

BELLEFONTE AND VICINITY

THE LOCAL HAPPENINGS IN SHORT PARAGRAPHS

Cards at the army tonight for the benefit of the hospital. Joseph Fauble, of Monongahela City, was an over Sunday guest at the home of his mother in this place. Mrs. Dora Rine, of Thomas street, is spending the week in Jersey Shore as the guest of her sister, Mrs. Alice Yeager, and family. Rev. C. W. Winey departed on Wednesday for Altoona, where he is scheduled for two addresses before the Woman's Missionary Association today. Earl Crossmyer, of Cleveland, O., who has been visiting relatives at Curtin for the past several weeks, spent Sunday with friends in Bellefonte. Mrs. Oscar Young and children, of Greensburg, are visiting in Bellefonte at the home of the former father, Andrew Dunkle, in Bush's Addition. Calvin Fisher, a graduate of the Bellefonte High school, class of 1912, has secured a position in Pittsburgh and left for that city on Sunday morning. Mrs. N. E. Spangler, who was quite ill the last week, and who is suffering from poisoning, is practically over the trouble again. For a time it was a painful affliction. The members of the Coleville chapel will hold an ice cream and cake social at the home of Frank Smith in Coleville on Saturday of this week, to which they extend an invitation to the general public. Bertha Rickard, of Lock Haven, while on her way home from Spring Mills, where she spent Memorial Day, stopped off in Bellefonte and remained over Saturday night with her friend, Miss Ella Alters. William Bottorf, manager of the Olweine hardware store, was taken ill suddenly on Saturday last, and has been in the house most of the time since. It was nothing serious, only a bilious attack, and he is scheduled to be back on the job in a few days. Messrs. Geo. L. Goodhart, of Centre Hall; Isaac Frain, of Marion township; and Henry Heaton, of Blanchard, were a trio of old-time Democrats, with progressive proclivities, who called on Wednesday morning for a brief chat. They are hopeful of Democratic success this year. Joe Gross, of this place, who recently went to Tyrone to be employed as an ice cream manufacturer in Knievel's cafe, met with a misfortune on Saturday last by having several fingers mashed in the ice crusher. Although painful the injury will not keep him very long from his work. Capt. W. H. Brown, and First Lieut. Richard Taylor, of Company L, are at Mt. Gretna this week, together with all officers of the brigade, receiving instructions appertaining to the various duties of their respective offices in the National Guard. Owing to a rush of business in their new store at State College, prior to commencement, the Sim the Clothier firm was too busy this week to prepare copy for their advertisement on the last page where their customary announcements appear each week. Business with them at the College exceeds their expectations. The exteriors of the United Brethren church and parsonage in this place are being enhanced in beauty by the application of paint. The triangular piece of ground in front of the church, recently added to the property by purchase, is being sodded, and the green spot adds a perceptible beauty touch to that portion of Thomas street. After being housed up for nine weeks, a greater portion of the time confined to bed, Hiram Fetterolf was able to be out on the streets on Monday. Mr. Fetterolf's trouble was an abscess just above the knee cap on his right leg, and, as can be imagined, was very sore and painful. In consequence he is compelled to take "a little slow" when walking. The different committees appointed for the purpose of arranging a suitable program for a sane 4th of July in Bellefonte this year, have been busy the past week with their various assignments and will soon be ready to announce the full program. The entertainment last year was approved by all and the committees this year are encouraged in their effort, as it has the approval of the community. The principal exercises this year will take place on the public school commons in the afternoon. Although the Academy played good ball on Friday, they were defeated by the strong University of Pittsburgh team on Hughes field, in the afternoon. The visitors remained in Bellefonte Friday evening as guests of the Academy at their annual reception and dance held in the armory. The Academy players will stay in Bellefonte over Saturday to play the Bucknell Academy on Hughes field, at 2 p. m. that day. A large crowd should encourage the locals to win the closing game of the year. It will be a good contest. The distributors of the "S. & H." green trading stamps announce in this issue of the Democrat a grand reception at their premium parlors, 25 1/2 High street, on Saturday, June 8th. Every person in Centre county is invited to call and see the magnificent gifts that are given away absolutely free for green trading stamps. If you have never been to this parlor, you should take a day off on Saturday and come to town, and see for yourself why it pays to save the green stamps. In addition you can trade in soap wrappers, tobacco tags, coupons, labels, etc., that will readily aid you in securing some coveted article. Those in charge of the parlor will give you a hearty welcome, and present you with a souvenir and ten stamps free. Just to keep the wolf from howling about his door while he will be attending Columbia College next year, Edmund Joseph who has been a student at State College for the past three years will leave this week to pilot a corps of hustling students to York Pa., where he will have then canvass that city for the purpose of introducing the domestic novelties and kitchen utilities manufactured by the Westinghouse Electric Company. After that he may take in several other cities and will finish the vacation season by tutoring for several weeks at a boy's select mountain camp in the Adirondack mountains. When it comes to hustling this lad has them a moving along the line and is a good one. He will not be howling for help as long as he has health. At Columbia College it is his expectation to take the regular law course.

