School directors are being warned against paying teachers \$50 unless they have a "certificate of proficiency" from a county superintendent in addition to the state, permanent or professional certificate they may hold. The state will pay back to the districts only on the conditions that teachers hold this certificate of proficiency. Your Lungs and Throat. The preparation mentioned by the Rev. Chas. Sager has been for over sixty years of incalculable worth to sufferers from consumption, asthma, bronchitis, catarrh, gripp, coughs, colds and all lung and throat diseases, and is a household remedy in many many homes to which it has brought health and happiness. Ms. C. A. ABBOTT, August 11, 1905. 60 Ann St., New York City. Dear Sir: I have known for over 40 years of the effects of Wilson's Remedy (Wilson's Preparation of Hypophosphites and Biogetti) in cases of pulmonary troubles. At this point I will say to you what you have not before known of, that 45 years since, while I was a resident of N. Y. City, I was severely ill with lung trouble. Physicians said I was a consumptive and my family physician told my wife that he thought I was not recover. My attention was directed to the Wilson Remedy, which I used with splendid effect. I have been on my feet and at work ever since my cure. Yours truly, R. V. CHAS. SAGER. Pastor M. E. Church, Hunter, (Greene Co.), N. Y.

The above letter shows what a great boon the Wilson Remedy was to Mr. Sager, but it is but one of thousands received testifying to the curative powers of this wonderful remedy. Write at once to Mr. Abbott at the above address and he will furnish you convincing proof of the great worth to humanity of this preparation.

NOW FOR THE SIDESHOW.

Everything in the sideshow of Roosevelt and Perkins is visible except the Harvester trust and the establishment at Auburn, N. Y., where women and children work under conditions that would disgrace Russia.

PREVENT WHAT SMUT?

Free Instructions Supplied For All Farmers Interested. The raisers of wheat in many of the eastern states are, according to a statement in a bulletin issued by the United States Department of agriculture, subjected to "an enormous loss" every year, by grain smut; and the same authority claims that this loss could "be entirely prevented with but a very slight outlay and with a minimum of trouble." If the effort were made. This effort involves only the proper treatment of the seed wheat, and the time for planting winter wheat is soon to arrive.

The bulletin above mentioned very truly points out that "wheat containing any appreciable percentage of stinking smut has a disagreeable odor, and is frequently subjected to a heavy discount by millers on this account." What is more to the point is the statement that "it is perfectly feasible for every farmer to protect himself not only from this discount, but also to get materially increased yields if his wheat is not badly infected with smut."

Farmers' Bulletin 256, issued by the United States government bureau of Agriculture recommended four principal treatments for smutted grains, but a new bulletin (Farmers' Bulletin 567) is now in press, which particularly recommends the formalin treatment for the prevention of stinking smut in wheat, and Mr. Edward C. Johnson, Pathologist in Charge of the Office of Grain Investigations has very kindly offered to send the new bulletin to applicants, which those interested should gladly note. The slight trouble of writing a request for the bulletin, addressed to the Bureau of Agriculture at Washington, and the investment of a postage stamp, will well repay the farmer that is anxious to reap the full reward of his labors.

Possibly some farmers may prefer to seek advice regarding prevention of smut from their state bureaus, agricultural colleges, or experiment stations. Secretary of Agriculture Critchfield of Pennsylvania writes that his department has recommended officially only the formaldehyde treatment, and refers those interested to the Director of the Pennsylvania Agricultural Experiment Station, at State College (P. C.) Penna.

Nervous? Thin? Pale? Are you easily tired, lack your usual vigor and strength? Then your digestion must be poor, your blood must be thin, your nerves must be weak. You need a strong tonic. You need Ayer's Sarsaparilla, the only Sarsaparilla entirely free from alcohol. We believe your doctor will endorse these statements. Ask and find out. If you think constipation is of trifling consequence, just ask your doctor. He will disabuse you of that notion in short order. "Correct it at once!" he will say. Then ask him about Ayer's Pills. A mild liver pill, all vegetable. Made by the J. C. AYER CO., Lowell, Mass.
