee reported "progress" in the matter of looking after the sewer in front of W. T. Twitnir's residence on Water street, of which complaint has been made several times. Street committee also reported that they had concluded to replank the Lamb street bridge, using the old plank to repair the Buffalo Run bridge and also the one over the rail track at the Phoenix pumping station.
In regard to the amended ordinance granting franchises to the new light and power company, it was reported that no communication was from Mr. Patterson had been possible, owing to his absence in Philadelphia, but that Mr. Patterson was expected here on Thursday.
The respective owners of the Andrews, Brew and Bush property payments, which notices for repair have been repeatedly sent, were ordered to be notified that this matter must be attended to at once, and the payments must be laid satisfactory to street committee and borough engineer.
The matter of a new pavement on the Benner property, at Bezer's meat market, was then taken up and discussed. It was proposed that a concrete walk could be laid on the east side, and the flag stones thus taken up be used in laying the walk on the north side of the building. It was also suggested that council should assist in getting the proper grading when the work begins. The new Brockerhoff pavement, where it joins the Benner pavement, is considerably higher than the latter, and it will require some ingenuity to give it the proper slope for safe walking.
When the time arrived for taking up the question of Mr. Meyer's resignation, council promptly accepted it, after which the names of T. C. Caldwell, Tod Rine and Clarence Tate were read as being applicants for the position of water superintendent; J. H. Wetzel also made application for same position. By motion Mr. Wetzel's name was proposed as a candidate to fill the unexpired term of Mr. Meyer's, and on calling for the yeas and nays, he was unanimously chosen. Thus Mr. Wetzel will be the new borough engineer, water superintendent, at the same salary as paid his predecessor.
Street committee reported a manhole in front of W. F. Reynolds' residence, which by reason of the top becoming dislodged when a vehicle struck its edge, might be a suitable place for causing a damage suit. It was ordered back to the committee with instructions that it be remedied.
After some argument on the paying to Contractor Taylor of money due him for paving, Mr. Keller moved that a note for \$1500 at 4 months be drawn in favor of Mr. Taylor, which upon being read, was voted favorably. There is in the neighborhood of \$2000 still due the contractor, of which amount is included the 10 per cent. held back by council until the final acceptance of the work.
After hearing the reading of current bills, council adjourned.

BUSINESS MEN'S PICNIC.
Results in a Successful Gathering at Hecla Park.
With ideal weather and a large and happy crowd in attendance, the fifteenth annual picnic of the Bellefonte and Lock Haven business men has passed into history as one of the most enjoyable events ever held at Hecla Park. Railroad accommodations were everything that could be desired for handling the immense crowd, and no accidents nor unpleasantness marred the pleasures of the day. While the attendance from the lower end of the line was not so large as in former years—Barnes possibly to the slight advance in rates—yet very few there were in Bellefonte who remained away.
Music—and good music, at that—was cause for much of the pleasures of the day; the Tyrone band has received considerable favorable comment for their excellent playing, and for those who wished to dance, the well known Germania orchestra of Lock Haven furnished the music.
The game of base ball played in the forenoon by picked nines from Bellefonte and Lock Haven was won by Bellefonte. However, the star event on the diamond occurred in the afternoon when the strong Philadelphia and Tyrone ball teams crossed bats, after parading about the picnic grounds, headed by the Tyrone band, which was preceded by G. W. A. MacDonald, of Lock Haven. The Tyrone team was victorious by a score of 5 to 3. The game was hotly contested and the exhibition was a good one.
The races and contests afforded excitement and amusement for many on the grounds, as the participants exerted themselves to the utmost to come out ahead. The winners were as follows: 100-yard dash, Malin, Bellefonte, prize, a pair of shoes; 60-yard dash, Larie, of Bellefonte; prize tennis racket; handkerchief race, Miss Daisy Barnes, Bellefonte; prize, parasol; swimming and diving contests, both won by Irvin, of Bellefonte, who secured a bathing suit and \$1 in cash.
An event that attracted much interest was the shooting contest between marksmen representing Clinton and Centre counties, for a gun, valued at \$50, as the prize. Last year the Centre county shooters won, but this year the Clinton county boys won by five points, owing to the good work of O. G. Munro and S. H. Furst. The contestants shot at 25 targets each, the scores being as follows:

RECENT DEATHS.
EBERHART.—The infant spirit of a little boy, born to Mr. and Mrs. Eberhart, of this place, passed away soon after birth last Friday, and was interred in the Union cemetery.
HOUSER.—Mr. and Mrs. William Houser, of this place, are mourning the loss of their bright, little three-month-old son, who was taken from them by death's cruel hand on Friday evening last. The funeral was held from the home of the parents on Water street on Saturday afternoon, and interment was made in the Catholic cemetery.
GARTHOFF.—On Monday morning about half past three, the death angel took hence the spirit of Mrs. Caroline Garthoff, the aged mother of mail carrier John Garthoff, with whom she had been making her home for some time past. Mrs. Garthoff was in her 83rd year, thus much of her well spent life was added to the number of kindly, motherly traits which ever fondly linger in the memory of those who knew her companionship. Surviving are the following children: John and Kate Garthoff, of Bellefonte; Joseph, of Iowa, and David, of Lock Haven; one sister, living in the west, also left to mourn. Funeral services will be held this morning, to be conducted by Rev. Barry, of the Lutheran church, of which deceased was a consistent member. Interment will be made at Zion.
WINGATE.
Mrs. E. F. Johnson and two children spent last week visiting relatives on Dix Run.
Clinton Murray, wife and children of Altoona, spent several days visiting with other towns, mentioned by the Sun of that handsome city—Biltown. The Sun goes into data as follows:
"According to the list of licensed cars issued by the state highway department Williamsport has between 350 and 400 automobiles running on its streets. This would mean one machine to about every 100 people, an average that is exceeded in only two other cities in the United States.
