### PLEASANT GAP.

**Third Annual Speciality.**—Thanksgiving comes only once a year, and we should make the best of it when it does come. We should see to it that the old American ideas and ideals should forever dominate in this, our glorious country; every Thanksgiving should remind us that our natural life can be kept clean and pure so long, only, as we exhibit individually and collectively the same example of fortitude, patience, heroism and godliness as was shown by those who participated in the first Thanksgiving in 1621. Now in order to commemorate this long cherished idea the ladies of the Lutheran congregation, of Pleasant Gap, cordially invite their Third Annual Speciality at Noll's Hall, on Thanksgiving day. The projectors are noted for giving value received on their famous entertainments. The following program has been adopted: The opening, Wednesday evening, Nov. 29, oyster supper, Thursday, Thanksgiving noon, a full chicken dinner, Thursday evening a chicken and waffle supper. For these full meals only 15 cents each will be charged. In addition ice cream and cake will be served during the entire session. Home made candies, fruits and an immense line of fancy goods will be on sale. The proceeds to be applied to our building fund, since our church must, from necessity, be either remodeled or re-built forthwith. As our congregation is limited in numbers, we take this method of appealing to the good people to aid us in this laudable enterprise. A pleasant and agreeable time is assured. Come.

### REBERSBURG.

Orvis and Lloyd of Eilsburg, and Victor, of Louisville, Kentucky, are here helping to take care of their father, Thomas Walker. Those who attended the county institute at Bellefonte last week, from this place, are Celia Brinsard, Fairy Stover, Miriam Auman, H. G. Hubler, S. A. Bierly, J. N. Moyer, D. P. Stapleton and T. A. Auman. They report it very interesting and instructive. Another pretty wedding was solemnized on Saturday evening at 11 o'clock at the home of James Harbaugh, when Miss Sabina Douthy and Myles W. Breen, of Smulton, were united in marriage by Rev. B. F. Blingman of the United Evangelical church. We wish them a long and happy married life. Melvin Bright, son of John Bright, while out at play had the misfortune of breaking his collar bone. Ethel Harter and Jessie Waite spent a few days at Spring Mills last week. Mrs. Ella Diehl has moved her family to our town to stay this winter. They moved into the west side of Howard Miller's house. Prof. Stapleton is again seen on our streets as the schools have all opened on Monday morning and the little prattlers are again on their way. Annie Albright, who is working at Bellefonte, is visiting her parents here.

### BOALSBURG.

Theodore Boal entertained the members of the commission for the site of the proposed penitentiary, at his home last Friday. A union Thanksgiving service will be held in the Reformed church, Thanksgiving evening. Mrs. Anna Noll and two sons, of New Jersey, were guests at the home of her sister, Mrs. William Stover, the past week. Mrs. Grant Charles and little son Eugene are visiting at grandpa Stover's, at McBride's Gap, this week. Miss Isabelle Miller and sister, Ruth, spent several days at State College, with their sister, Mrs. Lynn Woomer. Miss Jessie Gillman and sister Fronia, of Millheim, were visiting with relatives here the past week. The ladies of the Reformed church will hold a poverty social in the town hall Saturday evening, Dec. 2nd. Everybody is cordially invited. A silver offering will be lifted at the door.

### WEST BRUSHVALLEY.

Rev. Bingham closed his protracted meeting in the Yearick's United Evangelical church on Sunday evening. Rev. Snook discontinued his protracted meeting in the Swamp church for a week or so. The shingle mill in Nebraska Gap is running in full blast. Annie says, there is no place like home. Last week one of our young couples went to Rebersburg and were quietly united in marriage. It is rumored that there will be two more marriages before long. The scribe thinks single life is best. Some of our young men were out for deer; when they came home they stated that they would rather hunt for the home deer (deer). **BIG RUN.**—Howard Twp. Messrs. Floyd and Ellery Miller departed on Monday for Hayes Run where they are employed. Harvey Walker killed a young beef on Saturday. There was no school last week on account of the teacher attending institute. Frank Batschlet is all smiles since Miss Mary Doyle has come back from institute. Jessie McCloskey butchered four big porkers last Tuesday. **WINGATE.** Mr. Parrish and wife of Conamah, spent last week with the latter's sister, Mrs. Jane Estrict. Will Wagner and friend Chas. Sheper, both of Greensburg, are visiting relatives here. Mrs. Laura Oaks spent Friday with her aunt, Mrs. Eli Stier. Chester Hoover, from Altoona, spent Sunday with his grandfather, Ezra Fisher. **Johnstown Veteran slain.** Abe Schley, a Civil War veteran, was shot and killed in a fifth avenue hotel in the section known as Cambria City. Louis Wagner, a politician, was overpowered and taken to the police station in connection with the tragedy, after holding four policemen at bay for a time in the hotel.

