Thomas Jefferson was: "Short terms and rotation in office." The Federal view was the contrary: "Long tenure and few changes." The tenures of judges are now so long that when they decide crookedly on constitutional questions for their friends and corporate interests which they are put there to conserve, the only way to reach them is by impeachment and that is rendered impossible because the legislature, being of the "same kidney"
by virtue of corporate cash, would
never do it. The constitution should be amended to reduce all salaries, and terms to provide against reselections, and to create a plain mode of recalling unworthy public servants, reereant to their trusts, and judges who turn out venal and grossly partial, especially on constitutional questions, Some of our folks have come to a

ALL DRUGGISTS

Women's Secrets

There is one man in the United States who has perhaps heard more women's secrets than any other man or woman in the country. These secrets are not secrets of guilt or shame, but the secrets of suffering, and they have been confided to Dr. R. V. Pierce in the hope and expectation of advice and help. That few of these women have been disappointed in their expectations is proved by the fact that ninety-eight per cent. of all women treated by Dr. Pierce have been absolutely and altogether cured. Such a record would be remarkable if the cases treated were numbered by hundreds only. But when that record applies to the treatment of more than half-a- million women, in a practice of over 40 years, it is phenomenal, and entitles Dr. Pierce to the gratitude accorded him by women, as the

specialists in the treatment of women's diseases. Every sick woman may consult Dr. Pierce by letter, absolutely without charge. All replies are mailed, sealed in perfectly plain envelopes, without any printing or advertising whatever, upon them. Write without fear as with-
