CONDITIONS MAKE SOCIALISTS

And Breeds Anarchists-Unequal Conditions Are Contracted-A Few General Observations-Much in a Name -Food for Thought.

While 30,000 men, women and children mill workers at Lawrence, Mass., were out of work because of a strike to prevent a cut in their \$6. \$7 and \$8 week wages, Mrs. Evertyn Walsh McLean, mother of the baby that is heir to \$100,000,000, gave a \$35,000 dinner to 50 guests at Washington, the nation's capitol.

The hostess at this banquet wore diamonds that actually cost more than half a million dollars. In her hair was displayed the "famous" Hope diamond, which cost \$180,000, and at her be just the thing the hens need and the dog down with throat another widely celebrated gem. crave. Star of the East," which was even larger than the Hope diamond.

The cost per plate at the McLean dinner was \$700. One item to the expoils for want of salt, and pense was 4,000 yellow lilies imported beef because the brine needs scalding. from abroad at a cost of \$2 each.

One of the highest paid mill workers at Lawrence would have to work 84 years to receive the cost of that banquet. The earnings of a dozen Lawrence workers for half a century would not have purchased the gems worn by Mrs. McLean. A Lawrence worker would have to labor 20 years to pay for the yellow lilles alone.

The strike of the men, women and children at Lawrence, and the \$700 a plate dinner in Washington, is a striking example of conditions existing under a system of excessive protection in the year of our Lord 1912. Neither the Lawrence strike nor the \$35.000 McLean dinner are exceptions. They are but samples of many similar illustrations which could be cited space permitted. Only recently, M. Wood, the head of the woolen trust, whose employes are now on strike at Lawrence, was arrested for knocking down and running over a pedestrian with his automobile. When arraigned in court he was asked how many automobiles he owned, and he replied he didn't know. Imagine a man so rich he doesn't know how many autos he has on hand.

Fortunes which make it possible for one woman to wear a haif a million dollars' worth of diamonds at one time, and which enable a man to possess so many automobiles he cannot keep track of them, necessarily come in a certain county paper that "There the case. This is also the first case through the power to place a price on are so very few sales this year." "Yes, on record in this region where a deer must have in order to live.

It is significant, in this connection, that the tariff. the cost of Hving, \$700 a plate dinners-everything but the mind, Mr. Editor.' workingman's wages-have increased hand in hand, revealing the intimate relationship of one to the other.

"The Story of the Extra Session." Congressman Ebenezer J. Hill, standpat protectionist of Connecticut, made a speech in the House recently which he considered a gem. He extolled the Paynes-Aldrich law to the skies, proclaiming in a loud voice it thing to do with high prices. Mr. Hill thought so well of his speech "The Story of the Extra Session," and sent it broadcast among his constituents, asking them to read it and to comment upon it. Some of the comments, however, were not what Mr. Hill expected. The following comment sent in from a resident of Stratford, Conn., for instance, must have been a severe jolt

to Mr. Hill's standpat nerves:
"My wife and I came to New York
by steamer, having with us seven yards of serge cloth, which was to be made into a dress for my wife. This cloth cost in London \$11.90, and was declared dutiable by the customs of-ficers. On those seven yards of cloth I was obliged to pay a double dutya duty on the weight and a duty on the value—44 cents a pound and 55 per cent. ad valorem. These duties amounted to \$9.24, making the cost of the \$11.90 article, \$21.14. "A tax like this is unjust and ex-

cessive, and cannot be defended. If this is a sample of the provisions of the present tariff law I am not surprised at the universal dissatisfaction that prevails with regard to it, and I hope the Democrats will succeed in changing this law with some regard for the interest of the consumers."

Profits of Beef Trust. The beef trust packers declare that during the years 1907, 1908, 1909 and 1910 their net profits from fresh meat were only one-eighth of one cent a

In 1907 the retail price of fresh meat was from 11.8 to 13.3 per cent, high-er than in 1900, while the price of cattle declined in that period from to the various chairmen of political \$92.46 to \$81.53. And while dressed organizations in the county, and also in 1910 than in 1909, the prices of date for the State Legislature before beeves was lower, declining from \$9 the primary elections are held.

Any self-respecting cow, says the New York World, has the right to wonder who got the extra difference between her price on the hoof and her price dress

Tariff is a Tax.

The word "tax" should be substituted for the word "tariff." The people would then understand the question better. Fewer people would then accept the property of the people would then accept the property of the property o cept the protectionist theory that the way for them to increase their pros-perity would be to increase the tax on everything they eat, wear or use. To use the word "tax" instead of "tariff" would be to make protection apiff" would be to make protection appear ridiculous to the wage earner. Instead of saying the "tariff on wool," it would be better to say "the wool tax," or "the sugar tax," or "the implement tax," "the sewing machine tax," etc. The word tariff is a deceiver. But the people know what tax is. They know they pay it themselves. The word tariff has a certain ring to it that sounds like it was paid by some third party.

Can't Worship in \$40 Hat. "No woman can worship God under a \$40 hat," declared Rev. Dr. W. A. Munhall, an evangelist, to a congregation which packed Simpson Methodist church to the doors at Altoona. "No congregation can worship well in a church costing more than \$50,000, and any money spent in church prop-erty in excess of that amount should be devoted to other work," he added.

Birthday Anniversary.

A delightful birthday party was held on Friday evening at the home of H. A. Sampsel at Axemann, in honor of their daughter, Miss Martha. The young lady had gone to spend the afternoon at the home of Thompson Cross', and upon arriving home in the evening was surprised to find a number of her friends gathered in her home. After greetings were over and Miss Martha had recovered her breath, the fun of the evening began, with games and music; and not the least of the pleasures were the elegant refreshments served. The fes-tivities lasted until an early hour in the morning, when all departed with a feeling of having had a delightful

Therefore, when the snowfall is deep and you know that the rabbits, will soon be at work at the trees, is a good time to treat the trees by spraying or washing them with a

strong solution of limesulfur. "This is the best treatment for the trees now, and will keep the rabbits from injuring them. I have also applied a painting of pure white lead and raw linseed oil with a brush, made thick like house paint. I have found it effective in protecting the trees from rabbits, mice and borers, and where the trees are thrifty or vigorous, it dos not injure them.

"Some persons wash their trees with blood, and others kill a rabbit and cut it open, and rub the trees with This is effective for some time, but not permanent. As cheap and good protection as you can give, and, on the whole, the most beneficial to the trees, is just to have a knapsack sprayer or hand sprayer, especially a small compressed air sprayer, to be carried on the shoulde, and make up a strong lime-sulful solution, the same as for San Jose scale, trees as a spray, ust after each snowfall, or occasionally during the winter time.
