Our farmers are turning down the sod preparatory to putting out their summer crops.

The Italians' rolling palace car consisting of 15 men is stationed on the sidetrack here. The men are working on this end of Mr. Patrick McDonald's division, which ends just below town.

It is anticipated that our popular and obliging station agent, Geo. W. Bullock, will do nothing but sit on his front porch when the weather warms up sufficiently. Did you say why? Because Martin Harbridge erected bran new banisters around it last week, which adds greatly to its appearance.

Herbert Finch arrived in town last week with his mudslinging tools and finished plastering Mrs. Swope's kitchen, built last fall.

The wheat fields, which may be observed from the writer's window, are looking fine. If all the wheat fields look as promising the farmers should feel very much encouraged.

Guy Hosband, one of Julian's rising young men, is at present learning to be a telegraph operator with our third trick operator at the R. N. tower just west of town.

How grateful we, the people of Julian, may be that our purses did not bulge with the wealth of this world. Had such been the case who knows but what some of us might have gone down amid the fathoms of icy water when the Titanic loaded with precious souls, bid adieu to this world and started for that everlasting unseen, at the dead and most solemn hour of the night, far out upon the cruel sea.

Sweep, sweep; scrub, scrub; wipe, wash, rub and scratch. That awful housecleaning epidemic has struck our town again.

O, that grass in Wilbur's lawn, how green it is.

Of course I know it isn't any of my biz; But how he works to keep it all "Just so."

And oh, how these spring showers make it grow.—V. C. H.

A young man from Martha comes to Julian quite often; must be some attraction; how about it George?

Some of our young people can't take a joke, but if it was on anyone else it would please them. If I couldn't take a joke I wouldn't give one.

Julian might be proud of its handsome rural mail carrier.

We got some more rain on Monday that will put the farmers back with their plowing.

Charles Lytel purchased a new buggy. It is "a beauty."

We had a new scribe last week to help the old one along.

A certain young lady of our town, accompanied by her grandpa, went out fishing one day the past week and when they arrived at the creek she discovered she had forgot her fishing rod and line. A pleasant home gathering; Arthur Fisher, of St. Louis; Charley Fisher and Mr. and Mrs. Nelson Robb, of State College, were home guests at Dr. Fisher's on Sunday. This was the first time for several years that the Dr. had the pleasure of having his children all at home at one time and the occasion was very much enjoyed by all. The Mill Hill milk condensary truck swamped in the mud at the Fishing Creek school house on Saturday and was tied up for several hours. A wrecking crew was sent up by the condensary firm and after considerable hard work landed the truck on solid ground. So much for the present system of good roads and the spring townships application thereof.

The tramp nuisance showed up in good style on Friday when eight of them gathered at the Zion station expecting to harbour there for the night. Quite a few people became uneasy, as they were very uncommunicative and a surly looking set of men. The management of the R. R. were notified by phone and requested to rid the place of them which they did. When the seven down train stopped the R. R. men gave them notice to be gone. They seemed somewhat reluctant, but finally took their budgets and skipped out, much to the relief of everybody. The station house has been a harbour for that class of fellows for a number of years, and women are hardly safe to go or come on the late trains unless accompanied by some one. The R. R. Co. should not allow their flag stations to be used by hobos, thus making the place detrimental for the use of the traveling public.

WELCOME WORDS TO WOMEN

Women who suffer with disorders peculiar to their sex should write to Dr. Pierce and receive free the advice of a physician of over 40 years' experience—a skilled and successful specialist in the diseases of women. Every letter of this sort has the most careful consideration and is regarded as sacredly confidential. Many sensitively modest women write fully to Dr. Pierce what they would shrink from telling to their local physician. The local physician is pretty sure to say that he cannot do anything without "an examination." Dr. Pierce holds that these distasteful examinations are generally needless, and that no woman, except in rare cases, should submit to them.

Dr. Pierce's treatment will cure you right in the privacy of your own home. His "Favorite Prescription" has cured hundreds of thousands, some of them the worst of cases.

It is the only medicine of its kind that is the product of a regularly graduated physician. The only one good enough that its makers dare to print its every ingredient on its outside wrapper. There's no secrecy. It will bear examination. No alcohol and no habit-forming drugs are found in it. Some unscrupulous medicine dealers may offer you a substitute. Don't take it. Don't trifle with your health. Write to World's Dispensary Medical Association, Dr. R. V. Pierce, President, Buffalo, N. Y.—take the advice received and be well.

"Paying by Check"

It adds to the credit of any man to be able to write his check in settlement of an account, payment of a debt or for the purchase of anything, no matter how small, and insures a receipt and record of the transaction that may save trouble later on.

The First National Bank,
