For the Proposed Penitentiary Farm

Friday evening Governor John K. Cener accompanied by John Francis, warden of the Western Penitentiary, and Col. H. F. Trexler, of Allentown, landed by automobile at the Brockernoff House for supper. After a brief visit to the Elks Home they again left in Geo. Beezer's touring car for Tyrone to catch an east bound train for Harrisburg. While here Gov. Tener was asked if they had inspected proposed penitentiary sites, when he re-"We have visited three already, and expect to look over ten Another blunt question was more. The official count of the vote cast fired at him: "Governor, are you going in Centre county at the primaries, September 30th, was officially computed in the County Commissioner's office last week. RIFLED CASH REGISTTR.

E. I. Gillen the Victim of Robbers on

Tuesday Night. Sometime during Tuesday night or Wednesday morning burglars secured following: an entrance to the rear of E. I. Gillen's grocery store on south Allegheny street, and rifled the cash register of all its contents amounting to probably twelve or fifteen dollars. Mr. Gillen, not feeling well, left the store about 6:30 Tuesday evening and did not return after supper. Wednesday morn ing when he opened up for business he found that someone had entered the store the night before through a rear window, and emptied the cash register. The thieves in order to get to the rear of the store undoubtedly were compelled to cross the lot at the sear of Mr. Brandman's residence, but they did it safely and without being seen. They first tried to pry the glass from the rear door, but falling in this they next tackled the window, and opening the shutters they pried the down. The window is hung on sash ropes, and was an easy task to lower once the shutters were open. An article used in removing the tops of beer bottles was found ly ing on the window ledge, which had probably been used in prying the window down. Once inside the burglars evidently went direct to the cash register and emptied it of its contents as nothing else was disturbed. No attempt was made by the thieves to take anything but the money from the cash drawer, which is possible all they were after.

Thus far no clue has been secured of the perpetrators of the crime.

A Few Plain Facts.

Last week our Republican county papers went into spasms in their undue haste to defend the present Board of County Commissioners in rebuilding the Court House. Keen scented they are! They have detected the impending storm from afar, that promises to sweep the old board out of existence into the light-fingered profession, who are that solitude of private life where they will have ample opportunity to reflect so well trained in the "lifting" game over their shortcomings. They made their re-nominations with about a thous- that it has really become a lesser task and republican taxpayers protesting—and they escaped defeat only by the than taking a stick of peppermint "skin of their teeth." Had the public not regarded the candidacy of Decker and Miller as the plottings of selfish individuals, Woodring and Zimmerman have discovered this fact during the would have been summarily retired.

As The Centre Democrat believes that the rebuilding of the Court House Not that the victims in each instance will be an important issue in the campaign, it is proper then that the voters were incapable of handling such valof Centre county should grasp the situation in an orderly manner. For that uable assets as money, or that they reason The Centre Democrat will plainly set forth a few undisputable facts in such a manner that will enable taxpayers to understand the situation.

In the spring of 1909 there was considerable comment favoring the improvement of the Court House. Frequent communications were sent to the pain various papers in the county pointing out what should be done, and how the expense could be financed. On June 10, 1909, such an article was supplied by Republican officials and published by the other papers At that time we were assured that complete specifications, etc., had been prepared by "Newman & Harris, architects of Philadelphia," covering every improvement. At that time, the article furnished us for publication, contained this positive assurance:

"These changes, alterations and additions, COMPLETE, WILL COST ABOUT SIXTY THOUSAND DOLLARS."

In order to secure money to rebuild the Court House, under the prorisions of an act of 1874, the County Commissioners had to file in the Prothonotary's office a statement showing the financial condition of the county at that time. Now we propose to deal with facts, undisputable facts, and for that reason will quote from that official statement as follows

FACT NO. 1:- "The present actual indebtedness of the county (July 1909) is \$54,350. To offset this there is over \$29,000 due the county in taxes and tax liens."

Which would make the net debt about \$25,000 at that time. From the same statement we quote again

FACT NO. 2:- "The expense for additions and improvements to the Court House is estimated at \$60,000."

From the same statement we again quote for:

FACT NO. 3:- "The amount of debt to be incurred by funding present indebtedness, and for alterations, additions, and improvements to the county buildings is \$100,000."

There are the representations made with cool deliberation and careful to keep his weather eye on the pair, alculation to the public. They took the public into their confidence and then but in an unguarded moment they began the rebuilding of the Centre County Court House. First they made the slipped from his sight and evidently amous loan of \$100,000 at 4 per cent, payable in 30 years, J. Thomas Mitchell, left town. Esq., appeared to be the high-cocadoodledo, who went to the city to secure this money at 4 per cent. for thirty long years, while thousands of dollars were lying idle about Centre county, and Centre County taxpayers were eager for such a safe and desirable investment. Knowing the hostile sentiment against this strange deal the X-postmaster swept (?) all opposition away last week when on the editorial page he declared: "Instead of a financial blunder as it has been broadly advertised, it must be accepted as one of the shrewdest and most economical deals ever accomplished by any Board of County Commissioners in this or any other state." Of course what this X-postmaster says does not always agree with facts, therefore some will smile at such gush, and think as they please.

