Anty Drudge Prevents Trouble.

Laura Lovely-"Boo hoo (tears, more tears). What shall I ever do if Jack sees that grease spot on our new

rug? Oh, he will be so cross!" Anty Drudge-"There, there, deary, dry your eyes. Run across to the grocer and get a cake of Fels-Naptha. Be sure it has a red and green wrapper. It will take that spot out in a jiffy. Just a light lather and a quick rinse will do it.'

"Will that stain come out?"

How many times have you said this, when some strong stain of fruit or medicine has seemingly ruined a good piece of linen?

There is no "perhaps" when Fels-Naptha soap is used. A little Fels-Naptha soap, cool or lukewarm water, and the stain is gone! Then, too Fels-Naptha gives the whitest, cleanest floors, the brightest woodwork, the most shiny, brilliant glassware.

And just as it acts on stains, it acts on the dirt in the Monday's wash. You put the clothes in cool or lukewarm water, after soaping them well with Fels-Naptha. Soak for half an hour, rub lightly, rinse and they are clean, pure and ready to hang on the line.

The Fels-Naptha soap method has a four-fold advantage. Saves your hands; saves fuel; saves soap; saves labor. Any one of these is sufficient to make any soap famous. Combined they make Fels-Naptha the greatest drudgery-saving invention of the age.

Read carefully and follow directions on the red and green wrapper.