Will Bellefonte have a sane 4th of July? Yes, it was a success last year and everybody was delighted. Miss Grace Gentzle, of Beaver Falls, Pa., is visiting at the home of her uncle, Mr. and Mrs. Chas. Heister, Willowbank street. Miss Blanche Brown, of Freeburg, is a guest of her sister, Mrs. Rev. Winey, at the United Brethren parsonage, in this place. Gross Bros. were the first to sell groceries at reduced prices in Bellefonte. Their prices are as low as any, and all goods are delivered. Oscar Wetzel underwent a successful operation in the hospital last week for gall stones, appendicitis, and the removal of a growth on his hand. He is reported improving. Mr. and Mrs. Frank Woomer returned from Williamsport on Sunday having spent a week at the home of the former's father, John Woomer, who has had quite a sick spell. John Waite and family, of Lock Haven, autoed to Bellefonte on Sunday and spent a portion of the day at the home of Mr. Waite's brother, Darius Waite, on Thomas street. The Lyric theatre is crowded almost every night with enthusiastic audiences who are delighted with the pictures Mr. Harper is showing. Four big reels of the latest photo-plays for 5 cents. The Brown store room, corner of Allegheny and Bishop streets, is said to have been leased by out-of-town parties who intend opening another low-price grocery. The room is now being cleaned and painted. Quite a number of boys of the local Y. M. C. A. are arranging to attend the Penna. Y. M. C. A. State Camp at Inglenook, on the Susquehanna river, sixteen miles north of Harrisburg, from July 9th to 23rd. This is the week of the State encampment of the Grand Army of the Republic at Gettysburg. Emanuel Noll and W. H. Taylor were to have represented Gregg Post at the meeting, but were deterred from going by the reason of a pressure of other duties. Scott Lambert, the genial janitor at the Y. M. C. A. building, took a few days of this week, and with his wife departed on Sunday for a visit with their daughter, Mrs. James Fultz, in Mill Hill, and other friends in Lock Haven. They returned home on Tuesday morning. The new schedule established for the use of the Y. M. C. A. swimming pool is as follows: Boys—Tuesday Wednesday and Thursday, 1 to 3; Girls—Tuesday, Thursday and Saturday, 9 to 11; 2 to 4. Men—Every day, 4 to 10. On Saturday the pool will be open to all poor boys, and non-members. The work of paving west High street began on Tuesday and is now about half finished. Sam Thomas is bossing the job for contractor Taylor, and from all observations is doing a very creditable piece of work. The very recent work on the paving cannot be extended all the way up High street at this time. High street needs it and deserves it, and—well, where there's a will there's a way. Sylvester W. Ray, proprietor of the Bellefonte shirt factory, is complaining bitterly because many of his employees this spring have been seriously afflicted with the malarial mania and his force has been considerably reduced. That is what he gets for employing only the most attractive and accomplished young ladies in the community. They are quite too nice to make shirts all the time. The Y. M. C. A. will take a prominent part in making the coming Fourth of July an interesting day as well as contributing safe and sane entertainment. In the morning there will be foot or all swimming races in the pool that should attract considerable attention; in the afternoon there will be held a fantasia parade, and an athletic exhibition on the school ground. The eagle will scream, but she'll be a very good bird on that day. Miss Josephine White, for a number of years connected with the American Lime & Stone Company offices at this place as a bookkeeper, resigned her position and has gone to Williamsport where she will remain with her sister, J. L. Menhold, of Mill Creek, Pa., formerly an auditor with a southern railroad, has accepted a position made vacant. He is a married man and will move his family here as soon as he can make suitable arrangements. Tuesday Mary Caldwell caused the arrest of Mary Gallagher, daughter of James Gallagher, for throwing a brick at the window of the former's residence the night before. Both families are neighbors, living on opposite sides of north Penn street. Miss Caldwell is alleged to have seen the Gallagher woman throw a stone through her window that took both such an aim with the stone. The former heard the case on Tuesday evening, and disposed of it by placing the costs upon the defendant amounting to \$4.50. On Tuesday G. M. Grozier, of Wilkes-Barre, was in Bellefonte endeavoring to make arrangements with the business men to have aviator O. E. Williams, of Scranton, come here for three days next week and make airplane flights. The proposition fell on deaf ears, however, as the amount asked by the bird-man was considered too steep to consider. Mr. Williams is thought to be one of the successful aviators who now are filling many dates throughout the state, and his failure to connect with Bellefonte is to be regretted. For several weeks past Fred Kurtz, the senior editor of "The Centre Democrat", was in impaired health, and on last Friday was compelled to take to his bed, and his physician, when summoned, found that he was quite ill. Since then there has been no improvement and his condition is pronounced serious, due to kidney affection. Being in his 79th year, when vitality is low, recovery is a very slow process. After a month's illness Mrs. Fred Kurtz, the wife, is slowly recovering, but is still confined to her bed most of the time. James W. Derr, who has charge of the athletic training of the boys in the Texas State School for the Blind, at Austin, Texas, sends us a report of the annual athletic exhibition given by the institution last Thursday night. The entertainment is said to have been one of the best ever given by the school, and was witnessed by about twelve hundred visitors. Aside from the many intricate drills and artistic club, swinging the blind boys and girls go through many difficult stunts. A feature of the entertainment was the pyramid building by the boys which has been better than is done by the boys of the University of Texas. The blind school closes for the summer vacation this month, and Mr. Derr expects to be home by July 1st.

