### EDITORIAL.

The announcement of I. J. Dreese. of Lemont, appears in this issue as a candidate for Delegate to the Democratic State Convention. For many years past Mr. Dreese has been an ardent and active party worker, and very few men in this county have done as ter this transaction and Mrs. Mendle effective work on election days for Democratic tickets. Last fall county chairman A. B. Kimport selected Mr. Dreese and her witnesses were promised the as his assistant, and was put in charge of headquarters. The result of their leadership certainly has not been forgotten by the Democracy of Centre county, and hardly will be forgotten.

"The Centre Democrat" has no personal grievance with any Democrat or combination of politicians who may choose to uphold Guffey and Halls' method of directing the affairs of the party. Any man who advocates and upholds Guffeyism in the Democratic party does so from his own choice. As long as Democracy means the rule of the people, and not by political bosses, we can not and will not uphold Guffeyism. We be-Heve he and his boodle have been a detriment to party success all these years, and with that conviction in us will urge every loyal Democrat to stand for a new order of things. In this contest ev- the disposition of the Kauffman case. ery Democrat must act as his best judgment dictates. Don't let politicians, with axes to grind, pull the wool over your eyes.

Saturday evening Congressman Chas. E. Patton, of Curwensville, arrived in Bellefonte and was registered at the as the hotel was thronged during the evening with prominent citizens and said: those who are active in the Republican party ranks in this section. # FREE SUGAR AND INCOMETAX.

In the lower house of congress, on Friday last, a bill was submitted putting sugar on the free list, and also a bill putting an income tax on all incomes of business houses above five thousand dollars. The Democratic caucus ratified the sugar bill and the income tax or excise bill presented by Democratic Leader Underwood, with the indorsement of the ways and means committee Both bills will now be presented to the

It was proposed that the present corporation tax be extended to include "Individuals and co-partnerships doing a business of \$5000 a year or over." The bill removing the taxes levied

at the customs houses on sugar, imported into this country, will have the effect of reducing the price of sugar to the consumer about 11/2 cents a pound." The bill does not in any way alter, amend or repeal the corporation tax law as it now stands on the statute books, but provides that every person, firm or copartnership shall be subject to pay annually a special excise tax with respect to carrying on or doing business by such persons, equivalent to one per centum on the entire net income over and above \$5000 received by such per-

son from all sources during each year. If these bills become laws they will have repealed a burden of taxation now sons at an income of more than \$5000.

"No Back Steps Now." "On April 13 next, the matter of the reorganization of the Pennsylvania De-mocracy will be put up to the people. There is no doubt of the outcome then. It is plainly evident what the Demo crats of the State, as well as many of the independent leaning expect that the purification of politics shall be complete. compromise with the very ones who have brought the party into its recent state of utter incapacity and partial contempt would cast a doubt on the use of It all and most likely defeat the pur-poses to be gained. Too much has been accomplished to take back steps now.'

-From Centre Hall Reporter.

Better Late Than Never. There is a sure prospect of the law being changed from the six inch trout as a minimum, and allow the angler to keep all sizes up to forty, per day. The little trout wounded by the hook and thrown back, in most instances dies and each would count one in the forty catch. Fishermen of experience discovered this years ago, and pronounced against the "throwing back" law, but the fish hatchery gentry thought they knew best until of late, when they got their eyes open This confirms what the Centre Democrat asserted years ago, and now the fishery authorities at last admit they were mistaken. Better late than never.

A Fine Showing. Possibly Milton is the only town in the United States where girls are outnumbered by boys in the public school. It is known it is the only town in that part of the state where this situation prevails. The fact is disclosed by Superintendent Wilson who declares that it is not paralleled in his experience Usually the girls are largely in the majority. This is true in every grade in Milton except the grammar grade, where the girls have the majority by a narrow margin.
