On last Friday when the 9 A. M. mail train steamed eastward into town, Postmaster J. Howard Turner and all our natives were greatly disappointed and felt sorely slighted when our usual bag of letters and periodicals were not promptly handed down from the mail car. There seems to be an epidemic in the gardens in this section among the "pole beans." Women are consulting each other concerning the matter but all in vain. The beans instead of ascending the poles and bringing forth those long yellow tubes of luscious beans, seem to crouch on the ground in fear of being hit on the head with a club or some other weighty obstacle if the vines ventured upward.

Some of our farmers say their wheat and oats crops were very poor this season. Some places the corn is also poor, while other farmers never had better. ## A Checking Account

In every community there are many persons who know nothing of the safety and convenience of a checking account. They do not appreciate the fact that being a regular bank depositor entitles them to many privileges and conveniences in business which they could not enjoy otherwise. They have not found out that being a bank patron a man puts himself in position to ask and receive wise counsel in business and financial matter, from men more experienced than himself and, moreover, the bank depositor is in the way of getting much more substantial aid from the banker than mere service.
