We wondered what made our butcher, W. J. Mauck, step around so spry these days—it is because he is grandpa.

Our farmers are cutting corn, as its too wet to harrow or sow grain.

PORT MATILDA.

Our schools began last week with 98 pupils; many more are expected later.

The school directors have given out the contract of putting the water fixtures in the schoolhouse to D. G. A. Harshberger.

The putting of water in the school house is one of the best things the directors ever did, and I am sure it will be sanctioned by all who have the interest of our school children at heart. This is something that has been needed for years.

On Sunday morning Rev. W. H. Gilbert, pastor of the M. E. church, preached a very able sermon after which the following persons were admitted into full membership: Mrs. Bertha Moyer, Miss May Bigelow, Lemon Eller, Alexander Robinson, Harold Bennett, and Ira Daughenbaugh.

We feel it to be our duty to speak a word of praise of Mrs. Hannah Williams who so thoroughly cleaned our school house here. The floors were so clean that they fairly shone and the desks looked almost like new. This is work that is often sadly neglected by those who pretend to do it. We have no fault to find this time, and we feel that she deserves a sincere vote of thanks by the board of directors along with the fee for doing the work.

Fall is here. The farmers have begun to cut their corn. The corn crop is very good in this locality.

J. Walter Harshberger is making preparations to go to Amshy, Cambria county, where he will hang out his shingle with M. D. on it and proceed to practice in his chosen profession. We wish him success in his administering of pill and potions, and hope many lives may be blessed by his efforts.

Mrs. C. C. Workman returned from a visit to friends in Johnsonburg.

Our school began this week. The parents should see that their boys are in good attendance and not loafing around and playing truant.

Some people hurry through; some people worry through; wise people do neither.

ROCK FORGE.

"For the rain it rainth every day." Well! the rain is here, a copious, wet rain. "Rain, rain, go away, come again some other day." is an old nursery rhyme. That is just what it is doing these days; it goes away for a few hours and comes back next day or even the same day. It was that old Englishman, Dean Swift, who said, "I never saw a good day, it is either hot or too cold, or too wet or too dry."

A majority of people, perhaps, are too much inclined to join in with Dean Swift in his grouchy saying about the weather. The late vegetables in our gardens will be much benefited. To be sure the sowing of the wheat has been somewhat delayed on account of the wet weather.

Orle Mulbarger is cutting off corn for Ira Denner.

Martin Dale and family, of Bellefonte, visited at Wm. Emmbizer's on Sunday.

Philip Benner, of Rock View, is helping his son, John Benner, with the farm work.

About two weeks ago a large black hand bag was found in the road between Geo. Shueys and Andy Breons. It contained clothing for a small child, and a pair of gold-rimmed spectacles, nothing being of value except the spectacles. The bag was left at Andy Breons' for the owner should any call for it. John Grove, of Rock View, proved to be the owner of the lost articles.

Frank Hunsinger is known here as a large potato grower, he putting out several acres of potatoes last spring. He had to fare with the rest of the farmers and will have less than half a crop.

That mischievous Imp, Dan Cupid, has been playing his pranks and shooting his darts at a couple here most all summer; as they are the only couple that has been keeping steady company around here, he has hit them rather hard. The rain craze is to come off in the early fall; more about it later.

The road between Harry Fike's and Frank Shuey's contains a very fine quality of sand especially so right at the corner of Emanuel Roan's buckwheat. Farmers far and near come here to get their building sand. We believe it would be a good idea for Benner township to open up a sand mine here and charge a small price for the same.

Mrs. Wm. Cartright and Mrs. McCulley, of Bellwood, were visitors over Sunday at the home of Roland Bryan and wife.

Mr. and Mrs. John Burger and children visited the former's parents, Mr. and Mrs. Wm. Bitner, of Mt. Eagle, on Sunday.

WEST BRUSHVALLEY.

Heavy showers that passed through here on Saturday did considerable damage to the fields again.