### Oleomargarine Licenses.

Almost 900 oleomargarine licenses have been issued by the Dairy and Food Division to date. Of this number 800 were for retail concerns, an increase of over 100 per cent. The number shows the increase in demand in the last few years owing to the high price of butter.

## SENATOR BANKHEAD IS LIVING UP TO HIS PLEDGES.

Good Roads Advocate of Alabama Has Bill For Better Highways.

Senator John H. Bankhead of Alabama, one of the leading good roads advocates of the nation, fought his way into the United States senate on a platform pledging him to work for good roads and river and harbor improvement, and he is standing true to all of his pre-election pledges. Recently he introduced in the senate of the United States the following bill: "To provide for an experiment in the improvement of certain highways by the secretary of agriculture, in co-operation with the postmaster general, and for other purposes."

### REBBERBURG.

"Be it enacted by the senate and house of representatives of the United States of America in congress assembled that there is hereby appropriated out of the treasury the sum of \$500,000, not otherwise appropriated, to be expended by the secretary of agriculture, in co-operation with the postmaster general, in improving the condition of the roads over which rural delivery is or may hereafter be established, to be selected by them for the purpose of ascertaining the possible increase in the territory which could be served by one carrier and the possible increase of the number of delivery days each year, the amount required for proper maintenance in excess of local expenditure for rural delivery routes and the relative saving to the government in the maintenance of rural delivery routes by reason of such improvements and also the relative saving in the cost of the transportation of agricultural and other products from the farms or other points of production to the usual market place by reason of such improvements, provided that the state or county or counties which may be selected for improvement or rural delivery routes therein under this provision shall furnish an equal amount of money for the improvement of the rural route or routes so selected."

### GOOD ROADS.

Good roads contribute to the glory of the country, give employment to idlers, awaken dormant necessities of life, the products of the fields, the forests and factories, encourage energy and make mankind better, greater and grander.

### ROAD BUILDING IN OHIO.

"Boosters" Successful in Getting Legislature to Pass Bills. The Ohio Good Roads federation has won part of the fight which it started in January, when it proposed the following legislative plans: First.—The reorganization of the highway department and creation of the bureau of construction, maintenance and repair of bridges. Second.—State supervision of all roads constructed in whole or in part by state aid money. Third.—The perpetual maintenance of state aid roads by the highway department. Fourth.—The inauguration of the inter-county system of roads connecting important commercial centers in the state and making all necessary surveys and estimates for the same. Fifth.—A levy of one-half mill on the taxable property of the state to create a fund available in 1913 to construct the inter-county system.

All of the above, with the exception of the latter, are provided for in senate bill 105 by Senator McGuire, which is now a law. The road enthusiasts will now go forth with renewed energy in a state wide campaign for the proper construction and maintenance of roads, for the economical expenditure of all moneys appropriated for road purposes, and will present to the constitutional convention which will assemble next January a plan to raise money necessary to complete the inter-county system, which plan will equitably distribute the cost of the same on all the taxpayers of the state. **Cart System For County Pikes.** The cart system of taking care of the roads in Knox county, Tenn., will first be tried upon the Tazewell and Jackson pikes, according to the action of the Knox county road commission at a recent meeting. If it works successfully it will be placed on other pikes.

## MOUNTAINS FILLED WITH HUNTING CAMPS

AN ARMY OF ARMED MEN AFTER THE FLEETFOOTED DEER.

### LIST OF THE HUNTING PARTIES

It is a wonder that any deer are left—Many Come Here From a Distance—Season Closes December 1st—Fined \$100 For Shooting Does.

