

# TAXING COAT OFF POOR MAN'S BACK

## Concrete Illustrations of What Protective Tariff Really Means.

### CAUSE WORKERS TO THINK.

Iniquities of the Payne-Aldrich Act, Taft's "Best Law Ever," Strikingly Told in Figures.

Concrete examples of how a protective tariff operates are causing the workingman, the "poor man," to do a lot of thinking nowadays. He is beginning to understand whether it is not about time to call a halt on the Republican practice of taxing the coat off his back and threatening him with the loss of his shirt and his socks if he does not submit.

All through the present tariff law, passed by a Republican congress and indorsed by a Republican president as THE BEST TARIFF BILL EVER PASSED, are to be found discriminations, the higher duty on the cheaper article, the lower duty on the dearer article, thus placing on the shoulders of those least able to bear it the greater burden of the protective system. Here are some illustrations:

The cheapest wool blankets bear a duty of 165.42 per cent; the dearest, 104.55 per cent. Flannels, not more than 40 cents a pound, are taxed at 143.07 per cent; over 70 cents a pound, 76.37 per cent. Wool plushes, cheapest, 141.75 per cent; dearest, 95.33 per cent. Knit fabrics, cheapest, 141 per cent; dearest, 95.53 per cent. Stockings, worth from \$1 to \$1.50 a dozen, 76.37 per cent; from \$2 to \$3, 59 per cent. Hats and bonnets, worth not over \$5 a dozen, 62 per cent; over \$20 a dozen, 35 per cent. Carpets, highest priced, 50 per cent; that used for mats and rugs, 126.58 per cent.

Women's gloves, unlined, 49 per cent. lined, 34 per cent; longest gloves, unlined, 42 per cent; lined, 29 per cent.

Men's gloves, worth less than \$3 a dozen, 66.28 per cent; costliest gloves, 14.45 per cent; leather, unlined, 44.58 per cent; lined, 29.50 per cent.

Buckles, cheapest, 77.48 per cent; dearest, 26.33 per cent.

Uncut diamonds bear a 10 per cent duty; imitation diamonds, 20 per cent. The humble freeracker bears a 97.02 per cent duty, while elaborate freeworks bear but 70 per cent.

Mattings, smaller and cheaper grades, 43 per cent; costlier, 24 per cent.

Watch movements, seven jewels, 66.02 per cent; 11 jewels, 40.41 per cent; 17 jewels, 34.45 per cent.

Underwear, cheapest, 56.90 per cent; dearest, 50 per cent.

Dress goods of wool, cheapest, 105.42 per cent; dearest, 94.13 per cent.

Velvets, cheapest, 105.22 per cent; dearest, 49.55 per cent.

Silk handkerchiefs, cheapest, 77.44 per cent; dearest, 59 per cent.

Scissors, worth 50 cents a dozen, 52.21 per cent; worth \$1.75 a dozen, 46 per cent.

Table knives, fancy grades, 57.40 per cent; bone handled, 60.43 per cent.

Butcher knives, best grades, 52.10 per cent; cheapest grades, 33.55 per cent.

Files, smallest, \$1.20 per cent, longest, 36.81 per cent.

Shotguns, worth from \$5 to \$10, 47.07 per cent; worth over \$10, 45.46 per cent.

These are only a part of the discriminations, gleaned from a swift conning of some of the schedules. Reduced to simplest terms, they mean that the poor man is taxed higher than the rich man.

## TRAVELING MEN FOR WOODROW WILSON.

He Has a Record of Making Good His Promises to Voters.

The traveling man is a live wire. Traveling men are decided factors in molding public sentiment.

No other class of men come in more forceful contact with the actual condition of the high cost of living without a corresponding increase in salaries.

The traveling men need Governor Wilson for their president because his record is that of making good promises and then honestly fulfilling them. Governor Wilson in his candidacy needs the help of every live traveling man.

Every genuinely progressive commercial man who is willing to help Governor Wilson's candidacy is urged to send his name immediately to the Commercial Men's Wilson committee, care Organization Bureau, Democratic National headquarters, Fifth Avenue building, New York.

President Taft congratulates the Republicans of Maine on what Chairman Hilles describes as "an old fashioned victory." Another such and Vermont and Rhode Island would go Democratic in November.

Those who know and feel for Chairman Willes say he really isn't to blame for the Republican presidential candidate's announcement that he "is out of politics."

What's a moosette? A third term peekaboo!

## AGAINST THE FARMER.

One of the most important, most progressive bills introduced into Congress during the past session was the Farmer's Free List Bill. The passage of this bill was advocated by most of the grangers throughout the nation. One of the objects of the bill was to cheapen the price of agricultural implements, fence wire and hardware generally used by farmers and exclusively manufactured by trusts. Annually, we manufacture over \$110,000,000 worth of agricultural implements of which we export one-third and sell them across the water in competition with European manufacturers. Thus we see that we are able to compete with foreign manufacturers of like implements in the markets of the world. Why then, should the farmer of the United States who sells in a comparatively free market and buys in absolutely protected market, pay more for plows, harrows, reapers, drills, planters, mowers, cultivators, threshing machine manufactured at his door in his own country than the farmer abroad pays for the same implements, notwithstanding the additional cost of transportation across the ocean and the maintenance of foreign agencies for their sale? Why should a trust tax the American farmer by making him pay more for farming implements than his European brother? This bill passes the House but in its passage this district has no voice for the reason that Mr. Patton failed to vote either for or against it. The bill, however, passed both the House and the Senate but was vetoed by President Taft. Congress then made an attempt to pass this highly progressive piece of legislation over the President's veto. This required a two-thirds vote. Every member was forced into line. There was no neutrality. Though the bill upon reconsideration received a handsome majority it lacked the necessary two-thirds and failed of passage over the President's veto. Every standpatter was found arrayed against this bill in the final test, and among them was Charles E. Patton of this district who voted against the bill and sustained by his vote the veto of President Taft. There is no doubt that the final passage of this bill would have proven highly beneficial to the farmer. Farmers give this article your careful consideration. Investigate the statements here made, and after you have done this, it is up to you to decide whether you support Charles E. Patton for Congress who fails to support your interest when there and casts his vote for the trust that has been robbing you for years.

## The Men Who Succeed

as heads of large enterprises are men of great energy. Success, to-day, demands health. To all is to fail. It's utter folly for a man to endure a weak run-down, half alive condition when Electric Bitters will put him right on his feet in short order. "Four bottles did me more real good than any other medicine I ever took," writes Chase B. Allen, Sylvania, Ga. "After years of suffering with rheumatism, liver trouble, stomach disorders and deranged kidneys, I am again thanks to Electric Bitters, sound and well." Try them. Only 50 cents at C. M. Parrish, Ph. The college has established a department of music, to which Prof. C. C. Robinson, of Oklahoma university, has been called. Prof. Robinson, who has been here all summer, will be ably assisted by Mrs. Robinson, a pianiste of rare ability. Chaplain Robert Rush Reed will fill the chair of professor of Biblical history.

The outlook for the college was never brighter than it is today and a liberal legislature will be the means of placing the institution where it belongs—in the front rank.

To Name Seven State Policemen. Seven vacancies now exist in the State police, due to resignations of men during the summer, and their places will be filled by enlistments on October 1. There is a large list of applications for the examinations.