BORO COUNCIL MEETING.

Council convened on Monday evening with Messrs. Keller, Judge, Sheffer, Walker, Brockerhoff, Beezer, Daggett and Cherry present. As this was Mr. Daggett's initial appearance at the council chamber since his appointment, the first in order was to swear him in, which was accordingly done by Burgess Bower. The various standing committees had nothing of importance to report. Treasurer's report showed a balance on hand June 1st, of \$1754.32; of this amount \$1022.00 represented collections for street paving. At this point Solicitor Mitchell stated that there were but two liens entered for unpaid accounts, the balance of property owners having all settled with the borough. As there were two applicants who wanted to lease the Green mill property at Milesburg for private use, the question as to whom it should be given to was submitted to council by Solicitor Mitchell. Mr. Whitman wished to use but a small triangular strip of the land for farming for which he would pay \$10 as rental fee. Homer Carr asked for the whole property to be leased to him by the month, and to be operated under the agreement that the boro receives one-half the tolls and one-half proceeds from crops. Mr. Judge moved that both propositions be accepted, inasmuch as they do not conflict with each other. The motion was carried. Mr. Beezer was of the opinion that the brick taken from the crossing at the Potter-Hoy store on High street could be utilized in laying a crossing near Schad's residences on Lamb street. This was referred to boro engineer. Mr. Beezer also stated that the fire and police committee recommended that the Undine engine (recently overhauled) be accepted. Complaint has been made of the dangerous condition of the Water street crossing at Potter & Hoy's curb across the street, which is conforming to the new grade, which is considerably higher than the present grade. Although each side of the curb has been filled in with earth, it leaves a high elevation that might change to a vehicle, especially those driven by strangers. Borough engineer was instructed to see what could be done to obviate the trouble. The Bell Telephone company has three poles on High street whose removal is made necessary by the street paving operations, and they asked permission to make a number of changes, which is in accordance with the ordinance governing the placing of poles, that it be done under the direction of the street committee. The matter was referred to street committee and engineer with power to make changes if deemed advisable. A new concrete crossing was authorized to be laid on east Linn street at Cowdrick's alley. Dr. Brockerhoff stated that he wished to build a walk along his property on Quaker Hill, above the Pruner-Orphanage, and asked that something be done to take care of the surface water which has cut a deep ditch at that point. He asked that sewer pipe be laid and the ditch filled up, thus doing away with the danger to pedestrians. The matter was referred to street committee for investigation and report. Finance committee asked for the renewal of a note of \$500, due June 1st, for six months at 5 per cent, and an order for \$20 for accrued interest. Mr. Judge recommended that repairs be started on the Phoenix mill, so that the property gets in proper shape. He referred to water committee. Chairman Keller instructed the finance committee to establish the