Of course they easily secured \$100,000 on such excellent terms with the Of course they easily secured \$100,000 on such excellent terms with the was painfully injured Monday short-credit of all Centre county back of it. FACT NO. 4:- "Commissioners statement of entire cost of repairs to Court House" to that date: - "\$122,052.56."

This is over twice the amount they officially assured the public they would spend; and since then they have made numerous substantial improvements: and we doubt if all is even included in the above \$122,052. This is over \$60,000 more than the original price and leaves us to believe that Centre county now has not only a bonded debt of \$100,000 payable in 30 long years, but also about Bitner was badly lacerated about the \$50,000 of a floating debt in addition-of which the public now hears nothing. How this bond debt is to be paid was repeatedly told in print; we give it

FACT NO. 5:- "The new and remodeled court-house therefore will cost the county sixty-two hundred dollars per year for thirty years, four thousand dollars for the annual interest and twenty-two hundred dollars for the annual sinking fund payments."

Anyone who will multiply \$6,200 by 30 years will readily see that the tax- driven to his home by his brother, payers in that time, in cold cash, will have to pay for the repaired Court House | Nathan J. Bitner, who went to his 30 times \$6,200 or \$186,000, on this \$100,000 loan; and then just how they will brother upon hearing of the accident. meet the floating debt of about \$50,000, remains for the next Board of County Commissioners. With an election staring them in the face they have the nerve to tell the intelligent people of Centre county that by the fortunate and shrewd To Exonerate Real Estate From Taxmanner in which Tommy Mitchell, Esq., floated the loan the \$122,000 spent on the Court House won't cost them anything-a sort of a presto-change performance in high finance, you know. As our concludig fact, we quote from that Souvenir book how to spend over \$122,000 and not feel it:

FACT NO. 6:- "This annual payment (\$6,200) is less than 5 per cent. of the annual income of the county, and will not affect the tax rate in any way during the life of the bonds."

That, in itself, is the biggest gold brick ever handed our taxpayers. Anyone who thinks that \$186,000 can be paid in 30 years without increasing the tions' property, etc., from taxation, but tax rate in Centre county is welcome to his delusion. But then no thought is provides against exonerating taxable given for the \$50,000 extra floating debt. Possibly we can also send that to the property. city too, and by the same presto-change process of Tommy Mitchell, it may not "affect the tax rate in any way during the life of the bonds." In other words, if you want to go into debt, float bonds for thirty years, and you will never mind it. Sounds nice, don't it!

INDEPENDENT PARTY ENTERS THE FIELD

REUBEN COMLEY INDEPENDENT CANDIDATE FOR TREASURER.

HE IS OPPOSED TO PRITCHARD

Has a Petition Prepared With Sever-Hundred Signers-Protests Against Republican Headquarters Dictating Nominations

As a rule Centre County people have a large amount of local pride, yet experiences of Perry Cole and was evidenced at the Republican candidates for County Treasurer on the Republican ticket and everyone knows that three were sure to be disappointed, and only one could be chosen. That is sure as fate, and is the experience of all that there are not enough good places to go around. The point we want to make is the lack of local pride shown in the vote for Treasurer, Robt. Musser, a life long farmer and resident of Gregg township was practically ignored by his party. But then we come to Reuben Comly, of Union township, and John Dale, of College township. Both these men were competent, both come from old families in Centre County that for almost a century have been heavy local taxpayers and help-ed to upbuild and maintain our public institutions. Both come from rockribbed families that for many generations have upheld Republican principles and helped to elect local, state and national Republican tickets. They have represented the interests of Centre county and the Republican party for many generations past.

Strange to relate, when they came before their party for a deserved recognition, as in former days, the Dales and Comleys were pushed aside and the nomination for the best office in Centre County was awarded to a stranger, Joe Pritchard, who moved to Philipsburg but a year or two ago from another portion of the state, and in a recent election openly opposed the regular nominees of the Republican party. That is part of the record of Mr. Pritchard, a stranger, and at times a doubtful Republican. Joseph Bitner Thrown From Wagon

Why he was nominated over Mr. Dale, or Mr. Comly, we do not under-stand. Some say headquarters, in Temple Court, issued the orders. We don't have the proof—others insist that was the deal.

An Independent Candidate. This week Reuben Comly, of Fleming, was in town with a petition containing almost two hundred names of voters, principally in the Bald Eagle valley, for the purpose of authorizis thoroughly dissatisfied with the deal he got at the primaries and asserts openly that County Chairman Quigley and his organization throughout Centre county opposed him in favor of Philipsburg, whom he declares has not lived in this county long enough to justly ask his party

for its best office. Mr. Comly has filed a petition in the Prothonotary's office to pre-empt the name of the "Independent Party" under which he will make his fight. Mr. Comly is a man of his own mind and when he takes a stand it usually is the result of due deliberation. Bellefonte numerous Republicans ap-proached him in an effort to have him reconsider being an independent can-

didate, but it was of no avail. The writer has not spoken or had any communication with Mr. Comly for more than a year. On Wednesday noon someone stopped at our office and requested that we publish several items, and that more would be supplied later. From the description the office boy gave, we are inclined to be-lieve that Mr. Comly, or some friend, left them. . Here they are:

"Fink and Hurley can't keep Comly down; he will bob up. "The G. O. P. played a nice game
