Domino's Men an Object Lesson. Domino's men is a wise old duck. She came from the Land of Never-

She don't believe in raising stock
To lose their heads on the chopping
block.
She's a busy bird, so they say,
And sings on her way to the house to
lay;
Look to the ant, thou sluggard, the
wise man said, but then
I wonder if that ant is ant to Domino's
men?

JULIAN.

That mammoth and widely known annual picnic of the Williams families will be held in the John Q. Miles grove on Saturday, August 24th. The gathering is looked forward to by hundreds of people from far and near as a "grand old day" at which they can once more converse with old time friends and most heartily enjoy the festivities of the day.

The "panther scare" is again chased out of its hole and it betwixt the this vicious man-eating quadruped is perambulating over Muncy Mountain, just across from town, watching for a "big fat berry picker" on which it might dine. However, if this panther story is made as told, it is not a fact, all jokes should be laid aside and considered as a serious matter for when this heartless cat-like creature drops down upon its prey from a high limb, its victim would have but little chance for escape. Especially children who almost daily patrol the mountain in quest of berries.

The apple crop in and about this vicinity is not going to be a very favorable one this season. The writer while enjoying a buggy ride back in the ridges one day last week, only noticed the few apples which were left on the trees while to mention, the scarcity of things which poor man might raise, and the unusually high price of things he has to buy, this life is becoming almost a burden to the poorer class of people—while the rich man surely will enjoy his days, dressed in costly broadcloth, satisfying his hunger with highly seasoned meats and his thirst with ancient wines. We must remember that the day may not be far distant when time will turn on its pivot, so to speak, and he whose path has been a rough one here below, shall eventually enjoy his good things also.

Last week the Pennsylvania Railroad Co., purchased a strip of ground from Geo. Gill and Harris Harbridge, along the present track, on which it is intended to extend the side track at this place, where the tower now stands, up to Harris Harbridge's crossing west of town. The ties and rails are already on the job and at this writing it is said that in the course of a few days a crew of men will arrive to grade the roadbed and lay the ties and rails. When this is finished the tower will also be moved up to the end. This will extend the present switch about 1/2 mile in length.

Mrs. E. J. Irvin arrived home on Tuesday evening last week from a month's visit at Erie City, Pa., and Buffalo, N. Y.

Well, my dear readers, I was sorry last week to have you disappointed in the Julian items, but owing to the mysterious disappearance of my letter containing the weekly news, neither I nor the Editor are in the fault.

Mr. Jones, who resides on the corner of Railroad and Beaver streets, by the station, had 46 chickens stolen from his coop one night recently. This indicates that someone has lost all knowledge of the 8th commandment or else it was willfully broken. This is a rather dangerous business for folks to indulge in, as people who raise poultry do not always spend the night in slumbers.

John Miles, Jr., commonly known as "Peck" Miles, has recently joined the great Fraternity of Autoists by purchasing a car. It is a two-seater with its exterior painted red; look for it.

Thomas Marks moved his family and household effects from Martha Furnace down to Julian, and now resides in Mills Alexander's house on Railroad street.

His crew of men were working on the track up near the cut, west of Julian, when a thunder storm came up and passed over the valley. During the storm a bolt of lightning struck a tree about 100 feet from the men which gave them a shock which was felt for some time afterwards. Some felt it in their lower limbs, others in the breast, etc.

Buckwheat is in full bloom at present; Hurray! for that toothsome breakfast cake.

In passing by the home of farmer G. G. Fink one day last week the writer's eyes were dazzled by the illuminating and tasty appearance of Mr. Fink's home, made so by an application of a new coat of paint. Considering the new lightning rods which he has had adjusted to his house and barn, combined with this new coat of paint, Mr. Fink is surely pretty well protected from storms.

The frequent showers which we have been blessed with during the past few weeks, has greatly benefited the corn, potatoes and other necessities of life, which at the time looks more encouraging than it did during

the dry spell.

Reports are to the effect that the festival which was held in the Belleview school yard on Saturday evening, the profits of which were to go toward helping to swell the minister's salary, was a marked success. This signifies that our people all turned out, bringing with them a large appetite for the goods which were on sale. That is right; how can we expect our Rev. to dine on chicken considering the unusually steep elevation at which this toothsome bird is perched with his salary.

Cy, son of Mr. and Mrs. Morgan Richards, of Jersey Shore, is spending a few weeks with his grandma and grandpa Turner, on Beaver street.

They were unable to proceed farther, so they came over and spent the night with Mr. and Mrs. H. A. Brungard. Mr. Keller took the car to Bellefonte to the auto doctor and had it fixed up. Returning on Monday morning he loaded up his companions and they went on their way rejoicing.

On last Friday night when Reuben Sheesley returned home, he found the house filled with friends and neighbors to remind him of another birthday, which was somewhat of a surprise to Reuben.

C. P. Long, of Spring Mills, is busy repairing the road through the narrows east of this place. It certainly needs repairing, but am afraid that the Commonwealth of Penna. started in with too small an amount of money to undertake a piece of road in as poor condition as this piece.

FILLMORE.

The festival that was held at this place on Saturday evening was well attended. There was \$15 cleared. As the season is getting late we think this one will be the close of the year.

Deafness Cannot Be Cured

by local applications, as they cannot reach the diseased portion of the ear. There is only one way to cure deafness, and that is by constitutional remedial measures, as caused by the Eustachian Tube. When this tube is inflamed you have a humming sound or imperfect hearing, and when it is entirely closed, deafness is the result, and unless the inflammation can be taken out and this tube restored to its normal condition, hearing will be destroyed forever. Also cases out of ten are caused by Catarrh, which is nothing but an inflamed condition of the mucous surfaces. We will give One Hundred Dollars for any case of Deafness (caused by catarrh) that cannot be cured by Hall's Catarrh Cure. F. J. CHENEY & CO., Toledo, O. Sold by Druggists, 75c. The Human Heart

The heart is a wonderful double pump, through the action of which the blood stream is kept sweeping round and round through the body at the rate of seven miles an hour. Remember this, that our bodies will not stand the strain of over-work without good pure blood any more than the engine can run smoothly without oil. After many years of study in the active practice of medicine, Dr. R. V. Pierce found that when the stomach was out of order, the blood impure and there were symptoms of general breakdown, a tonic made of the glyceric extract of certain roots was the best corrective. This he called

Somewhat

—The bashful young man had been invited out to Sunday dinner at the home of his fiancée, after being seated the hostess began making excuses for not having a very elaborate layout, whereupon the young man, wishing to assure her

that everything was satisfactory, exclaimed: "Oh, it's all right, what there is of it." Then, thinking that did not sound exactly right, he added, "and there's enough of it, such as it is."
