HIS PAST.

—From New York World.

It will be remembered that it was in 1904 that Roosevelt wrote the celebrated "My Dear Mr. Harriman" letter, saying "you and I are practical men" and asking the millionaire magnate to the White House, and after a conference that Mr. Harriman raised \$240,000, which was used in the campaign; and that it was also in this campaign Perkins contributed toward Roosevelt's campaign insurance company money belonging to women and children.

Daffy Down Dilly has come up to town, In a fine petticoat and a green gown; Starched is the petticoat, spick and span white, 'Twas done up with Fels-Naptha, that's why it's so bright."

Did you ever look at a piece of linen under the magnifying glass?

Or any other kind of cloth?

You'd see a multitude of small threads woven together with tiny open spaces between.

When soiled clothes are boiled, the dirt is just softened, not loosened.

When you rub them on the wash-board, the soft dirt is partly rubbed into the tiny spaces between the threads and you might rub till Doomsday without getting it all out.

That's why clothes washed in the boiling, hard-rubbing way are so often muddy or dull-looking.

They're not wholly clean.

Fels-Naptha cleanses clothes perfectly because it attacks the dirt and dissolves it.

Breaks it up into particles which are easily rinsed out of the cloth meshes.

Fels-Naptha Soap does this in cool or lukewarm water.

No boiling; no hard-rubbing; takes less than half the time of the old way.

Saves the clothes; saves fuel.

When you've once tried the Fels-Naptha way of washing in the Winter or Summer you'll never go back to the wash-boiler and hard rubbing.

Try it next washday.

Follow the easy directions printed on the red and green wrapper.

Last as long as the building, and never need repairs—never need any attention, except an occasional coat of paint. Just the thing for all kinds of country buildings. Fire-proof—Handsome—Inexpensive. Can be laid right over wood shingles without dirt or bother.(4)