The season for deer hunting opened in this state on the 15th of November and continues to the 1st of December. While the season is short, the result is that all the hunters in Centre county, and hundreds of others, and some from adjoining states come to this section to hunt in the mountains of Central Pennsylvania. For days prior to the season many hunters came by train and these usually joined with local hunting parties as scouts, and wended their way through the mountains to some favorite hunting camp. The consequence is that the mountains of Centre county are now literally swarming with an armed body of men. Hunting camps are so thick that they are within signaling distance of each other and the space for each to work over is rather limited, in consequence of the great number who are now in the woods.

For this reason the deer have a hard time in it to escape the search. On account of the law that prevents the killing of a doe, and that only bucks with visible horns dare be legally taken in this way, the hunter has to be extremely careful when he shoots at a deer, and this in a large measure is a safeguard to the many hunters in the woods as it makes men more careful in shooting than formerly. The fine for killing a doe is \$100 and the woods have a lot of gamekeepers in them who are on the lookout for violations. Up to this time we have not heard of any deer being illegally killed, but in Clinton county two parties were arrested and they paid the fine of \$100 immediately, so as to avoid further costs and the dead deer were sent to the hospital for the use of the patients.

We herewith give a list of all the hunting parties in this section as near as we could compile from numerous sources. Some of the parties may have broken camp by this time, but the most of them go to the woods and pitch camp with the intention of staying to the end of the season, unless they should succeed in killing the limit—one deer a season for a hunter, something that is rarely done:

### PENNS VALLEY.

A party consisting of James Hafer, David Hafer, William Hafer and five Sunbury hunters are camping at Paddy mountain.

Two Woodward parties occupy their camp at the Winkiblech fields, and Round Top.

From Sugar and Brush valleys come reports of several large camps. One from Berks county is encamped near Stover's hotel in Brush valley. The Bierly party from Sugar valley are in camp near Swenk's gap on the White Deer mountains. The Kreamer, Estline and Mark party will try their luck at Tunis gap.

### PRESIDENTIAL ELECTION NEXT.

Primarys in April Instead of September.

With the county and municipal elections for 1911, over the party managers are getting busy in preparation for the state and national elections of 1912. Under the new law there will be no city or county officials balloted for next year, but there will be a plenty of them in the political line just the same. Pennsylvania will elect a state treasurer and probably an auditor general, four congressmen—at-large, thirty-two district congressmen, thirty-eight presidential electors, twenty-five senators and 207 members of the house of representatives next year.

The primaries will be held in April instead of September, owing to the fact that delegates to the state and national conventions must be chosen early. The election of state treasurer comes under the decision of the supreme court in the case in 1910, when it was held that Charles Frederick Wright, appointed state treasurer to fill the term for which J. A. Stober was elected, but did not enter upon because of his death, should serve out the term.

### DANGERS IN DUST.

Every month twenty-five tons of iron, it is estimated, are ground to dust in the New York Subway. Think, therefore, of the dust which the factories, railroads and trolley cars must be constantly causing. Then there are many other kinds, smoke dust, street dust, coal dust, cement dust, granite dust, etc.

You see it dancing about in every sunbeam that enters your room. Beat a pillow or a carpet and the dust rises in clouds. The dust that is in the air is continually settling upon the floor and on every surface that offers. In this dust disease germs are often carried. Therefore be careful not to expose food for any length of time to the air. Do not allow milk, meat or vegetables to stand long uncovered. Don't set the table after breakfast and allow the glasses and china to remain there until dinner time. You will only be introducing dust and germs into your system with your food. Precautions like these may seem trivial but they are important to good health. If a rabbit is a hare, is a catacomb? If truth is sometimes stranger than fiction is a license?

**The Famous Rayo Lamp**

The best part of the day is the evening, when the whole family is gathered together around the lamp. The old days of the smoky fireplace and flickering candle are gone forever. In their place have come the convenient oil stove and the indispensable Rayo Lamp.

There are to-day, in the United States alone, more than 3,000,000 of these Rayo lamps, giving their clear, white light to more than 3,000,000 homes. Other lamps cost more, but you cannot get a better light than the low-priced Rayo gives. It has become so popular we may almost call it "the official lamp of the American family."

The Rayo is made of solid brass, with handsome nickel finish—an ornament anywhere.

Ask your dealer for a Rayo lamp; or write for descriptive circular to any agency of
