Why those Democratic smiles these days and those elongated faces of our erect-white Republican brethren? It's all on account of "Shekaw-go"! But let us beware, lest we be Baltimored after the same fashion.

Fifty years ago, at Baltimore, the old Democracy split in two and let a minority party through the crack, which brought on the dreadful war and all its rueful consequences. Events repeat themselves in cycles and mayhap, now Baltimore will witness the complete rehabilitation of Democracy in new raiment of the 20th century type. And mayhap not!

Isn't Anty Drudge a dear? The Children think so.

Mrs. Large Family—"I'd like my children to wear plenty of white dresses as my neighbors do; but it makes the washing so big. I would never get done."

Anty Drudge—"Nonsense, my dear; let the children wear what their little friends do, and use Fels-Naptha for the washing. You'll be surprised how easy the washing becomes. You don't have hard rubbing or boiling to do when you wash the Fels-Naptha way."

Naturally, the wash is larger in summer. There are so many white things.

All the more important then, to wash with Fels-Naptha soap. For Fels-Naptha not only cuts the wash-day labor in two, but does away with the discomfort.

Cool or lukewarm water is used with Fels-Naptha. You soap the clothes well, roll and place in the water for half an hour. Then you rub them lightly. As if by magic the dirt is gone. Fels-Naptha soap has dissolved it.

Fels-Naptha is as good for every other kind of household work as for the wash. It means cleanest windows, more brilliant glass and china; whiter floors, brighter woodwork.

And for every purpose, cool or lukewarm water is used. Try it this week and see how easy it makes the work. Follow directions on the red and green wrapper.

CORTRIGHT METAL SHINGLES LAID RIGHT OVER OLD WOOD SHINGLES

No dirt—no bother, and when once laid they make a thoroughly storm-proof and fire-proof roof, neither of which can be claimed for the wood shingle. As to price—they cost no more than a good wood shingle, and in some places they cost much less. Roofs put on 26 years ago are as good as new today, and have never needed repairs.
