One of the greatest church reunions for this part of the state will be that which will be held at beautiful Lakemont park, Altoona, on Thursday, July 25. It is the Lutheran reunion, already planned and preparations are under way for the greatest outing day among Lutherans and their friends. It is proposed to make the coming reunion the greatest ever held. Nothing will be spared to make it a day of enjoyment, profit, recreation, inspiration and sociability. A great treat will be presented in the way of addresses, vocal and instrumental music. Some of the most popular speakers obtainable will be present as well as some of the best singers, not only in Altoona and vicinity, but far-famed for good singing—but singers from other parts of the state as well, will attend. Mr. J. Raymond Hemminger and Mr. Johnson, his famous Australian piano accompanist, have promised to come. It is planned to have a juvenile choir of 300 voices from Altoona. There will be three services, all different in character, but all interesting, entertaining and helpful. Plan to attend. The meals for the day will be furnished by the Fourth Lutheran congregation, of Altoona.

**M'Grea on Trespassing.**

James M'Grea, president of the Pennsylvania Railroad, has written as follows in reply to a request from a current number of one of the magazines concerning the unnecessary loss of life of steam railroads:

"It is horrible to me to think of the number of trespassers that are killed or injured on the lines of the railroads, simply because they pay no attention to the laws on the subject. On the Pennsylvania system alone in the last ten years there were 8523 trespassers killed and 8285 injured. The danger to the public is due to the custom of carrying concealed explosives on passenger trains and trolley cars is also very great.

**Titanic Hit Berg of Which She Knew.**

That the iceberg with which the Titanic collided was one of those of which she had warnings from other ships is the conclusion reached by the board of trade court of inquiry at London, after a careful examination of the wireless telegrams passed to and from the steamer on the day of the disaster.

This was brought out in the course of last week's session, when the testimony of Herbert J. Pitman, third officer; Joseph G. Boxhall, fourth officer, and Harold G. Lowe, fifth officer, of the Titanic, was concluded. Their evidence was similar to that given in the United States.

**How Late Can We Prune?**

This is a practical question asked at this time of year by many persons. State Zoologist Surface from his office at Harrisburg has issued the following statement:

"Pruning can be done at any time of the year, but the larger branches should be cut off when they are dormant or nearly so. If I had trees that really needed pruning, I should do this even after the time of full blossoming, but should prefer to do it before the growth has started much. The large stubs should be painted with tar paint or oil paint. Be careful about burning brush near the trees as they are easily damaged by heat."

**Too Late to Save Baby.**

Samuel Lundy, two-year old son of Hyman Lundy, a peddler, was killed by an express train near Canton on the Northern Central railroad Tuesday of last week. The train, which left Williamsport at 3 o'clock, had almost reached Canton when the little fellow ran on the tracks. The engineer threw in the reverse, while a brakeman, E. J. Ellston, jumped to the ground and ran toward the child in an effort to save him. However, the speed of the engine, although much slackened, was too great and just before Ellston reached the baby the train crushed it.

ALL DRUGGISTS 11-16

**Anty Drudge's Sunday Evening Sermon.**  
Mrs. Housekeeper—"How I dread wash-day! Thinking of Monday drudgery spoils my Sunday evening."  
Anty Drudge—"You are foolish, my dear, to dread a thing that can be made a pleasure. Use Fels-Naptha soap and your washing will be so much easier that Monday will no longer be a Sunday night-mare. And you will have much better looking clothes!"

Is this the kind of a wash-day in your home?  
Hours of boiling over a hot stove?  
Hours of rub-drudgery to get out the dirt?  
Sore hands? Aching bones? A dingy wash when it goes to the line?  
Here's the new wash-day:  
Fels-Naptha soap in cool or luke-warm water. Dirt dissolved as if by magic. Cheerful disposition. White hands. White clothes.  
Fels-Naptha has done more to brighten home life than any other one thing. Think of it! A soap that fairly lifts the dirt for you; that cuts wash-day labor in two.  
It saves your hands; protects your health; prolongs the life of the clothes. And it's the best for every kind of household cleaning. Follow the directions on the red and green wrapper.

**PLANS NOTABLE EXHIBIT.**

Dairy and Food Commissioner Foust and Dr. William Frear, of State College, have begun to arrange for the exhibition which Pennsylvania will send to Seattle for the annual convention of the state and national food and dairy associations, which will be held in that city July 9 to 12.

It is planned that the exhibit of the state department will be the largest and most notable of any state of the east. The convention will be the most important gathering of pure food experts in the country and will also take the question of national legislation. The authorities of State College will send three laboratory experts who will have charge of the specimens which will represent the dairy products from Pennsylvania.

**Runs Big Orchard.**

A woman manages one of the largest orchards in the country. She is Miss Elizabeth M. Hayward, and the orchard, in which are 10,000 trees in bearing, is near Hancock, N. H. It belongs to her father, who, because of illness, was forced to turn it over to his daughter. She also keeps 5,000 hens.

**Big Harvest in Sight.**

Persons passing through the country districts, especially in Bald Eagle and Nittany valleys, state that the grass and wheat crops at the present time appear to be the most promising in recent years. This is especially true of the former and a bumper crop of hay is expected in this section. The wheat also appears thrifty and unless some unfavorable condition arises before harvest, this also will be a big crop. Farmers took advantage of the warm weather during the past few days to plant corn and oats.

**Destructive Farm Fire.**  
The large barn, tobacco shed, wagon, corn crib and all outbuildings on the farm of Andrew Ferguson, along the public road between Avis and Jersey Shore, were totally destroyed by fire, which broke out Thursday evening at 8:15 o'clock in the straw mow. The flames spread so rapidly that nothing could be done to stay their progress, although garden hose was attached to a hydrant and bucket brigades were formed. Some of the stock was saved, but two calves, several pigs and a horse were burned, as was also all the farming implements, last season's crops, and the tobacco from three acres.

Mr. Ferguson places his entire loss at not less than \$5,000, which is but partially covered by insurance. The origin of the fire is unknown but is supposed to have been caused by tramps, several of whom are said to have been seen in that vicinity earlier in the evening.