Quite a number of our people attended Grangers' picnic on Sunday.

Last Wednesday evening two highwaymen held up John Moyer, the duch clock fixer, who has his home with Mrs. Mary Siegel; the men pointed two revolvers at Mr. Moyer's head and demanded money or his life. He told them to take his life for he had no money. The men then left, driving Mrs. Siegel's cows off.

There has also recently been a number of young chickens stolen from different places.

Burglars have also tried to gain entrance to different houses but were disturbed in the act.

Heavy storms have shaken the apples and many people are busy making cider.

Hickory nuts, walnuts, and chestnuts are a promising crop.

Some of our farmers are done cutting corn while others have not commenced.

Say, Harry R., we would like to know what you wanted with that go-cart you was trying to get at the Odd Fellows picnic.

JULIAN.

Wm. Resides, an aged veteran of Unionville, was in town on Friday.

Mrs. Sallie Swope left on Monday the 4th, for Renora, where she will teach the primary department at that place for the fourth time in succession.

Reuben Walizer who is employed in Ohio, arrived in town last week from the Buckeye state to visit his family.

In last week's items I stated that two threshing outfits were circulating in this community, but as both have been long in the service and were suffering from a complication of ailments, last week saw their finish (for a time at least) when they both became weak and finally succumbed. At this writing it looks as if the farmers would have to shell their seed grain with their "teeth" or pound it through a "hole in a board," as walnuts are sometimes shelled.

Mrs. Eliza Myers is having a nice new concrete "board-walk" laid from the front gate up to the front porch. A concrete walk gives a neater and much finished appearance no matter where it is. Our town is coming right to the front with concrete walks and someday hopes to stand abreast with that eastern "metropolis (?) Unionville.

On Saturday evening about 8:30 o'clock as a loaded freight train was passing through town eastward bound, a stone was hurled from the hand of some unscrupulous villain presumably at a brakeman's lantern which was up on deck, but as it was dark the brakeman saw not the coming missile which unfortunately struck him near the eye cutting a very severe and painful gash. The train was brought to a stop and came back to the station where the catastrophe occurred but no trace of the guilty one could be found.

Miss Pearl Fink, of Martha Furnace, was the guest of her friends, Miss Lizzie Hand, on Sunday.

Rev. G. Elmer Smith preached his farewell sermon at this place on last Sunday, Sept. 10th, and will leave on the 18th for Huntingdon, Pa., where the United Brethren conference will convene on the 19th. Let us hope that the Rev. will return to be with us another year as he is one of the ministers who preaches the "gospel truth" regardless of a few balking sinners.

The first carload of "cabbage heads" passed through town from the eastern cabbage plantations on Saturday at 11:30, and since then many carloads of these little green toothsome orbs have been going dally.

If our town keeps on building up and improving in the future as it has in the past, it may someday bear the title of a "borough."

The Fountain Head of Life Is The Stomach

A man who has a weak and impaired stomach and who does not properly digest his food will soon find that his blood has become weak and impoverished, and that his whole body is improperly and insufficiently nourished.

Dr. PIERCE'S GOLDEN MEDICAL DISCOVERY makes the stomach strong, promotes the flow of digestive juices, restores the lost appetite, makes assimilation perfect, invigorates the liver and purifies and enriches the blood. It is the great blood-maker, flesh-builder and restorative nerve tonic. It makes men strong in body, active in mind and cool in judgement.

This "Discovery" is a pure, glyceric extract of American medical roots, absolutely free from alcohol and all injurious, habit-forming drugs. All its ingredients are printed on its wrappers. It has no relationship with secret nostrums. Its every ingredient is endorsed by the leaders in all the schools of medicine. Don't accept a secret nostrum as a substitute for this time-proven remedy of known composition. Ask your neighbors. They must know of many cures made by it during past 40 years, right in your own neighborhood. World's Dispensary Medical Association, Dr. R. V. Pierce, Pres., Buffalo, N. Y.
