HOWARD.

Not so great is the torment of him who is wounded in body as of him who is wounded in spirit.

In Our Churches Next Sabbath.

Reformed—Pastor E. F. Faust will preach at Mt. Bethel at ten o'clock and at Salona at half past seven.

United Evangelical—Pastor M. J. Snyder will preach at Fairview at half past ten and in Howard at half past seven.

Methodist Episcopal—Pastor James Edwin Dunning will preach in Howard at half past ten, at Kennedy at half past two, and at Curtin at half past seven.

Council.

All the members were present at the regular monthly meeting excepting Mr. Neff who was out of town. Minutes were read and approved without criticism.

Water. The water committee reported that the reservoir had been cleaned and was full and running over. Nuisance committee reported bad water in Main street gutter from Charles Lucas' restaurant and council directed that it should be discontinued.

Complaint was made that Hovaryman Robb was turning his horses into the street to pasture. Mr. Robb's attention was called to the ordinance against animals running at large.

The Pennsylvania Railroad Company requested permission for the new low-grade track to pass through the north side of the borough.

Mr. McDowell objected and was appointed a committee to consult with the borough counsel N. B. Spangler upon the subject, and report at a special meeting to be called.

Burgess George H. Leathers presented the urgent need of a police officer and made a strong plea for the appointment of one. No action was taken.

Street committee reported the work on the railroad property completed, and four cars of crushed stone received and applied. Several of the old boardwalks which yet cut her our streets were reported in bad condition.

Committee was directed to notify John Robb, Mrs. Wm. P. Lucas, J. L. Reber, and M. P. Holter to repair walks. New brick or concrete were ordered on the properties of Hayes Schenck and the Evangelical parsonage.

Mr. McDowell contradicted the report made last month that the cesspool upon Mrs. Holmes' property was in bad condition.

Contractor Anderson was granted permission to temporarily divert traffic from the northwest end of Walnut street to Canal street while constructing the Walnut street crossing. Bills amounting to \$142.96, chiefly for street repairs were passed and ordered paid.

Railroad Notes. Two big steam shovels, one in A. M. Butler's woods, at the east end of town and the other above Mt. Eagle station, are "scratching gravel" at a great rate.

The big things snap out an entire yard of gravel and "dornicks" at each bite and can take four bites in a minute.

It requires a crew of fourteen men to handle each machine, including the little trains that carry the gravel to the dump.

Two little "dinky" trains of eight or ten dump cars each, are used at each end of the line to carry the gravel from the "cut" to the "fill."

Two crews of men are rapidly stretching the fence of woven wire and substantial posts along the line, that the farmers may not be put to inconvenience with their stock.

A. L. Anderson and Bros. of Pittsburgh are the contractors, and their office is in the old Cooke store room, corner of Main and Walnut streets.

The groups of foreigners employed are good livers and the work of catering to their needs, makes business in our town somewhat lively.

They are a pleasantly quiet and orderly set of people. Not a particle of disturbance among them has been heard of since their arrival.

At some of their camps good music by violin and cello, is frequently heard.

And two hundred men are now employed, and more can be found work.

F. A. Field is the assistant engineer in charge of the construction work.

Shaffer, and the writer shares her appreciation of the fine old christian gentleman and sterling democrat, whose friendship for more than forty years has been one of the assets of life.

Capt. H. C. Holter struck it rich when he secured the good offices of the Hon. C. E. Patton, our representative in Congress, to take up his application for a special pension. Last week the captain received a wire from the Congressman saying that his special bill had passed and received the signature of President Taft. The increase is from \$17 to \$36 per month and the captain is correspondingly happy.
