One Shot Kills Two Large Snakes. On Monday morning, while swing-ing in the edge of the woods near their home at Cedar Run, Lycoming county, Theodore Hoffman's two little sons, Boyd and Leonard, noticed large black snakes-one crawling out of a hole in a hollow tree about twenty feet from the ground and the other had wrapped itself around a limb, and was crawling to-wards the hole. The boys called to their father who was working in a field nearby. He took his gun a 38-40 calibre, and by the time he had gotten to the tree, the snakes had crawled so that their heads were to-gether; he fired one shot and killed both snakes. He got them down out of the tree and measured them. They measured five and one-half feet each. When one snake fell out of the tree, it made a noise in the leaves similar to a rattlesnake, but neither one of the snakes had a sign of a rattle.

Mr. Hoffman has lived at Cedar
Run for twenty years and has killed

many different kinds of snakes, but

these seem to be a different specie. He thinks they are a cross between

a rattlesnake and a black snake.

Now that the hills of Clearfield county are about entirely denuded of their best forests of pine, hemlock and other timber, some idea can be gained and placing it inside the clock, below of the immense amount of wealth cut down and floated away from here each engaged in repairing the poultry fence at his mountain home, near Loganton, he sustained a severe injury to the right eye by contact with an apple John E. > Rattle snake Killed Two Boys. Three children were killed as the result of an attack by a rattle snake on a henhouse on the farm of George Adams, near Greenville, N. C., on Friday. Two boys, the eldest 8 years old, were bitten by the snake, and a third child, 1 year old, was drowned in a wash tub. The mother of the children was washing clothing in the yard and ordered the elder boy to quiet a disturbance in the hen house. He tried to throw a hen from her nest and was bitten. The second boy fol-lowed him and he was bitten. When the mother discovered that a snake had bitten the boys she hurried to help them, and while she was busy the baby fell into the washtub.

When a clock does not run continuously, or stops frequently, the cause is often due to lack of oil. This may be remedied by saturating a piece of absorbent cotton with kerosene oil the pendulum. When the cotton removed a month or so later it is found to be very dirty. This shows that the fumes of the kerosene oil have not only oiled the clock, but have

Hair Falling?

You certainly cannot lose your hair and keep it, too. Which shall it be? Lose? Then do nothing. Keep? Then use Ayer's Hair Vigor. That is about all there is to it. Ayer's Hair Vigor is also a splendid hair-dressing and hair-tonic. It keeps the hair soft and smooth and greatly promotes its growth. It does not color the hair. Consult your doctor freely. Doctors are studying these hair questions much more than in former days.