rate of millage for the ensuing year, and report at next meeting. What Horse Power Means. Very few persons realize just what a horsepower, as expressed in engineering terms, really means. When it is stated that the world's largest Curtis steam turbine, which drives an electric generator in the Waterside Station, New York, develops 30,000 horsepower, the meaning is vague and incomprehensible. Imagine this term reduced to man power, and almost every one can grasp its full meaning. If it takes twelve men to equal one horsepower, then this mammoth turbine engine develops twelve times 30,000, or the working energy of 360,000 men. If these men worked in eight-hour shifts each day, it would require the services of 1,080,000 men every twenty-four hours to produce the working energy of this single turbine unit. Smallpox at Renovo. The six smallpox patients at Renovo are all convalescent, and there is no cause for alarm. How the disease originated is not known, but the first case appeared about four weeks ago. It is stated that this disease was not the old fashioned smallpox, but a disease brought into this country during the Spanish-American war and was very mild. It was decided that all the churches, schools and places of amusement be closed for ten days after May 29. Hope for Peaches. Early reports that the Pennsylvania peach crop this year will be a total failure because of the unusually severe winter are now declared untrue. A Surface, state economic zoologist, to have been decidedly exuberant. "Many trees were completely frozen by the very cold weather," Surface said Tuesday, "but many also escaped. The peach crop, this year will be the smallest in years, but there'll be a crop, nevertheless. I doubt if any orchards have been wiped out completely. I could name dozens of orchards that will have fair crops." A Disgraceful Proceeding. All sensible Americans will sympathize with Andrew Carnegie when he declares that his heart is bowed down "with grief and sorrow over the humiliation of the spectacle now going on between ex-President Roosevelt and President Taft." It is certainly a disgraceful proceeding. It is the duty of the congress and the people to make the recurrence of such a spectacle simply impossible. This can be done by making the president ineligible to a second term. And such legislation will harm nobody. A Legatee of the Astors. Miss Ida Geary, a daughter of Mr. and Mrs. Samuel Geary, deceased, who with her parents, resided on a farm, near Milesburg until about ten years ago when they departed for New York City, and for a number of years has been employed as a housekeeper for the John Jacob Astor family, was remembered by a neat sum in the will of the dead millionaire, victim of the Titanic, relates the Milesburg Telegraph. Little Miss Louise Mayes, en route from Williamsburg to Howard, Pa., made a mis-step coming up from the subway at Tyrone station, on Saturday evening, striking her face on the concrete step, causing a laceration just below the left eye. A doctor dressed the little lady's wound, and she proceeded happily to her destination.

Penny a Word Adv.

Any subscriber can insert a want advertisement in this column one free. If it does not exceed 15 words; charges to others, one cent a word, first issue, no advertisement less than 25 cents; two issues 40 cents; three issues 60 cents. No advertisements will be inserted from this office.
